Dear **name**

Thank you for having participated to the online survey and for having agreed to be contacted by us for further questions related to your training experience.  
Your feedback is very much appreciated.

In the online survey you indicated that you have **not (q9)** applied the knowledge/skills **infrequently (almost never)/occasionally/frequently (on many occasions) (q11)** to your work.

**Level 1**

1. Tell us which training event you attended.
2. How long was the event you attended (effective time spent for completing the event)?
3. **Did you take the learning event for the sake of learning, or did you decide to sign up with a specific goal to be able to perform e.g. job tasks (what tasks?) better? Why?**

### Level 3

4. Could you kindly further explain the factors (mention factors) (q16) that enabled/prevented you to apply the knowledge/skills to your work and why?
5. You mentioned that you are fully/very/somewhat/not at all (q12) confident in applying the knowledge skills. Could you kindly explain what led you to your reply? To what extent is the gained confidence due to the learning/training event? Express your answer in percentage.
6. **Looking back, please compare your current behaviour at work to your behaviour prior to the learning event. What changes in your behaviour have resulted from acquiring new knowledge and skills or strengthening of existing knowledge and skills? Additionally, could you kindly describe what exactly has changed in your job performance (tasks, actions, procedures, steps)?**  
*What has changed about you or your work as a result of your participation in this training/learning event?*  
*How has your organization/employer benefited from your participation in the learning/training event?*  
*How much % of your working time did you spent on tasks that require knowledge/skills you have obtained through the learning event?*
7. Are you still using the gained knowledge/skills now? If so, could you give a specific example of a situation you experienced that illustrates the success/improvements (or failure) of the application of the knowledge/skills you acquired through the training?

### Isolating effects

8. How much of your improvement at work is due to the attendance of the event? Express your answer in %.
9. Which other factors have also contributed to your changed behaviour at work, if any?

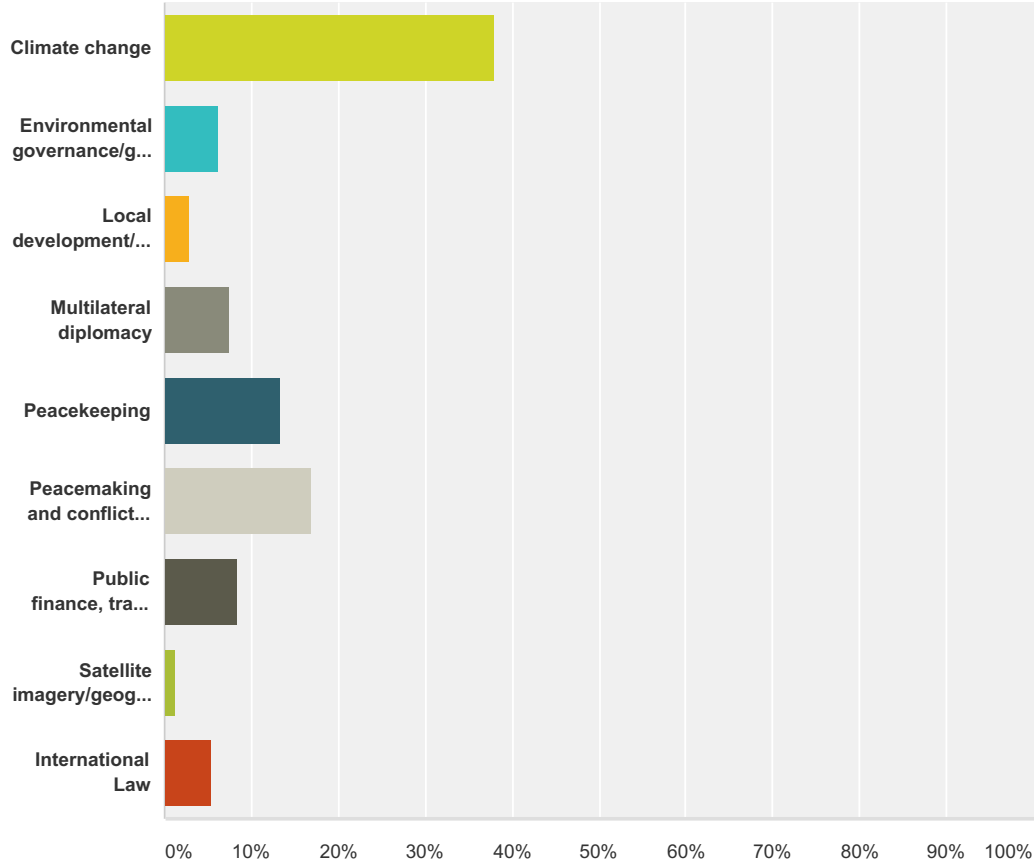

Recognizing that other factors could have influenced your improvement, please estimate the percentage of improvement that is attributable to the learning/training event. Express as a percentage out of 100%.

How confident are you with the response you have given (from 0-100%)?

10. Personalised follow-up question on individual responses of Q 10 if interesting reply.

**Q1 Please indicate the thematic programme area of the training event in which you participated.**

152	As a business/ financial journalist reporting mostly manufacturing industry and import/export trade, the knowledge of multilateral trade negotiation was useful. I now understand rules guiding international trade relations as much as I had done before the course. I participated in the UNIDO Quality Infrastructure Programme in Nigeria and was able to explain to several participants, all journalists, some of the things I learnt from the e-course. This was quite helpful to the UNIDO team. I translated all these into a story entitled,'Nigerian Exporters Paying Heavy Price For Compromising Standards'. The story incorporated some of the rules guiding international trade.	3/31/2016 4:41 PM

## 2016 UNITAR Training Follow-up Survey (English)

157	This training helped in my academic work. Specifically I produced a paper to a conference titled "The role of Economic community of West African States (ECOWAS) in catalyzing climate finance as contribution to inclusive green growth in West Africa" This paper was received by the conference as an all important topic especially now that west african countries are all vulnerable to the impacts of climate change and would desperately need to turn towards inclusive green growth. I have now received new responsibilities because my country Nigeria is still grappling with understanding her true position and policy measures to adopt on this topic.	3/31/2016 2:29 PM
158	I have partially applied the gained knowledge in the development and authoring of new UNITAR e-courses, e.g. on Green Economy and Trade as well as Green Fiscal Reform.	3/31/2016 1:53 PM
159	Making use of acquired knowledge on adaptation to climate change in the formulation of a food security and nutrition programme funded by the EU to strengthen resilience of population affected by climate change in the South of Angola	3/31/2016 1:12 PM
160	The knowledge about history of UN peacekeeping operations and about the UN post 2015 agenda increases my chances to pass entrance exams to Diplomatic Academy of Ministry of Foreign Affairs Of the Russian Federation. For that and for the job UN is doing for our planet I feel great gratitude.	3/31/2016 1:07 PM

## 2016 UNITAR Training Follow-up Survey (English)

181	As a new Bank Examiner dealing with small banks, the knowledge has equipped me with strong knowledge to deal with different issues raised by small banks. For example, I received an application from a certain small bank requesting for approval to conduct agent banking, because of the knowledge acquired, I recommended approval bearing in mind that the same would stimulate financial inclusion.	3/30/2016 8:32 PM
182	Have used portions of the papers I wrote for informing colleagues of international law on transboundary aquifers to help with their work.	3/30/2016 8:29 PM
183	After successful completion of the e-learning course on climate change I applied all my gained knowledge and skills in the organization of climate change workshops and seminars.	3/30/2016 8:18 PM
184	While I feel the training was somewhat helpful, I also felt it was overly complex and cumbersome. I have been working on climate change for 10 years and felt that the core information was well beyond what the average person would need to know to understand the climate negotiations. I did use the information on the UNFCCC structure and COP history for our teacher delegation that we led.	3/30/2016 8:18 PM
185	It has helped me ever since I took the course to recognize a few details on utilization of indicators.	3/30/2016 7:43 PM
186	I've demonstrated to colleges and relatives various relaxing methods/positions that I ve benefited from the workshop consecrated on TRAUMA. In other hand it was very instructive to see how an EMDR could be self applied and I guess as a non-verbal therapy it would be very appreciated by person who doesn't feel comfortable about relating their traumatic experiences. Thank you for this interesting workshop. NB: the part which sheds light on brain's mechanisms was very appreciated. (Could be great to attempt to a Neuroplasticity's workshop)	3/30/2016 7:36 PM
187	Article writing	3/30/2016 7:31 PM
188	I was made the company's Canadian coordinator for the roll out of the Canadian version of GHS. The course was very valuable in teaching me about GHS and the classification process. With out taking the course I would not have known how to perform my new role. Even though I will not be doing classifications I am now aware of what our sites will need to ensure they can properly classify their products.	3/30/2016 7:25 PM
189	Although not directly engaged in a related field, I have used skills/knowledge learnt in the courses to impart to participants as a trainer in Management. Specifically, the comparative contexts of concepts learnt vis a vis the experiences of the various participants that come from all over the world.	3/30/2016 7:14 PM
190	Negotiation.	3/30/2016 7:11 PM

193	Help in the planting of trees within the premises of the company.	3/30/2016 7:02 PM
194	It helped me access further funded learning course with open university. I am looking to work in the area of policy and the course helped me understand the policy landscape with regards to renewable energy technologies.	3/30/2016 7:01 PM
195	It gives me a Clear vision of all UN offices' work related to disarmament field.	3/30/2016 6:54 PM
196	Since my participation in the training, I have managed to transfer renewable energy project management skills to community based organisation I used to work with such as how to conduct energy needs assessment, how to explore various renewable energy options based on available resources. Currently am working with Ethical Tea Partnership as a Village Savings and Loans and Environmental Officer. We have an energy scoping study targeting smallholder tea farmers and tea workers from tea producers. I am using the skills I got from this course to come up with scoping questions and formulation of data collection tables. I thank the Scottish Government for providing me with the scholarship for my participation that enabled not only me but the communities I work with to have prerequisite skills in energy efficient projects.	3/30/2016 1:16 PM
197	I am responsible for programme development in my office. The knowledge I gained in the training happened to be very useful for my works during programme development of proposal writing in regards to climate change projects. I have also shared about the courses with my colleagues and few of them have showed interest to go through it. I can recall, one of them has already completed.	3/30/2016 11:07 AM
198	As an Environmental expert in Turkey, environmental governance course was very useful for strategy development and policy making.	3/30/2016 10:48 AM

## 2016 UNITAR Training Follow-up Survey (English)

201	i applied some skills from the training to the youth mates on how they can be peacemakers ,and how they can prevent conflicts among themselves, in the areas i am working in.	3/29/2016 8:28 AM
202	Thanks to my training in Multilateral diplomacy and peacekeeping, in my office was in charge of following the activities/meetings of bilateral and multilateral cooperation of my ministry with other partners (New responsibilities then).	3/28/2016 10:48 PM
203	I applied how to write a business plan and how to plan for opening a startup. after the course I decided to open a startup in the field of tourism and I applied all the guidance supplied to us during the course in my steps.	3/28/2016 7:41 PM
204	the new methodologies of training Team work participative training	3/28/2016 5:35 PM
205	I am an active duty officer in the Romanian military and used the knowledge in the pre-deployment to Afghanistan training. Was useful to understand that a country emerging from conflict needs help in order to re-build its security institutions. Consider the course very helpful understanding the other domains apart from the military one.	3/28/2016 2:51 PM
206	actual negotiations in COP21	3/28/2016 10:20 AM
207	i learn and know the below mentioned point from this program UNITAR Fellowship program. 1- how i can write proposal to donor ? 2- how i can identify the risk of Project? 3- how i can lead or implement the project. and some other also....	3/27/2016 6:33 PM
208	I have improved my communications with my colleagues and friends. I now believe that no matter how complex an idea is I have to be able to explain it in easy words to some one without prior deep knowledge. I have increased my professional network and made some friends as a result of the Fellowship and we occasionally meet. I've learned how to coach and mentor others by motivating and asking question that makes them think more about the subject, rather than imposing MY idea on them with my knowledge and expertise. I believe I've improved my presentation skills. We have been presenting our project to a wide audience on several occasions. That real life practice was useful. After doing the disc-review I know some of my strengths and weaknesses and can identify others' as well. By identifying these I can adjust my behavior and expectation towards other team players in order to gain more out of the teamwork. Above all, I've learnt how to be a team member. This was evident in our group's best performance by receiving all green vote from all the panel members. I've not received promotion but, my office has given me responsibility big projects. I believe this is due to the trust they have. This trust can not be gained and maintained unless with the hard work and doing a little "homework" outside regular day to day business. And I think, that "homework" is the programs like UNITAR fellowship that I participated. Good luck with the future Fellowship plans!	3/27/2016 3:00 PM
209	I totally knew that how to write a proposal , how to assess baseline data and the narrow different between reasons , results out put and out comes.	3/27/2016 11:13 AM
210	I am more aware of how to analyze and report conflict issues	3/26/2016 2:07 AM
211	Held group event with the intention of building a network for going green by starting with understanding climate science, international legal and policy framework, climate change finance and many other issues like mitigation and adaptation and so on	3/26/2016 12:53 AM

215	As a UNHCR employee, it helped me better understand the mechanism through which the negotiation process goes, as well as the method through which resolutions are prepared/adopted; which is key to my area of work that is necessarily linked to liaising with government partners and else, as well as humanitarian access to refugees in areas of conflict.	3/24/2016 1:14 PM
216	I have used the knowledge gained in the course to raise awareness of climate change issues within the organisation I work for. This in turn has provided me the opportunity to contribute and be part of the National Biodiversity Forum which serves as an advisory board to the Ministry of Environment, Water and Climate. The knowledge and skills I obtained have not only improved the visibility of the organisation but have also increased our capacity as I now have the added responsibility to approach donors and potential partners on efforts that can be made to adapt to and mitigate climate change impacts.	3/24/2016 9:54 AM
217	take away from the training course was shared with the concerned, ideas gathered were filtered to best fit approach in the system and strategy was developed to work on it. I am given lead position to sit with policy makers and to work out in a more detailed manner for fruitful results to come out.	3/24/2016 8:18 AM

## 2016 UNITAR Training Follow-up Survey (English)

218	First of all I tried to start an organizational development under my authority which is southern regional office in Afghanistan that thankfully I have succeed and the process is going on. I also have learned leadership and management skill that I am utilizing them in the office and with my colleagues.	3/24/2016 7:21 AM
219	the introduction to the UN Peace Operation helped me to have a very good understanding of the peacekeeping and quickly adapted myself to the MINUSTAH context that I am working currently. the Leadership-Team Work and Team Management helped me to better interact with my team members. Finally the course make me aware of the necessity for DPKO to manage its impact on the environment and better manage waste. We are now leading to MINUSTAH closure and camp management and camp closure course is very important to help me to better understand the degree to which all stakeholders have to be involved in that process.	3/24/2016 12:04 AM
220	I have a better understanding of how multilateral conferences work, so I achieved better knowledge and more skills of how can improve the instructions and guidelines that I send to my fellow colleges in other embassies and missions. On the other hand, I improved my skills in terms of negotiation in this area. Thank you!	3/23/2016 8:07 PM
221	After taking the On-line Training Course on Fundamentals of Risk Management, I have been more cautious with my dealings, not only on areas of financial risks, but also with other types of situations when weighing whether or not to proceed with certain projects. With financial matters, I have noticed that I have become more thorough in my approaches and with due diligence, and highly selective when checking certain business opportunities. It has become a lifestyle!	3/23/2016 8:02 PM
222	Experience of climate mitigation in world. It's can apply for our communities.	3/23/2016 7:32 PM
223	tools for conflict analysis	3/23/2016 5:15 PM
224	Protocol related to the facilitation of events have been amended and improved significantly Communications protocols have also been implemented in the workplace, including the development of a communication handbook Improved attention to detail in all communications More widespread use of formalities in communications	3/23/2016 4:16 PM
225	peacekeeping, refugees	3/23/2016 4:08 PM
226	In october 2015 there was a political tension between Russia and Turkey. Kyrgyzstan have had good economic relations with Turkey and exported there agricultural products. Due to that fact Russia stopped flowing of trucks to Turkey and back from Kazakhstan and Kyrgyzstan. We started to shape public opinion that Russia authorities behaves uncorrectly with respect to its trading partners, and that the goods are transit goods unrelated to the Russian market. Thus, Russia has violated international trade legislation as well as the intergovernmental agreements in the framework of the Eurasian Economic Union. Kyrgyz trade and transport associations supported this demand. Moreover, it was told to the Kyrgyz government that they had to solve the issue with the Russian side. Finally, during intragovernment comission meeting Kyrgyz Prime Minister asked Russian government members to start to miss our trucks through its territory. Within a week truck started to flow at least to one side (to Turkey).	3/23/2016 2:56 PM
227	What I took away from the training is how a leader can influence the outcome of a project/assignment by adopting a collaborative approach and how important communication is in ensuring a successful outcome. Since taking the training, I have tried to apply some of the lessons that I have leant. More specifically, I am trying to involve those I supervise more in decisions that affect the section. Further, I also ensure that my colleagues, especially my peers, are not only aware but have the opportunity to contribute to issues which I believe affect their sections so that they have a say in decisions that are made.	3/23/2016 1:19 PM
228	After taking part in Green Economy course by UNITAR, i had to write a business plan for Climate Innovation Center Senegal and Green Economy. At this moment , I,really, felt the importance of the course that i took about Green Economy. Thus, the course has been fruitful with lot of positives. However, that would not have been possible if it was not for program like UNITAR which gave me the platform to enhance my capabilities in line with my interest and field of study. I thank UNITAR for that.	3/23/2016 1:02 PM
229	Awareness on redd+	3/23/2016 7:39 AM
230	I am a writer and I have written nine books. Intellectual property rights is something that you can not run away from. Piracy is very much in the system so we have to try and protect our business. I am more careful now with how I reach out to my customers which are basically school children and the general public. I now know a lot about piracy and intellectual rights	3/23/2016 6:50 AM
231	I applied the Unarmed Civilian Protection in my lectures on Protection of Civilians, in the framework of UN Peacekeeping Operations and UN Peace Building Operations. This topic is one of the points of view in order to protect civilians during conflicts. So far this knowledge is for academic and PSO purposes. Not for being promoted or other goal.	3/23/2016 6:16 AM
232	I am a lecturer at SUNY Stony Brook University. Peacekeeping Operations and several IAEA courses (not listed here) helped me convey a deeper insight into the role of the UN in seeking peaceful resolutions to world conflicts and disputes. Unitar does an excellent job and am extremely grateful for the courses as a resource.	3/23/2016 1:37 AM

387	The International Water Law does not apply more in the Philippines but I use some of the system and methodology on how to resolve conflicts and especially the conduct of environmental impact assessment	3/18/2016 6:46 PM
388	I transfered the information to my students.	3/18/2016 6:42 PM
389	Trying to Communicate more clearly by using chunking, emphasis, intonation, as well as other skills relating to non-verbal behavior.	3/18/2016 6:36 PM
390	I have transferred my knowleges and skills in my mission as my position of Chef of Executive Commission of the Organization of African Youth for Peace. I try to transfer my knowleges to my collaborators by face to face training and by network. Actually we are making discussion with the President of African Youth Councils to engage Youth to participate in prevention and resolution of conficts in Africa. In other case, we established National Commission in Côte d'Ivoire and we are going to establishe Cameroon and Togo National Commission. More than today i call the burundi authorities for how our Organization will help them to mobilize youth to support peace in Burundi. Not no longer the will officially response for us.	3/18/2016 6:35 PM
391	I am applying the knowledge acquired from the course to developing a PhD. research proposal. I am focusing on the effects of Climate change on food sustainability.	3/18/2016 6:22 PM
392	Honestly, due to poverty of the country where I come from, it is next to impossible to be proactive to emerging issues. The issues of Global Warming and Environmental Degradation do not receive the attention of Government as they consider that such matters can be shelved in preference allocating resources to immediate needs of the country. The knowledge I gained from the e-learning course enabled me to start mobilizing the communities to begin discussing demanding Programs and Initiative from Government which will guarantee sustainable development. At the rate at which natural resources are being depleting, Greening of Economy can not wait. Noting that the Public System is not supplying, I am using the knowledge I gained to influence the people to start demanding Greening of the Economy.	3/18/2016 6:17 PM
393	I am much more responsible with my actions and try to teach my students to do so, explaining them why and how. (selecting trash by example) I had presented my knowledge to a training session (earthquake and fire)	3/18/2016 6:13 PM
394	I applied the knowledge gained through the course in keeping Environment's concerns. Further, I also acquired wisdom in the Security aspects while operating a field tasks at my duty please.	3/18/2016 6:05 PM

## 2016 UNITAR Training Follow-up Survey (English)

19	I found this particular course very useful and inspiring. Also, the manner in which it was organized both by the trainer as well as by the UNITAR colleagues was very user-friendly and incentivising the participation. The discussion on the forums with other participants in the course was very useful and provided practical examples from the real life. I enjoyed participating in this course.	4/8/2016 1:03 PM
20	Trainers at the workshop were not representative of the diversity of trainees for balanced exchange of the enormous experiences from all the Africa region	4/8/2016 11:23 AM
21	It was good and useful too.	4/8/2016 10:35 AM
22	The selection of participants should be based on merit and carry out follow ups after the training,because i strongly confirm that what matters now is not training people but putting into practice what people have been trained in.some participants basing on how they attended the training, where they got information from after completing the training they do nothing which i think is not good and needs to be corrected.for the next trainings i hope it will be very fine if you pay your attention on this.	4/8/2016 9:17 AM
23	I think UNITAR is very efficient platform for international learners who are potential and interested on Foreign exposure.It should give opportunity to new learners who have no international exposure but have potentiality to work in grassroot level .	4/8/2016 9:13 AM
24	I'm a civil engineer & in the context of Nepal we are directly & indirectly involving in the job of waste management, so i would like to request to UNITAR to arrange the training program to on design & development of waste management structure & system for the personals like me myself.	4/8/2016 7:01 AM
25	UNITAR should frequently conduct surveys and track officers who went through the training for the purposes of mentoring and skill development. Trainings are expensive and equally the out put should be beneficial to the larger man kind globally.	4/8/2016 6:34 AM
26	I am so grateful to UNITAR. I was able to share to my colleagues the importance of undergoing training organized and sponsored by UNITAR. Since I attended lat July 2015, three (3) of my colleagues have gone to Jeju to attend the UNITAR Training. Two of them are my staff (at Urban Ecosystem Research Division. They all his the road running upon their arrival. They applied right away what they have learned. We all finf the UNITAR training very helpful in our function as researchers. I hope the trainings will go on for a long time, and that more ERDB technical staff could avail of the trainings. (For the information of UNITAR, our Division, the Urban Ecosystem Research Division (UERD) is a newly established Research Division and we need a lot of equipping/capability building for our research staff. UNITAR is heaven sent. Thank you.	4/8/2016 5:16 AM
27	It would better have more e-Course for generic topic for basic understanding to staff for substantive subject; such as, disaster risk, disaster management, risk financing and etc, where can apply for other issues.	4/8/2016 3:15 AM
28	The UNITAR program is very educative and empowering. The on- line program has been very flexible yet comprehensive with an active interactive forum. I would however wish for a more responsive feedback with regards our certificates as I am yet to receive mine.	4/8/2016 1:43 AM
29	You have most of the answers to these questions already	4/8/2016 1:05 AM
30	A longer course would have been in agreement with the complexity of the signature involved.	4/8/2016 12:49 AM
31	INTRODUCE MORE ON RENEWABLE ENERGY	4/8/2016 12:18 AM
32	The course certificate should be redesign to make it more globally acceptable	4/8/2016 12:03 AM
33	more courses related with UN peacesupport	4/7/2016 11:13 PM
34	The plenary disussion can be compiled after each discussion and the impetus can be shared amongst the team	4/7/2016 10:27 PM
35	El curso fue muy util para mi, ya que con el amplie mis conocimientos sobre el cambio climatico y ahora puedo fomentar las medidas de prevencion y mitigacion ante los cambios venideros.	4/7/2016 9:50 PM
36	Free training courses represent a great opportunity for the young eager to learn specialist and more of those free courses will be highly appreciated	4/7/2016 9:50 PM
37	Many other such e-learning programmes would be helpful and increase knowledge and awareness.	4/7/2016 8:48 PM
38	Please add more online videos we can watch and learn from. It will definitely make it enjoyable and will also ease the process of learning.	4/7/2016 7:43 PM
39	You could use videos with real cases to emphasize issues	4/7/2016 6:39 PM
40	It is a great opportunity to learn about these factors and will benefit greatly in our capacity.	4/7/2016 6:23 PM

55	I wish you continue to arrange workshkops in Kazakhstan, especially about explaining the methods of analyze political reality (area studies, local government, public-private cooperation)	4/7/2016 2:06 PM
56	The training was not enough, too superficial and thus didn't get enough knowledge to be used at my job	4/7/2016 2:03 PM
57	1- Unitar should make Alumni Association to connect all Unitar family and Participants. 2- The fee of the program is very high for governamental employees, if the there is the possibilites to reduce it.	4/7/2016 1:52 PM
58	Thanks for selection in the survey. The most important factor which I noticed in the training was lack of support from the supervisor himself. The commitment, proper guidance, attention and cooperation from the supervisor should be at maximum level as long as it concerned to their roles and responsibilities as being really coach and supervisor of his or her team. He should ensure to pay attention to their needs and guide them at least. It does not mean to do their homework but as being the coach he or she should guide constantly and being honest and sincere with the team members. If the input is erroneous how we should expect the output is perfect.	4/7/2016 1:49 PM
59	Thanks for good work!	4/7/2016 1:34 PM
60	Whilst incredibly interesting, there was too much information in the main presentation, which, if it is not your normal field of interest, was totally overwhelming. The overall effect was of a useful tool for professionals, but 'way' too much for the average volunteer, although I did learn one or two useful, minor, bits of information.	4/7/2016 1:26 PM

66	I have appreciated this course and the others I have had with Unitar. I think elearning programmes are very useful to transmit key knowledge without all the formal requisite for course. ## 2016 UNITAR Training Follow-up Survey (English)

69	More user friendly app can be used to disseminate course materials online and via emails, also the process of mailing training materials could also be an option. These courses I applied for really could help me in making a difference and spreading the knowledge as so to sensitized others.	4/7/2016 12:46 PM
70	UNITAR should have follow up workshops to know how their students have faired since training. UNITAR should take it upon self to ensure that the students apply skills by liasing with country focal points for UNFCCC	4/7/2016 12:40 PM
71	It is advisable to have wide roster of presenters who were involved in peace talks from different context, this will give a real example of the process and how the dealt with some problems encountered them during the mediation processes. We were involved deeply in the process in Libya and we will be happy to present our experience.	4/7/2016 12:37 PM
72	The course material was nicely condensed to the most important which gives the impression of a steep learning curve when reading, although not as detailed as longer course work would allow.	4/6/2016 4:06 PM
73	I am pleading with UNITAR to incorporate the beneficiaries of their training in any UNITAR programmes both local and at the international level.	4/6/2016 10:56 AM
74	Thank you for the time and dedication to the course, must of the succes on the e -courses depends on the students and on the profesor and their willingness to be there.	4/5/2016 9:38 PM
75	Climate change is a critical challenge confronting development globally. It is necessary that actors must do more to support national governments domesticate frameworks that will help raise awareness, build adaptation and resilience capacities. Increasing accessibility of people to training opportunities is also a sure way to develop skills that would engage more constructively in national and local debates on climate change issues.	4/5/2016 6:20 PM
76	UNITAR's trainings are very valuable in equipping trainee with the competence to be effective and efficient in various work disciplines especially for those who does not have opportunities to attend relevant professional/academic courses. Therefore I am strongly recommending for the free web based trainings to be open year round rather than been closed or inaccessible after certain deadlines. This will be beneficial for capacity building particularly to workers in the third world. I applied for many relevant courses in security, peace and development but cannot access them as the deadlines are closed. Your cooperation on this issue is highly sought.	4/5/2016 5:02 PM
77	UN cc learning course is useful course not only for person have no background about climate change but also people in the same field.	4/5/2016 10:51 AM
78	Very useful and applicable to climate change projects. But course module have to update and modified.	4/4/2016 6:16 AM
79	My feeling is just to congratulate the UNITAR for its excellent work, is keeping doing for strengthening and capacity building of humanity potentiality, in order to help the United Nations having trained actors capable to help the well implementation of the SDGs all around the World. And also as a successfully participant who actively succeeded to the course, it will be really appreciated if the UNITAR could offer me or us the opportunity, or a grant which will help me participate in next face-to-face UNITAR course, opportunity of stage in United Nations negotiations, in order to help me being really active, work as consultant with United Nations and so on.	4/3/2016 12:36 AM
80	Provide more trainings and make the make the UNITAR website easily navigable. Also give more opportunities or support to innovations towards a sustainable future with regards to development. Thanks	4/2/2016 7:06 PM
81	Although reticent to the idea of web based training I thourghly enjoyed participating due to the interactive elements that you managed to integrate in the training. On top of that, the need to commit time over a longer time period helped my memorisation process. It allowed me to leave the training with the feeling of having absorbed the information, which is often not the case in other, shorter trainings where the memorisation often needs additional efforts after the training.	4/2/2016 2:20 PM
82	The course was done in China From look things Chinese need to improve on content delivery and language. There is need for More relavant Field trips made in line with the course. They were Mostly social in nature. Most courses which needed hands on experience were theoretically done. Eg courses on gis. Most of the software applications used Were in Chinese hence not Much benefit back home Funds permitting there is need for provision of equipment like laptops and software applications for participants	4/2/2016 9:13 AM
83	Thanks!!	4/2/2016 3:59 AM
84	The courses should be shorter and more focused.	4/1/2016 8:12 PM
85	three should have more focus on present important issues and have PDR fills to easily excess.	4/1/2016 6:49 PM
86	The course need to be more explanative and more short	4/1/2016 6:43 PM
87	Trainings are very important for the human resources everywhere. In addition, it brought many people from different places in one place and give the great opportunity to share experience and build and strengthen relations. Thanks to UNITAR for the meaningful and useful trainings for all the countries. I would like to suggest the organization of the trainings which covers all areas and includes as much countries in the region as possible.	4/1/2016 6:42 PM

## 2016 UNITAR Training Follow-up Survey (English)

88	Unfortunately, I was not able to finish the online course as it's schedule fell before the holiday season, which was also a time that I was completing some work deadlines. I find the information very useful though and an eye opener. This is personally very useful for me and I believe that should an opportunity present in this area, what I learned would be very useful in my professional work as well. I am also very interested if given the chance next time, to finish this course.	4/1/2016 4:40 PM
89	Thank you for this interview,so we need other training to increasing our knowledge and Skills.	4/1/2016 3:45 PM
90	Some of the information was old and outdated. Also some of the answers on the exam questions were not included in the course. It was not comfortable to work with the presentations	4/1/2016 1:12 PM
91	In previous years, there was a downloadable material that one can download and read after the online session, which is very helpful to follow up the course. Now this is not available and make the course approach difficult to follow.	4/1/2016 1:01 PM
92	It would be helpful to have more online course for generic subject; such as, disaster management and adaptation. rehabilitation, urban development.	4/1/2016 10:44 AM
93	i would suggest UNITAR to conduct more courses/ training program wherein people from my part of world can participate in the same and there should be provision of fee waiver like it used to be few years back for India. The cost of the courses are too exorbitant and beyond limit of learners who pay from their own pocket. it would really enable more and more learners getting to have the specialized skills and knowledge	4/1/2016 9:08 AM
94	I have participated in other programs by UNITAR and I really appreciated the teaching methodology.	4/1/2016 12:04 AM
95	Short tutorial ahead of big UN negotiations are very useful for conference participants, especially for those who are new to the processes. Such tutorial give a good understanding of things and can facilitate communication and work flow at the conferences. I would appreciate to see such a tutorial for the World Humanitarian Summit in Istanbul in May.	3/31/2016 11:51 PM
96	More opportunities be given to least represented organisation/community.	3/31/2016 10:14 PM
97	The course was one of the best courses I have ever taken and it was so relevant for me and the community I serve, I wish 5 or more people from my region can take this course, it will change the way people live here, and we wish the course will be well financed, then just carry it out in one week rather than two	3/31/2016 9:08 PM
98	n/a	3/31/2016 8:17 PM
99	Because of internet connection problem I did not finish the course. If it is possible I will try to continue and finish it.	3/31/2016 7:27 PM
100	The e-course I took was very helpful for me to get acquainted with some basic backgrounds as well as latest developments and trends in international climate finance. Especially, its constructive lesson contents on the organizational structure of UN's climate finance system provided practical understanding about the ongoing green climate politics within the system. I definitely believe such course is indispensably necessary for those who are aspiring for UN careers since it offers an out-of-textbook education at no costs. Thus, I, from the bottom of my heart, genuinely support UNITAR's positive-externalities-creating courageous activities.	3/31/2016 5:57 PM
101	We need more of these courses.	3/31/2016 4:44 PM
102	n/a	3/31/2016 4:17 PM
103	The badge system is a great concept, but the actual badges are terribly designed and formatted. Additionally, making them more relevant for users actually validates the purpose of having badges (low-quality images, inability to display makes the current system altogether irrelevant). Would like to see UNITAR certifications with something like Coursera.	3/31/2016 3:15 PM
104	los cursos que estamos haciendo están siendo extremadamente importante por las herramientas de contenido y tecnología utilizadas durante el curso	3/31/2016 2:58 PM
105	I do like UNITAR and their courses but it is always difficult to reach the courses websites.Thank you. I dream to work in the field with UNICEF one day. I hope UNITAR courses and training will help me reach my destiny.	3/31/2016 2:44 PM
106	There is lack of training and awareness creation activities in my country Nigeria and even where one has this knowledge and is willing to encourage and if possible train others there are no available resources to support such initiatives. Unitar may consider establishing small training centers in our universities where quite a number of our young undergraduates may receive such valuable training on a direct basis or on mooc.	3/31/2016 2:44 PM
107	no comments	3/31/2016 2:11 PM
108	the UNITAR Online courses are extremely useful and convinient. thank you	3/31/2016 11:43 AM
109	UNITAR has done great job in sharing information for the workshop that I have attended. However, hands on training required to master the knowledge that has been shared.	3/31/2016 10:44 AM

## 2016 UNITAR Training Follow-up Survey (English)

110	I would like to extend my thanks to UNITAR and i wish that the Center opening a new courses in different fields and work on advertising for United Nations Institute for Training and Research better and wider, and I hope in the near future that are hiring interns for a certain period at the center to gain the most from the knowledge, skill and conclude by a request that the devaluation of some Courses or put discounts for trainees	3/31/2016 10:37 AM
111	there should be more courses on frequent basis	3/31/2016 10:23 AM
112	I took two courses for the last half year, both in the area of the Public Finance and Trade. The first one I took ("Managing Public Finance Internal and External Controls") in Aug/Oct 2015 was a very useful one, and I especially liked the structure of the module with the very concrete information to immediately apply to the work. The second one I recently finished ("Public Funds and their Auditing") was fine, but I had an impression that the course material was made in a rush (as I saw several typos), and the contents were rather vague, which reminded me of the university type of material. Personally, I preferred to gain more concrete indications and methods from the UNITAR course to immediately apply into the real work situation.	3/31/2016 10:16 AM
113	Course design & organization could be improved. I also took e-training of the world bank institute, which was run much more professional manner with lots of texts, presentations, extra-reading materials, inter-active activities (such as a group project of the participants). In addition, the course was free. UNITAR's e-learning is only providing reading text, test and a webinar which was a poor quality.	3/31/2016 9:32 AM
114	decision-making is compartmentalized and hierarchical which is not conducive to collaborative dynamics.	3/31/2016 9:31 AM
115	Introduction to Security Sector Reform course was fruitful for me and I got enough new knowledge about this topic. Hope this kind of course will help me in my future career. It will be more helpful if you run a courses like Introduction to Private Security or High Level Meeting Security Issues etc... Thank you and would like to wish your team members success in the future.	3/31/2016 9:14 AM
116	The UNITAR Afghanistan Fellowship is highly beneficial for the participants representing both public and private sector at all levels. Since, there are very few women who work at the leadership positions and paying for the UNITAR fees (4000 USD) is not easy for the rest of women who need to capitalize on their skills and build their capacities. I would like to request scholarship for females. Your cooperation is highly appreciated.	3/31/2016 8:11 AM
117	as i have received training from UNITAR, it was one of the most meaning ful and useful training for me and it is playing very vital role in my job. these type of training opportunity are not available in developing countries. i am suggested you to cal from developing countries.	3/31/2016 7:25 AM
118	UNITAR is very important to transfer knowledge	3/31/2016 7:05 AM
119	keep on the good work	3/31/2016 5:35 AM
120	I have greatly like this workshop	3/31/2016 4:51 AM
121	Action points for local / decentralized government situation may be added Action point for various category like consumers, students, agriculturalist, industrialist, local body, traders may be indicated.	3/31/2016 4:14 AM
122	CTA have assigned me to take part in their consultancies in delivering the course in Regional and Worldwide on Web 2.0 and Social Media. Thank you CTA for sponsoring me to take part in this course and to learned more about the technologies. Thank you Unitar for the great course and continue to produce more in the future. Cheers, Tim	3/31/2016 2:56 AM
123	The training was intensive and useful.	3/30/2016 11:58 PM
124	Maybe I am not used to the e-learning format, but I thought all the feedbacks from the other participants were confusing. At the end of some exercises, I was not sure what was the right way to address a particular issue, for example, a table plan. I work for protocol for a delegation, and it would have been helpful to be able to get some checklists and/or guidelines in writing for gifts, table plans, and some other basic protocol rules with the UN. The fact that I couldn't download any online course after reading them, and had nothing in writing at the end was not very helpful since I was going to need the information maybe 6 months after the course was done, and had already forgotten most of the rules. Even if I took some notes, it was so much information in so little time, that I can't get much use of it a year later.	3/30/2016 10:44 PM
125	Reminder emails to continue with training. Would like an easier, united interface, as the courses and information are found throughout various unitar and unitar related websites.	3/30/2016 10:22 PM
126	Please consider coming up with many more short courses on current issues in environment sector.	3/30/2016 10:10 PM
127	Certificate for the course was not issued so far. It would be useful for the certificates to be issued at earliest so as to enable the process of shift to the positions that are more relevant to the course.	3/30/2016 8:36 PM
128	You are doing great job. Please be so kind to develop more similar certificate courses in different fields. Thank you	3/30/2016 8:23 PM

## 2016 UNITAR Training Follow-up Survey (English)

129	Again, I loved the idea of having a course to help with understanding of the UNFCCC, COP and climate change. The problem was that this information was overly complex and far too detailed for the average person. I completed about half of the course, but can't say my knowledge of climate change was increased due to the sections I completed. I know several other people who gave up early on because the course was too difficult and not as useful to every day work.	3/30/2016 8:23 PM
130	Instead of badges, UNITAR must give certificates and more free courses be added.	3/30/2016 7:58 PM
131	UNITAR provides a means of educating oneself and explore more	3/30/2016 7:37 PM
132	I had some interface issues when it came to writing/submitting the final exam. They may have been caused by software incompatibilities but we managed to find a work around.	3/30/2016 7:29 PM
133	Short weekly Audiovisual lectures not exceeding 10 minutes on the topic for each week of the 6 weeks course would aid understanding and interaction.	3/30/2016 7:16 PM
134	Just to say thanks for the opportunity to provide knowledge on such significant thematic issue.	3/30/2016 7:14 PM
135	Insufficient fund hinders the application of skills acquired from the course on Climate change.	3/30/2016 7:09 PM
136	The course was exhaustive , the support excellent and the learning was comprehensive.	3/30/2016 7:03 PM
137	The course I did with UNITAR has greatly helped me in my career and expertise in renewable energy, I wish UNITAR can come up with higher level studies as follow up to your courses such as masters degrees, people should be able to earn credits from the courses that should enable them to finish masters degree. Makes no mistake, your courses are changing not only lives of participant but also the population in developing world in taking their energy challenges head on.	3/30/2016 1:24 PM
138	I would request UNITAR for a comprehensive course on climate change as an advance course for those who have completed the introductory course. That would be great to further develop the knowledge/skills and specialize in the area	3/30/2016 11:10 AM
139	much of training to the different peoples	3/29/2016 8:32 AM
140	I find the e-Course on Climate Change very useful and enriching and I am grateful to UNITAR for the possibility to get new knowledge and insight on this important and challenging issue.	3/29/2016 1:41 AM
141	Improve the Survey questionnaire because I took online courses as well as a workshop, but in the questionnaire, there is only one option to stick.	3/28/2016 10:53 PM
142	UNITAR did not fulfill her promise to accompany us during the course of opening our startup, we find ourselves alone facing bureaucratic procedures.and stand still I am waiting for an answer to open my company.Does one need acceptance from someone else to open a company o to breathe air or to eat por to get Married? If I thought that I would not do the training and devote 15 days for nothing. sorry but this is the truth	3/28/2016 7:46 PM
143	there is a need to do training of trainers level 2	3/28/2016 5:39 PM
144	Provide the opportunity to follow up with an advanced course in the SSR domain, in order to develop a more detailed and accurate picture.	3/28/2016 2:55 PM
145	please provide more free courses :-)	3/28/2016 10:22 AM
146	This fellowship program is very and very useful , need to learn more and create advance program also.	3/27/2016 6:40 PM
147	1. The program needs more media coverage to reach to those who are interested in the fellowship program. I've never heard before about the program until I accidentally saw the LinkedIn news about it. 2. The selections process should improve. This is a prestige program and the operational aspects of the selection program should not undermine it. 3. There should be chances for private sector candidates to apply and use the benefits of the fellowship. This would be very good to see the interactions of the Public and Private Sector representatives in these workshops and give them a chance to network and understand each other. 4. Design an after-completions-plan after the Fellowship is completed, i.e. communications share professional opportunities with them. Fellows are a motivated group of Afghans who can be mobilized to do big things. They can make professional clubs and etc...	3/27/2016 3:14 PM
148	It was really educable and I learnt a lot. I am still keen of this fellowship and greedy to participate once again and learn more and more. everything was excellent.	3/27/2016 11:18 AM
149	It is my prayer that, in as much as many people are unaware or seem to be unaware of your unique services it may be wise to give support to self motivated individuals that show commitment and engage them in activities that are related to the skills they acquire from your training	3/26/2016 1:04 AM

## 2016 UNITAR Training Follow-up Survey (English)

151	Apart from peacekeeping, I also took part to courses in: "Conflit Analyses" - "What is conflit" and " Introduction à la Réforme du Secteur de Sécurité" we would like UNITAR to allow us to expand our studies in other sectors and also continue in this sector.	3/25/2016 3:26 PM
152	UNITAR should send information about trainings to local actors not just to local government but also to ngo, academia, etc.	3/25/2016 11:51 AM
153	The training was very good but I need to be trained further in financial modelling. Financial modelling case studies during the training were not enough for me to confidently acquire knowledge required to train members of UACCIA. I need to specialise in financial modelling to Gain competence and use the knowledge to offer such a service to members at a fee and thus increasing revenue portfolio of UACCIA. I need to have an in depth training in managing private-public partnerships in Uganda, especially as a financial modelling expert.	3/25/2016 8:57 AM
154	Post session from the course participants should continue to gain more ideas and knowledge.	3/24/2016 8:20 AM
155	The course should be also available in English as French speakers it is not always easy to take the postgraduate course in English. It takes me too much time that if it was in French.	3/24/2016 12:10 AM
156	I would like to apply to another free course. I tried to apply to another course on peacekeeping operations, but I couldn't finish it. I hope I can retake it in the future. Thank you so much!	3/23/2016 8:14 PM
157	Fallow up training with deeper understanding needed .we like to send our other colleges for UNITAR traininga. Please aware us for next programmes.	3/23/2016 7:38 PM

160	Time, space and incentives important	3/23/2016 7:45 AM
161	It is a good forum for impacting knowledge especially to those of us that are eager to learn. I sincerely look forward to learning more from UNITED.	3/23/2016 6:56 AM
162	I would prefer some information to "takeaway" as a future reference. The course I finished was with no material to keep on hand for re re-reading it some time later.	3/23/2016 6:25 AM
163	I am very happy with the courses and will continue to take more in the future.	3/23/2016 1:39 AM
164	J'ai besoin d'autres formations. Merci	3/22/2016 11:03 PM
165	UNITAR is one of the best training institutions in the World. Their Programme is well organized and coordinated.	3/22/2016 4:25 PM
166	I believe that the course Negotiations in Climate Change had some linkage problems and I must be permitted to try again.	3/22/2016 4:00 PM
167	Thank you very much for the free e-learning courses and I will be very happy if you will organize more interesting and free e-learning courses and I will be very happy to take part in free courses that will be in feature.	3/22/2016 1:45 PM
168	The reference materials given in the workshop are very useful.	3/22/2016 1:39 PM
169	You have to come up with more free e-learning courses,please	3/22/2016 11:24 AM
170	THE TRAINING ARE HANDY. KINDLY CONSIDER TRAINING MORE AUDIT FOR SUPREME AUDIT INSTITUTIONS AS THEY NEED THESE TECHNICAL KNOW-HOW TO BE ABLE TO MONITOR THE GOVERNMENTS SYSTEMS OF DEBT MANAGEMENT ADEQUATELY. I THANK UNITAR FOR HAVING INVESTED IN TRAINING ME , THE KNOWLEDGE HAS IMPROVED MY UNDERSTANDING OF DEBT MANAGEMENT AND THEREFORE IMPROVED ALOT MY ABILITY TO QUERRY THE DEBT PROCEDURES.	3/22/2016 7:25 AM
171	i am really thanking and appreciating the very useful programs of UNITAR, it was great beside the skills and knowledge which we learned during fellowship, it was also helping Afghan youth in terms of unity and friendship. at the same the visit from Hiroshima and Abu-Dhabi provide us a lot of experience to develop Afghanistan. i suggest the UNITAR program should be continued and has to be extended.	3/22/2016 6:11 AM
172	UNITAR has helped government and private officials of the developing countries by strengthening the human resource capacity development programme. UNITAR should continue with the training programme and sometimes hold refresher course holding back their training experience in such training platform.	3/22/2016 5:47 AM
173	Your training courses are very relevant, especially in my line of work, I urge you to keep up the good work. The modules are simple to understand.	3/22/2016 5:42 AM
174	Organize more often such events at the regional level to establish cooperation between participants	3/22/2016 5:31 AM
175	If possible, make duration longer;	3/22/2016 4:04 AM
176	To apply all the recommendations/ suggestions made during the course.	3/22/2016 1:18 AM

## 2016 UNITAR Training Follow-up Survey (English)

177	I thank the UNITAR for sponsoring us to undertake this e-learning course; 'Web 2.0 and Social Media for Development'. It was a very informative course and i learned a lot of new things. Most of the times, i use social media to get in touch with friends and family but i came to learn that we can do much better. This course has enable me to use social media for a good purpose, for development especially by connecting us with our Stakeholders and allowing us to use the different social media tools to get the message across to a particular group of people. Once again, Thank you UNITAR.	3/21/2016 11:33 PM
178	if the course materials could have video separated from the course lecture notes.	3/21/2016 10:02 PM
179	I have no comments, I do believe that, UNITAR have a lot of resources to provide training or higher Education to those who are interesting to learn more on these issues.	3/21/2016 9:31 PM
180	There are opportunities for Nigeria to seize the benefits of Green Economy from all indications. It would be good for PAGE to assess partnership with the country at national and/or subnational level.	3/21/2016 9:08 PM
181	Technical difficulties made learning an issue	3/21/2016 7:50 PM
182	UNITAR course empowers individual with more knowledge and skills which are useful and applicable in future.	3/21/2016 7:37 PM
183	The course was very useful. I hope to take such course again.	3/21/2016 6:38 PM
184	I can only say that the organization, materials, guidance, etc. provided by the International Master's Degree in Conflictology UNITAR team at Geneva were excellent.	3/21/2016 5:38 PM
185	All I can say is that the Conflictology course is very good. I got the chance to share some of the materials with my superiors and the head of the organization and they were quite impressed with the seriousness of the process and information provided. I know for sure that 2 other colleagues are interested in joining UNITAR after seeing what is it that I am learning and how we can actually apply to our work environment in Governance.	3/21/2016 4:01 PM
186	Good to continue the training and seeking feed backs from participants	3/21/2016 4:00 PM
187	The course has enabled me to understand much about about balance of Payment and its borderline transactions.	3/21/2016 3:49 PM
188	Good introductory course that I have recommended to other via LinkedIn.	3/21/2016 3:44 PM
189	There were annoying incoherences in the UN Protocol course, the tests were really outrageous because the pool of questions were wrongly defined and tests were randomly selecting questions which were not yet covered. This was very frustrating. Discussion boards were not moderated by the course leader, so all ended up without sufficient guidance and consultation. UN protocol course was such a bad experience that I am hesitating to enroll again. The other one, the public Diplomacy in a multipolar world was a far more coherent and better structured course, discussions were well moderated, and all in all that was a good course experience.	3/21/2016 3:42 PM
190	I would like to note that this module of Introductory E-Course on Climate Change needs to include voice notes of each slide, just in case some people can not read the material or are more prompt to learnwhile listening than reading. Some times reading is difficult for some people. Like in the additional modules of Climate change and Cities the text have voice notes of all the text. Thanks it has been a good experience.	3/21/2016 3:31 PM
191	hope of delivering the best experience for each participant countries are given long enough so that each participant can learn more	3/21/2016 3:28 PM
192	1. i would to see UNITAR to develop with the partners some incentive to participant for continuing applying their knowledge they have acquired , because Government staffs are getting poor salaries, so by that is hard for official to be fully committed because the salaries they are getting for the senior official is less 100 USD, then the Juniors are less 50 USD. . 2. we wish for long term face to face training for at lease 6 month and upgrading for Post Graduate Diploma for fully and confidence translating of knowledge for a national benefits.	3/21/2016 3:25 PM
193	Overall good survey, but it's a little hard to give feedback on a workshop about knowledge and skills gained. These are elements of a course, but workshops are generally not designed that way. I would craft different surveys for different types of events so that you don't get false negatives and misleading data.	3/21/2016 3:21 PM
194	I am glad to had this course and I hope some other people use this space to learn and improve their work as I do. And if anytime you have courses about "environmental impact assessment" and "natural resources and environment" I would like to be part.	3/21/2016 3:11 PM
195	As part of my undergraduate international law course, I took the UNITAR 'One UN Climate Change Learning Partnership'. I was satisfied with the course overall, however, I did not recall using the gained knowledge ever since (other than the course exam).	3/21/2016 3:02 PM
196	no	3/21/2016 2:51 PM
197	INTERNET IS VERY POOR HERE THUS THE EQUIPMENT NOT ADAPTED. THAT WAS THE MAIN REASON I WITHDREW FROM THE PROGRAMME.	3/21/2016 2:34 PM

## 2016 UNITAR Training Follow-up Survey (English)

198	The course description was not very detailed. Making additional details available on the content of the course (e.g., the course syllabus) would have been very useful for me in deciding whether or not the course would be useful.	3/21/2016 2:30 PM
199	No	3/21/2016 2:08 PM
200	I have introduced some of my colleagues to UNITAR courses, especially the free courses. However, I am often deterred from participating in other UNITAR courses due to the cost attached. UNITAR courses are great but equally expensive. A downward review of the cost of these courses will encourage wider participation.	3/21/2016 2:07 PM
201	Thanks for a useful course in Russian language, it is very essential that it was provided free of charge. Good lectures and interesting discussions!	3/21/2016 1:57 PM
202	I would like to thank UNITAR for the opportunity to participate in the course which is highly applicable to my job. Arranging for such courses is very useful for Government Officials.	3/21/2016 1:28 PM
203	Good	3/21/2016 12:48 PM
204	It is my hope and wish that UNITAR support me to acquire more training and tools to work with due to the challenges of getting these training and tools locally	3/21/2016 12:27 PM
205	Please give more details about course content so that participants are able to judge if it is the right course for them. A mis-leading course title with little course content information can lead participants to choose courses that are of no use to them, as was my case.	3/21/2016 12:24 PM
206	I have a single remark about this program is that I feel that I am abandoned since the training no one was contact me or support me, I do all things by myself, all alone.	3/21/2016 12:09 PM
207	Cette formation est d'une importance capitale pour la mise en place d'activités agricoles respectueuses de l'environnement. Il convient alors de disposer des ressources pour ne serai est-ce que demarrer les activités après la formation.	3/21/2016 12:05 PM
208	Félicitation à vous et bon travail!	3/21/2016 11:55 AM
209	In general, I get to understand impact of climate change on global economies more than before and capture a clue on how to deal with the impact efficiently and effectively.	3/21/2016 11:44 AM
210	its very useful , it in reached my knowledge	3/21/2016 11:39 AM
211	In my experience, I paid twice to 2 courses with UNITAR but, I didn't have time to finish the training on time. I propose to give open time for participant to enable them to finish their trainings/e-courses.	3/21/2016 11:39 AM
212	Please continue in your innovative and technology based training! Do continue developing training materials and knowledge products	3/21/2016 11:30 AM
213	I found this course very informative and well done.	3/21/2016 11:29 AM
214	During the course, there were some links that ere not working, So I want you to please cross check the links that you want to share so that it can be accessible for all.	3/21/2016 11:25 AM
215	The course was informative and useful. However, the topic is not directly related to my line of work so I was not able to apply the concepts in my day to day work.	3/21/2016 11:13 AM
216	Please review how old your research articles are for the UN Microfinance course. Thanks	3/21/2016 10:37 AM
217	i am grateful for the training i had, and i would love to attend any other training or workshops.	3/21/2016 10:31 AM
218	No it is use full to develop career	3/21/2016 10:23 AM
219	Please developing many e-courses and let give us opportunity for join the course especially people in the developing country	3/21/2016 8:00 AM
220	Please could you design more training specifically for lawyers relating to the drafting and negotiation of complex agreements such as for infrastructure eg power projects and for complex financial structures.	3/21/2016 7:37 AM
221	I am not sure UN agencies actually recognise the stamp of completion - maybe UNITAR can inform the agencies that this is a form of certificate. Also, can UNITAR consider courses that prepare applicants to join the UN system.	3/21/2016 5:28 AM
222	Thanks for the opportunity and for making this type of training spaces for the acquisition of new knowledge	3/21/2016 3:24 AM
223	Continue to decentralise its training to reachout to many people	3/21/2016 2:19 AM
224	As a science teacher, transferring knowledge about climate change is useful to my students.	3/20/2016 11:20 PM
225	Additional time needed for the modules since most students are UN field worker with tight deadlines	3/20/2016 7:46 PM
226	Did modules in the e-learning are very useful and a lot of such modules could be designed in the near future	3/20/2016 6:29 PM

## 2016 UNITAR Training Follow-up Survey (English)

227	Thank you very much for your support	3/20/2016 2:35 PM
228	Your country is better management on Environmental management. your regular support on technical supports through training & exposure. I am section Officer on Solid waste management. so your past support help me clean or management in our city, so if you have any opportunity please help us.	3/20/2016 10:56 AM
229	It is a veritable platform for learning and I found it very useful for my career development.	3/20/2016 9:37 AM
230	should offer free courses	3/20/2016 8:44 AM
231	UNITAR should included more courses like management, logistic etc to allow more people to participated in the training course meanwhile after our last course UNITAR promised to send all the participants certificate but up till now didn't get mine.	3/19/2016 10:27 PM
232	Thanks for the opportunity given to learn many useful things thru this valuable course.	3/19/2016 6:19 PM
233	I found the course to be informative. It was my first detailed information on climate change.	3/19/2016 6:06 PM
234	UNITAR online system is a great opportunity for us because we have limited resources (time and material) especially money. And we need more and more knowledge and skill for the current situation and feature of our country. Thanks for UNITAR especially I got chance to learn online course.	3/19/2016 6:03 PM
235	It's very important for our country , of-course it need for some adjusting in Constanta of Afghanistan	3/19/2016 5:43 PM
236	More free online courses would be beneficial. Thank you.	3/19/2016 2:58 PM
237	we want to stay in touch with UNITAR and any support to implement developed projects while we were in training is greatly appreciated, so as to see conceived ideas operating.	3/19/2016 2:08 PM
238	Next time, the training should include practical experience of sampling techniques and how to conduct a carbon inventory.	3/19/2016 2:07 PM
239	Most people in Developing countries particularly in Uganda anr not aware about the dangers of Climate change even those few who know do not care much.	3/19/2016 12:46 PM
240	More often organize such training programmes.	3/19/2016 11:31 AM
241	The most needed courses provided by the UNITAR unfortunately are very expensive.	3/19/2016 11:28 AM
242	Stages of attempting quiz should be extended as there are some challenges associated to the performance of individuals.	3/19/2016 10:53 AM
243	the content should be further simplified for easy understanding	3/19/2016 8:57 AM
244	Have not received certificate about this courses and i will atended also if the structure can presented to us oportiniy in the international structure 01bp994 cotonou BENIN VIDEROT G.harry Jeer Jr	3/19/2016 8:42 AM
245	More free courses s preparation for further studies.	3/19/2016 7:15 AM
246	The mentors, specially coaches should be change and recruit new coaches to the UNITAR program fellowship. It will be a positive change to the program and it will bring more positive changes to the program.	3/19/2016 6:18 AM
247	Courses you are conducting are excellent I have attended disaster management/Climate change and peace keeping courses.All were excellent.	3/19/2016 5:04 AM
248	I have no comments.	3/19/2016 3:25 AM
249	excellent course, interesting, best organization.	3/19/2016 2:01 AM
250	Thanks to the course, I can use the material into my work and it enable me have good understanding on how to start learning systematically the issue. Hopefully, UNITAR can also put deep topic on adaptation in a single topic.	3/19/2016 1:41 AM
251	will be happy if a get training for another seminar	3/19/2016 12:17 AM
252	UNITAR should normally follow up the applicant right after the end of the training	3/18/2016 11:48 PM
253	I would have love to take part in this training programme organised by UNITAR. I have always wanted to. But due to lack of funds, i have never being able to do that. Thus i am wishing that the programme should also have fellowship opportunities for applicants like myself who cannot self-fund their participation.	3/18/2016 10:59 PM
254	I think i will be grateful to get another training and ma be attend international meetings on the subject	3/18/2016 10:45 PM
255	we need UNITAR to make all courses to have PDF version to help some of us in Africa, who might be battling poor network especially in rural areas. THANK YOU UNITAR!	3/18/2016 9:26 PM

## 2016 UNITAR Training Follow-up Survey (English)

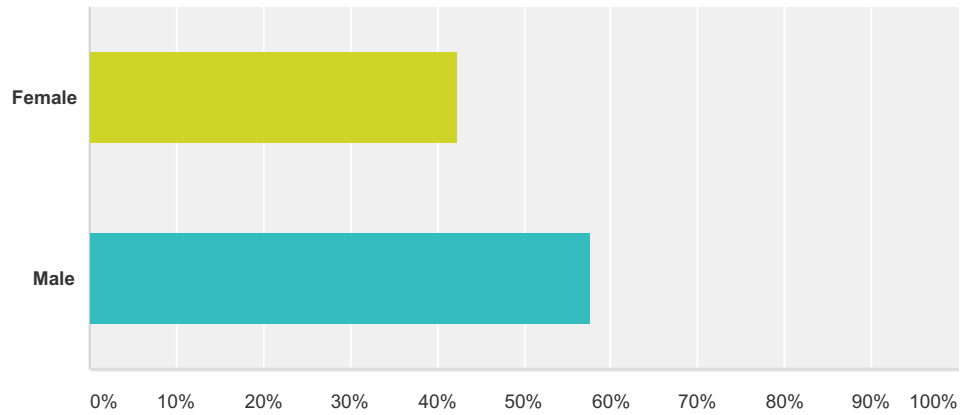

256	UNITAR has strongly impacted me through the Climate Change course and I believe that many more people should know and learn of Climate Change as well as the other training courses. I believe that much public education must be offered especially by participants or beneficiaries of the myriads courses. Social media should be employed to create awareness of the courses and also the issues these training seeks to address. I am willing to volunteer for reaching masses in my country and beyond. I am willing to provide any feedback or reports on my personal campaigns and discoveries in the upshot my training. I fervently appreciate the opportunity to learn of Climate Change and resolving to rally behind a clean climate. I look forward to advance on the subject matter for further understanding on new developments.	3/18/2016 8:33 PM
257	Please conduct examinations from certified professionals / trained participants for recognition as master trainer in respective local communities and design further boost camps for excellent trainers.	3/18/2016 8:29 PM
258	Provide me opportunity to acquire more knowledge.	3/18/2016 8:18 PM
259	It enriches my skills as public officer and diplomat, looking the opportunity to apply this information.	3/18/2016 8:10 PM
260	this is a very useful courses	3/18/2016 7:53 PM
261	Please continue with the excellent options e learning	3/18/2016 7:25 PM
262	I enjoyed a lot during my UNITAR experience. I think that the UNITAR Team did a good job	3/18/2016 6:49 PM
263	Many thanks for your efforts to educate people about climate change.	3/18/2016 6:45 PM
264	Any comments again	3/18/2016 6:45 PM
265	It is so incredibly unclear how to enroll for courses (meaning you have to go through different websites, 'buy' the course, even though it is free, then move back to the previous website) that I have given up on UNITAR online courses, even though there are more I would like to follow. I would suggest to make this (a lot) easier and offer a wider range of online courses.	3/18/2016 6:33 PM
266	I have found this training very relevant to my career goal of contributing to Global food security. Though I currently work in a non-academic establishment, I am making moves to working in an academic Institution or a research Institutes I have a Masters degree in Environmental Control and Management, I therefore quite relate well with the need for an aggressive move to getting the world aware of Climate change and the adverse impacts its having on most environmental systems. I found this course very vital. .	3/18/2016 6:31 PM
267	Considering the comprehensiveness of the e-Learning, I would have appreciated if UNITAR was able to facilitate formation of clusters which could be used for Live Discussion at least twice during the 8 Weeks of the Course. For instance, if UNITAR enrolls at a time participants from Malawi, Zimbabwe and Zambia, they should be able to meet at least twice during the course for them to share notes and best practices. My view is that the course should seize opportunities to present platform for Regional Integration.	3/18/2016 6:23 PM
268	I like to learn and also help other to understand what I learned (I am teacher). I will be sure attending again some course in the future.	3/18/2016 6:16 PM
269	Please provide proactive courses that will boosts and enhance skills in the working domain of many aspirants.	3/18/2016 6:09 PM
270	it was a great training. Keep it up.	3/18/2016 6:03 PM
271	I didn't really feel I learned much new information	3/18/2016 6:01 PM
272	I hope in the future there should be sound.	3/18/2016 6:01 PM
273	After having completed my training i also went on to complete my Bachelor of Arts Honours in Development Studies with Midlands State University. Armed with this qualification and the training i received from Unitar, im quite sure that i can effectively apply skills in conflict infested communities under the auspices of UN or AU.	3/18/2016 5:57 PM
274	I'm hoping that there will be more free offerings with regards to conflict analysis - especially at a more advanced level.	3/18/2016 5:54 PM
275	I had the face to face type of teaching...it was most effective because it gave room for immediate clarifications on issues not clear. The group work was splendid and my instructors were patient enough to know and understand their students.	3/18/2016 5:50 PM
276	It is unfortunate that the e-course was not well documented and the content was "skimmed"on the major aspects of the protocol, the history (other than Europe or US) ceremonial aspect of protocol procedures, behavior of etiquette, rules of courteousness , and respect for precedence. The timeline of the course is short and it may be useful to extend it so as to allow the participants to read all the doucmnets and particpate to the forum/ discussions.	3/18/2016 5:41 PM
277	I would like to do more online free courses in future. Thanks n regards	3/18/2016 5:39 PM
278	I think UNITAR should include graduates in their scheme of work	3/18/2016 5:21 PM
279	that workshop was timely and the simulation exercises were fantastic	3/18/2016 5:21 PM

## 2016 UNITAR Training Follow-up Survey (English)

280	Keep up the good work.	3/18/2016 5:07 PM
281	The climate change course i took was very educative.	3/18/2016 5:00 PM
282	The communication and collaboration with UNITAR classmates from around the world was enriching and rewarding. Also the teaching received from experts called in by the Manager and Senior Trainer.	3/18/2016 4:57 PM
283	keep it up. the course is very good	3/18/2016 4:46 PM

5	En mi comunidad me caracterizo por ser un joven líder con iniciativas de bienestar público. En la zona en la que vivo es un humilde barrio, nuestra calle no está pavimentada, por lo tanto cada año nos veíamos en la dura realidad de sufrir consecuencias tras las lluvias. Pero luego que tome este curso, puse en marcha un proyecto apoyado por la Embajada Americana ya que soy ex becario de ellos, y de igual manera tuve el apoyo de otras instituciones y la alcaldía municipal de mi departamento Santa Ana. En mi barrio se construyó unas cuencas hidráulicas, de retención de aguas lluvias, para servir de regadío a nuestros jardines y de igual manera con el montaje de estas cuentas evitaremos que las torrenciales lluvias siguieran lavando y formando baches en la calle. Posteriormente lleve a cabo un programa de capacitaciones sobre el cuidado y uso de los recursos naturales. La embajada me apoyo donando 100 arbolitos para la iniciativa " Adopta un árbol"	4/8/2016 7:21 AM

1	Me gustaría que incluyeran más cursos en español, ya que el tiempo que se invierte en el curso disminuye si está en el idioma que uno maneja cotidianamente	4/13/2016 1:46 AM
2	Gracias por tan útil curso, espero que aparezcan más relacionados con el manejo forestal y políticas para lograr el desarrollo sostenible.	4/11/2016 6:18 PM
3	Magnífico curso, las ponencias muy informativas y el tema muy innovador. Gracias.	4/8/2016 9:31 PM
4	Me gusto mucho el programa, y estoy dispuesto a seguir adquiriendo mayores conocimientos a través de estos curso. Ya que soy un joven con ganas de superación y causar un impacto positivo en mi país. Por tal motivo felicito dicha iniciativa que llevan a cabo, ya que a través de estos cursos gratuitos y de gran conocimiento, expandimos nuestra información, y un mayor número de jóvenes se ven beneficiados.	4/8/2016 7:27 AM
5	El programa de formación docente en Cambio Climático es una excelente herramienta de creación de empoderamiento en favor del Cambio Climático. Los docentes aprenden-haciendo habilidades para enfrentar el Cambio Climático. Se empoderan de estrategias de adaptación y mitigación frente al cambio. Pero pienso que se hace necesario que la comunidad también participe junto con los maestros de este proceso. Por otro lado se hace necesario que desde el mismo proceso se pueda incentivar la formación de líderes comunitarios que sean a la vez animadores del proceso junto con los docente. Y que estos puedan involucrarse en experiencias de desarrollo sostenible desde iniciativas viables en Cambio Climático	4/8/2016 5:39 AM
6	El curso me resultó muy interesante, estaba bien planteado, como sugerencia recomendaría que al finalizar el curso se le otorgue celeridad en la entrega de los certificados de participación, ya que yo participe el año pasado, y no recibí mi certificado.	4/7/2016 10:42 PM
7	La difusión y acceso a los programas por parte de ex participantes debería ser mejor, también debería de actualizarse periódicamente, utilizando redes sociales como LinkedIn, Facebook, entre otros.	4/7/2016 9:08 PM
8	La certificación es importante considerar la horas lectivas de capacitación, continuar con cursos avanzados con lecciones interactivas en español	4/7/2016 7:53 PM
9	En mi opinión sería útil contar con información oportuna sobre el tema del Curso, particularmente previo a su inicio. Asimismo, las lecturas complementadas con ejercicio prácticos considero que es una importante herramienta de aprendizaje para aplicar los conocimientos.	4/7/2016 7:19 PM
10	Los cursos de UNITAR son muy útiles para el desarrollo profesional de las personas que los toman. Dan bases sólidas en temas y aspectos que en ocasiones tenemos una idea vaga de lo que se trata además de profundizar sobre aspectos que nos interesa desarrollar. Los foros son importantes también para conocer qué piensan los demás participantes debido a que se encuentran en otras partes del mundo y en ámbitos diferentes a los nuestros. Por otro lado, la oportunidad de estudiar en línea da la facilidad de poder planificar los horarios en los que uno puede estudiar y desempeñar las tareas que se piden, lo que reduce el estrés de tener que cumplir con un horario establecido.	4/7/2016 6:16 PM
11	Mantener la dinámica de interacción entre los participantes del curso a fin de propiciar el intercambio de opiniones, experiencias y conocimientos.	4/7/2016 5:15 PM
12	Invitar aeropuertos que pueden ser el afectados por Huracanes ya que, la experiencia de ellos puede ser de vital importancia para TODOS	4/7/2016 2:51 PM
13	Ampliar mas cursos gratis online sobre observacion militar para colombianos en vista del proceso de paz que se esta desarrollando con los grupos , asi como cursos de planificacion para DDR	4/7/2016 1:02 PM
14	Definitivamente la capacitación es esencial para el desarrollo profesional y para la excelencia en los procesos de trabajo. Creo que este tipo de capacitación debería estar mas al alcance de todos los trabajadores.	4/5/2016 6:11 PM
15	Deberían de hacernos llegar mas ligas para tomar cursos.	4/5/2016 4:41 PM
16	que puedan haber mas cursos.	4/5/2016 12:20 AM
17	El curso fue de una gran utilidad en lo personal y en el desarrollo profesional de mis tareas habituales desarrolladas en mi trabajo. Me gustaria en el futuro poder participar de otros cursos de similares tematicas y características	4/4/2016 9:02 PM

ESO DARÁ MAYOR CONTUNDENCIA EN MECANISMOS PERSISTENTES EN LAS DISTINTAS REGIONES DEL MUNDO EN ACCIONES DE MITIGACIÓN DE EMISIONES DE CO2. PROMOVER EL RECONOCIMIENTO Y RESPALDO DE ELEMENTOS CAPACITADOS PARA EL EJERCICIO DE FUNCIONES EN MECANISMOS DE GOBERNANZA DEL TERRITORIO PARA MITIGACIÓN DEL CAMBIO CLIMÁTICO.	4/1/2016 8:29 PM
20	El curso fue útil para mi formación pero dada mi actividad profesional actual como funcionaria consular de México en Miami, no estoy desplegando una actividad de negociación que me confronte con negociaciones que deban destrabarse. Estoy segura que en algún momento cercano de mi trayectoria podré aplicarlos y serán de gran utilidad.	4/1/2016 7:01 PM
21	Los cursos en línea son muy útiles y me parece adecuada la duración e información. Sin embargo, sería bueno contar con constancias de la capacitación recibida, además de las insignias, pues a nivel académico esa capacitación es muy útil pero resulta difícil comprobarla con la insignia.	3/31/2016 6:40 PM
22	Se deberían apertura mas curso de este tipo (de carecer gratuito)	3/31/2016 2:49 AM
23	sería interesantes otros cursos de contexto al cambio climatico, como enfermedades asociadas, variaciones climatologicas de eventos futuros, aplicaciones sociales de las personas del comun para mitigar efectos	3/30/2016 11:08 PM
24	Agradecimiento por la difusión de este tipo de conocimientos. Deberían estar más ampliamente divulgados.	3/30/2016 9:44 PM
25	Felicitaciones por la plataforma, docentes y conocimientos brindados que me han resultado de gran utilidad. Muchas gracias por la posibilidad.	3/30/2016 7:47 PM
26	Excelentes los cursos. Me complacería estar informado de los cursos que ofrecen. Como comenté anteriormente, me interesa que mis alumnos se impliquen en el cuidado del medio ambiente y la importancia del conocimiento sobre los aspectos que repercuten en él.	3/30/2016 7:30 PM
27	Agradezco su atención realmente fue oportuno lo curse	3/30/2016 7:07 PM
28	La información proporcionada fue actualizada y muy buena. La retroalimentación por parte de la organización del curso fue oportuna. El tiempo dedicado al desarrollo del curso es apropiado. Entiendo que hay y habrán nuevas versiones del mismo curso, me gustaría saber si como ex-participante habría alguna forma de obtener material actualizado de los nuevos cursos.	3/30/2016 7:00 PM
29	Cordial saludo, Como usuario y un ciudadano satisfecho con el proceso, espero que lancen más convocatorias de cursos en línea, ojalá con temas de conservación biológica, educación para el cambio climático, biodiversidad, entre otros temas que aportan a un sin fin de prácticas que realizamos diferentes sujetos interesados en educar, investigar y por supuesto en compartir y problematizar conocimientos.	3/29/2016 10:39 PM
30	La oferta de cursos es amplia y de gran interes	3/22/2016 8:32 PM
31	Pediría un poco de mejor organización con los materiales y equipos para exponer ya que en algunas ocasiones esto fallo, así como el darnos la facilidad de descargar la información del curso en línea.	3/22/2016 7:25 PM
32	considero deberíamos dar mayor dificion respecto a este tema, asi como programar un mayor numero de cursos de capacitacion para todos los niveles socio culturales, debido a la gran importacia del mismo.	3/22/2016 5:05 AM
33	EL CURSO PUDIERA SER MAS CORTO	3/22/2016 2:23 AM
34	La evaluaciones no son resisas al contenido temático del curso, la traducción al idioma español no es el mas adecuado.	3/21/2016 8:09 PM
35	Informan que el Taller de Micro Finanzas y Microcrédito en 2015 fue espectacular se debe repetir cada año y de habla portuguesa , para que podamos intercambiar experiencias .	3/21/2016 5:53 PM

40	seria interesante cursos como los de cambio climatico en diferentes areas para las personas de todo el mundo. Gracias	3/19/2016 3:17 AM
41	Bueno primero agradecerles por la facilidad que dan para que muchos puedan capacitarse sin ningún costo. Y los cursos que ofrecen son buenos, aunque no se pueden acceder a todos por las limitaciones del idioma. pero aun asi es super los cursos.	3/19/2016 2:02 AM
42	Gracias por la información, espero poder involucrarme en otros cursos.	3/18/2016 11:54 PM
43	Me gustaría que pudieran ofrecer más cursos en español y con opción a valor curricular	3/18/2016 11:52 PM
44	Colocar más ejercicios de razonamiento en los cursos online y de igual forma una forma de ser evaluados en este tipo de tests.	3/18/2016 9:54 PM
45	La informacion y formacion del curso n o es de aplicacion directa en el trabajo pero es de mucha utilidad en el proceso de sensibilizacion, tomade conciencia de las personas que surge de la tematica.	3/18/2016 9:29 PM
46	Para mi parecer, mas que un comentario es una sugerencia que UNITAR debería socializar los temas con mas sectores de la sociedad o difundirlos a mas actores sociales Gracias por darme un espacio para pronunciarme	3/18/2016 6:43 PM
47	Mi apreciación al respecto es reconocer la importancia del tema para el desarrollo de actividades en nuestras comunidades y en la toma de decisiones en las Organizaciones en donde estiy involucrada, además estar preparada para hablar sobre el tema en el momento que sea necesario para preparar mejor a los productores involucrados en el Sistema de Comercio Justo, que es el medio en donde me desenvuelvo	3/18/2016 6:01 PM
48	De acuerdo al curso de cambio climático, las ayudas financieras y en especial bonos de carbono deben ser iniciativas que benefician tambien a la industria privada para que los proyectos se viabilicen y tengan mayor dinamismo, por consiguiente propongo que UNITAR se convierta en un soporte y medio de respuesta para que las iniciativas de Naciones Unidas tengan un enfoque fuerte y seguro en los proyectos que involucran energías alternativas.	3/18/2016 5:40 PM

1	Plus de responsabilités sur le projet accompli	4/18/2016 2:53 PM
2	Après avoir reçu le diplôme sur l'introduction au changement climatique. j'ai animé deux conférences sur les thèmes suivants. Thème 1: Impact du changement climatique sur les ressources en eaux souterraines: Cas de la Côte d'Ivoire . Sur ce premier thème, il fallait revoir la position de notre pays à l'horizon 2020 sur la question de stress hydrique dont souffrent bon nombre de pays de ce monde. Résoudre ce problème revient alors à gérer nos ressources en eaux souterraines de sorte à préserver la génération future contre la guerre de l'eau. La plupart des réserves d'eau souterraine de mon pays(Côte d'Ivoire) sont localisées dans le socle qui occupe 97% du territoire. Malheureusement la méconnaissance de plusieurs activités néfastes telles que les pesticides , les engrais chimiques et la déforestation sont les maux qui influencent sur la pollution des réserves souterraines et la recharge de la nappe. Thème 2: La géothermie , un enjeu planétaire contemporain. Il s'agit de penser à faire de la plus vieille énergie renouvelable , un effort considérable dans la réduction des énergies fossiles plus polluantes.	4/11/2016 8:49 PM
3	J'ai donné ma contribution par des conseils aux responsables en charge de l'eau sur l'attitude à avoir dans le cadre de négociations avec les pays de région surtout pour le pays du bassin du Congo. ## 2016 UNITAR Training Follow-up Survey (Français)

16	Dan le cadre du plan vert et plan d'action proposé lors de la formation. Nous avons mené des baselines et actions de terrain en vue de collecter des appuis au niveau local, auprès du secteur privé et même auprès du gouvernement par certaines ONG crédibles pour mener à bien ce plan. Le financement est un soucis car les soutiens financiers internationaux et nationaux se font rares, la société civile autant que les Etats vont frapper aux mêmes portes, et la société civile sans back up politique ne peut rivaliser avec les bureau d'études, cabinets, et autres consultants internationaux qui sont devenus plus crédibles auprès des bailleurs que ceux qui sont sur le terrain. La société civile doit se professionnaliser, se vendre, faire du marketing et développer des projets aussi à rentabilité économique et pas seulement bénévoles en vue d'impacter au mieux les communautés donc la réflexion est à ce stade pour le moment. Le financement est rare, les initiatives ne manquent pas dans le secteur de l'économie mais les leviers financiers et opportunités sont difficilement accessibles, parfois trop de constitutionnalisés critères, et de principes à soumettre. En tout cas il est important que les fonds verts et autres puissent non seulement financer les programmes gouvernementaux mais aussi qu'ils soient aussi disponibles pour les projets locaux. Certaines institutions ne sont aptes qu'à financer que l'Etat, et même quand c'est destiné à la société civile ces financements sont éloignés des réalités locales. Donc mon plan vert n'est pas financé mais il est au stade de la réalisation des baselines.	4/7/2016 12:38 PM

23	Après la première phase "la sensibilisation à l'entrepreneuriat" j'ai commencé mon premier mini-projet pour une première expérience dans le domaine de l'apiculture, le programme m'a beaucoup encouragé pour me débrouiller toute seule et compter sur moi-même. C'est une formation à haut niveau, malheureusement la formation modulaire n'était pas à la hauteur par manque de formateurs ..	4/2/2016 7:59 PM
24	Ce cours m'a permis de mieux participer aux négociations de l'Accord de Partenariat Économique entre l'Union Européenne et les pays ACP.	4/2/2016 4:24 PM
25	Mise en place des connaissances pour organiser un colloque international au Vietnam	4/1/2016 10:31 AM
26	Je suis (étais) de la Division du Commerce Extérieur et de la Négociation Commerciale. En effet, cette Division s'occupe des négociations commerciales, je n'avais pas participé à une négociation si ce n'est les réunions au niveau national et régional pour discuter des questions commerciales. Ce cours m'a permis d'apprendre les techniques de négociation avec des lignes directrices très très stratégiques. Après cette formation, j'ai été affecté à la Direction Régionale du Commerce et de la Concurrence du District de Bamako (capitale du Mali) où j'ai été nommé chef de Division Commerce Extérieur. Ici je fais le contrôle et je me sers beaucoup de cette technique. La formation m'a permis de combler certaines lacunes que je rencontrais souvent dans les réunions tant au niveau national que régional. C'était une promotion pour moi parce que j'étais un chargé du suivi des Accords commerciaux et maintenant Chef de Division.	3/31/2016 11:14 PM
27	Acquisition de connaissances variées et riches sur l'identification des causes de conflits, les acteurs, les dynamiques ainsi que les techniques de gestion mais aussi de prévention des conflits.	3/31/2016 7:55 PM
28	Ce cours a renforcé mes capacités. J'ai pu organiser un atelier et répliquer mes connaissances acquises auprès d'autres acteurs et collaborateurs.	3/31/2016 3:30 PM
29	Ayant en charge le suivi des questions écologiques et environnementales au sein de notre service (Ministère des Affaires Étrangères du Sénégal, puis les Ambassades du Sénégal en Libye, Oman et Suisse), le cours sur le droit international de l'environnement m'a été d'une grande utilité. Étant soumis à l'obligation de réserve en tant que fonctionnaire, je ne saurais m'étaler dessus. Retenez juste que cette formation a précieusement contribué dans ma carrière.	3/31/2016 1:50 PM

Grâce aux connaissances acquises, suite à la formation de l'UNITAR, j'ai pu contribuer, selon une approche participative, modestement à: - l'élaboration d'un État des lieux du secteur de l'eau dans le bassin du Congo; - la formulation et l'adoption d'une Vision partagée du développement du secteur de l'eau dans le bassin à l'horizon 2035; - la formulation d'un Programme de Mesures 2016 - 2020 visant à faire de l'eau un réel facteur de développement durable et de croissance pour tous dans le bassin du Congo. Par ailleurs, j'ai reçu plus de responsabilité. Il m'a été confié, par Mr le Secrétaire Général de la CICOS, la responsabilité de mise en œuvre de l'Assistance technique à la CICOS sur la GIRE et l'hydrologie spatiale (Convention CZZ2054 - AFD) dont l'intitulé du projet est "Renforcement du suivi hydrologique du Congo pour une GIRE tenant compte de l'adaptation au changement climatique".	3/23/2016 12:42 PM
41	La formation en ligne que j'ai suivi m'a d'acquérir plus de connaissances que j'ai eu à appliquer dans le cadre d'un Master (Patrimoine Naturel et Développement Durable) que ça soit au niveau des cours, des exposés et aussi dans la rédaction de mon MFE.	3/23/2016 3:55 AM

43	Je suis actuellement en formation à l'institut des hautes études internationales de Ouagadougou, Formation qui prend fin en juillet 2016. Dans notre programme de formation, nous faisons fréquemment des exposés individuels et en groupe. J'ai utilisé les connaissances acquises durant le cours pour faire deux exposés devant mes camarades. exposé 1: " L'accord de Paris et les défis du changement climatique"(note obtenue: 18/20). Exposé individuel. J'ai utilisé le module 1 pour expliquer les concepts scientifiques des changements climatiques et un bref aperçu sur les facteurs des changements climatiques; le module 2 m'a permis de faire un bref aperçu historique des négociations y relatives; le module 3 m'a permis de relever les défis d'adaptations, le module 4 pour les défis d' atténuations et le module 5 pour les défis de financement en faisant le rapprochement avec l'accord de Paris. Les camarades ont apprécié et le professeur impressionné parce-que j'ai pu expliquer les concepts scientifiques liés aux changements climatiques. J' ai également saisi l'occasion pour partager l'adresse électronique du site de UNITAR avec mes camarades. Exposé 2: changements climatiques et migrations. Il s'agit d'un exposé en groupe dans lequel j'ai contribué en me servant du module 1 pour faire ressortir les conséquences des changements climatiques (note: 16/20).	3/22/2016 12:48 PM

## 2016 UNITAR Training Follow-up Survey (Français)

22	Les formations parrainées par l'UNITAR sont très importantes, compte tenu de son applicabilité dans le domaine professionnel. Malgré la formation de domaines financés par l'UNITAR soit vaste, il serait bon d'augmenter la portée de la formation dans les domaines des finances publiques, telles que: - Gestion macroéconomique et finances publiques - Diagnostic macroéconomique - Programmation financière avec des objectifs d'inflation - Statistiques de finances publiques recommandations: -Effectuer plus formation dans la langue portugaise.	3/31/2016 7:27 PM
23	Il est bien vrai que la formation était très pertinente et allait mieux me servir si toutefois, j'étais toujours au ministère du commerce. Néanmoins la structure dans laquelle je travaille est souvent obligée d'inter agir face à certaines situations d'impasse. Ces pareilles situation me donnent l'occasion d'appliquer ce que j'ai appris avec la CNUCED même si c'est avec une moindre mesure.	3/31/2016 7:13 PM
24	J'ai trouvé assez pertinente la formation sur l'initiation aux changement climatique. La façon dont les intervenants ont développé le cours est bien adaptée aux intéressés de la formation qui s'adresse bien sur à un niveau universitaire.	3/31/2016 2:37 PM
25	Accorder un taux financier abordables aux candidats des pays en développement à l'occasion des différentes dispensées	3/31/2016 1:54 PM
26	nous aimerons pouvoir obtenir des bourses pour des formations en présentiel, et aussi pouvoir participer aux événement organiser par UNITAR.	3/31/2016 12:14 PM
27	Conflict Prevention and Peacemaking doit etre organise egalement dans les pays francophones notamment en Afrique de l'Ouest (Mali, Senegal)	3/31/2016 11:07 AM
28	J'espère avoir d'autres opportunités de formation avec Unitar.	3/31/2016 12:23 AM
29	depuis que j'ai découvert le site, je l'ai recommandé à d'autres personnes. il serait aussi intéressant que après l'introduction il ait aussi un autre niveau pouvant nous permettre d'approfondir nos connaissances pour mieux contribuer à l'adaptation et à l'atténuation des effets du changement climatique. Ouvrir des centres de formation en présentiel dans les pays serait un atout pour toucher le maximum de personnes qui sont intéressées. ce sera aussi bien pour UNITAR d'avoir des correspondants dans les pays. cela a pour objectif de former des cadres à la base pour mieux convaincre nos populations.	3/31/2016 12:14 AM
30	Il faut plus de coordinations avec l'ONU pour que les formations fournies par UNITAR soient officiellement etr automatiquement reconnu et admise pour des formations. Ainsi les fonds disponibles pour la formations peuvent etre accordés au staff et le temps libre lui sera consacré pour les études.	3/30/2016 8:08 PM
31	Les cours sur le changement climatique sont d'une importance capitale pour moi et mon travail puisqu'il s'avère nécessaire de prendre en compte les effets des CC et les adapté aux situations actuelle des investissements sous plusieurs forme et d'en tenir compte dans plusieurs documents de planification tant au niveau national qu'au niveau local. Mais pendant que je suivais les cours et après avoir validé 2 cours sur les 6, la plateforme n'était plus accessible pour raisons de travaux m'avait on laissé lire. Je tiens à vous féliciter et vois encourager dans cette belle initiative qui nous permet d'accéder à de nouvelles connaissances des thématiques de notre temps et de participer à la résolution des problèmes que cela pourrait créeé pour notre planète. Afin de garantir un monde meilleur pour les générations à venir dans le souci de contribuer à l'atteinte de objectifs de développement durable (ODD). MERCI	3/30/2016 7:04 PM
32	Merci et bonne continuation	3/30/2016 6:46 PM
33	La formation de l'unitar m'a été très utile, mais je n'ai pas trouver de soutien ou d'accompagnement après la formation. Je pense qu'on devrait être prioritaires vis a vis de l'organisme ANSEJ et qu'on puisse nous épargner des formalités administratives pour pouvoir avancer dans le projet et pouvoir le fructifier. Veuillez m'apporter votre aide dans la mesure du possible. (BELALIA MOHAMED YASSINE, N:1280, PROMOTION: TLEMCEN 1)	3/30/2016 6:46 PM
34	Je souhaite travailler dans une organisation, participer a un ou plusieurs de vos programmes. Mais hélas depuis ma formation en ligne je n'ai aucune possibilité pour mettre en évidence mes compétences dans le secteur du changement climatique. D'ou jusqu'aujourd'hui je ne vois pas d'intérêt	3/28/2016 3:10 PM
35	Nos sincères remerciements à l'UNITAR pour les opportunités de renforcement des capacités des cadres africains pour assurer le développement de l'Afrique. Nous exhortons l'UNITAR à ouvrir des bourses de master et de thèse pour nous permettre de mieux comprendre les enjeux de l'économie verte et sont application dans le contexte africain.	3/24/2016 5:02 PM
36	Il faudra pensé à faire que les vidéos et leurs transcriptions soient disponibles pour que les participants puissent mieux s'appliquer dans le cours à distance.	3/23/2016 4:04 AM
37	-Nous qui avons été formé par l'UNITAR, je souhaite que vous répertoriez nos CV, afin que nous offrons nos compétences au organismes qui sont dans le besoin de nos services. Cela permettra de suivre les produits formés par l'UNITAR et de créer un lien entre les diplômés de l'UNITAR. -Aussi, je souhaiterais que les diplômés de l'UNITAR, particulièrement ceux qui ont bénéficié d'une formation en ligne, puisse également bénéficier d'un stage ou d'un atelier physique à l'UNITAR. -Enfin, lorsqu'il y a des nouvelles formations disponibles, que les anciens diplômés soient automatiquement informés par l'UNITAR. Merci pour votre collaboration.	3/22/2016 10:12 PM

## 2016 UNITAR Training Follow-up Survey (Français)

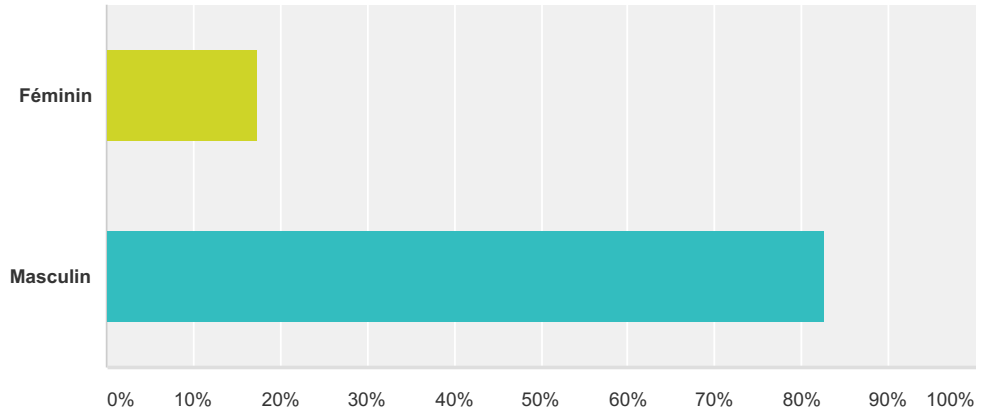

38	Je pense à mon humble avis que UNITAR pourrait suggérer à certaines structures d'accueillir les participants pour des périodes de stages pour mettre directement en pratique les connaissances acquises lors de la formation. Il arrive qu'après la formation l'employeur ne te donne pas l'occasion de mettre tes connaissances en valeur.	3/22/2016 8:05 PM
39	le cours sur les changements climatiques m'ont permis de réaliser l'urgence de la question et de changer de comportement dans ma vie courante: l'usage de sac pour le marché à la place des sachets plastiques. Je suis favorable à la promotion de l'énergie solaire et j'ai même acheté une lampe solaire pour commencer. Je n'hésite pas à aborder la question avec des collègues, des amis, etc.	3/22/2016 1:45 PM
40	une amélioration du site pour permettre aux participants de s'enregistrer plus facilement. Moi j'ai jamais pu m'enregistrer sur le site, il fallait à chaque fois envoyer un mail.	3/22/2016 11:21 AM
41	Le cours sur l'introduction aux changements climatiques était un cours pratiques et concrets sur la situation actuelle de l'évolution des changements climatiques , les mesures d'atténuations et les mesures d'adaptations étaient concrètes. A l'avenir il faudra dispenser ces cours dans les universités pour que les étudiants soient au parfum de l'évolution des changements climatiques puisqu'ils sont au cœur de l'action.	3/21/2016 11:01 PM
42	pour la formation IBTIKARI est formidable sauf la durée de formation est très courte	3/21/2016 7:47 PM
43	j'ai été très fier de participer à cette enquête. tout simplement je voudrais vous dire que pour ma part les connaissances acquises me servent beaucoup dans mes activités quotidiennes. mon service s'occupe de la planification au niveau national par l'accompagnement technique des autres ministères à l'élaboration et la mise en œuvre de leurs politiques et stratégies sectorielles. toutes choses qui permettent un transfert de compétence aux autres ministères quant à la nécessité d'intégrer l'économie verte dans la planification de leurs activités. la seule doléance que j'ai à vous faire est d'initier une autre formation de ce genre et surtout en présentiel afin d'échanger sur la comptabilité verte, la définition des indicateurs verts pour plus d'efficacité dans notre travail quotidien. en une fois de plus merci et surtout courage à tout ce personnel qui nous a accompagnés durant tout le cours et longue vie à UNITAR et ses partenaires	3/21/2016 6:04 PM
44	Comme cette enquête, informer par notification les personnes ayant fait des formations des autres opportunités.	3/21/2016 4:08 PM
45	Formation Seminaire Consultance	3/21/2016 1:02 PM
46	Renforcer les travaux pratiques notamment à travers des activités sur le terrain.	3/21/2016 12:02 PM
47	Unitaire devrait prévoir de formation d'approfondissement après que les participants aient pratiqués les connaissances	3/20/2016 10:48 PM
48	UNITAR doit valoriser ses formations en permettant aux participants ayant obtenu un certificat à la fin d'un cours de transférer les compétences au plus bas niveau de leur pays. Cela passe par la proposition de ces lauréats aux instances responsables de la thématique dans leur pays respectif ou au sein d'une représentation des Nations Unies pour des séminaires de formation prévus pour la circonstance. Favoriser également des équivalences pour les certificats obtenus en vue de statuer le niveau d'études des participants futurs formateurs.	3/20/2016 6:07 PM
49	j'aime que l'Unitar prenne en considération notre niveau scientifique très humble et améliorer le par des formations à l'étranger dans notre spécialité et un soutien financier pendant l'engagement	3/20/2016 10:03 AM
50	UNITAR devrait débloquer beaucoup de bourse pour les gens des pays en développement	3/20/2016 6:55 AM
51	Merci beaucoup l'UNITAR pour tous vos efforts. j'espère que l'UNITAR va nous établir des programmes orientés vers les jeunes chercheurs indépendants "les jeunes diplômés qui étaient (Major de promotion de l'université)", qui ont besoin d'intégrer dans les laboratoires internationaux de recherche scientifique pour continuer ses recherches et d'avoir des résultats selon les normes internationales. je vous remercie infiniment et je vous souhaite de la bonne continuation.	3/19/2016 10:00 PM
52	Pas de commentaire	3/19/2016 7:24 PM
53	s'il peut inviter des anciens qui ont eu leurs attestations à des séminaires dans leurs locaux	3/19/2016 5:59 PM
54	Que l'UNITAR nous renseigne sur les formations futures et que ceux qui participent souvent soient informés de probables opportunités quant aux différents thèmes	3/19/2016 5:35 PM
55	continuer de former les cadres des pays en voie de développement pour leur permettre d'être efficaces dans leur fonction respective. tenir compte du fait qu'il n'est pas facile pour les cadres non résidents dans les capitales des pays africains pour obtenir les bourses pour participer aux différents cours de UNITAR qui exigent des frais.	3/19/2016 4:18 PM
56	Le réaménagement du Comité Inter Institutionnel (CII) tarde encore.	3/19/2016 12:14 PM
57	Il ne sera pas manqué l'occasion de comprendre pourquoi les cours les plus intéressants de l'UNITAR sont payants et sans qu'il ne soit possible de bénéficier de bourses. En effet, il était envisagé des événements liés au droit international, à l'environnement; mais en raison des frais qui ne pouvaient être supportés, des cours liés à ces événements n'ont pas été suivis. UNITAR peut-il faciliter l'acquisition des connaissances et la recherche en libéralisant l'accès aux événements?	3/19/2016 12:14 AM

58	Nous sommes désireux de faire des formations dans le secteur du droit de la santé. C'est nécessaire pour la formation des médecins, mais aussi pour la gestion opérationnelle des structures hospitalières.	3/19/2016 12:02 AM
59	Je veux faire une activte pour fabric mon usine sans intérêt	3/18/2016 11:34 PM
60	Je souhaiterais poursuivre et finir cette formation mais aussi participer a un projet de développement dans le cadre de l'unitar. Merci	3/18/2016 11:07 PM
61	Je souhaite un développement durable et plus de réussite a l'UNITAR.	3/18/2016 9:39 PM
62	Il faut multiplier de telles formations afin que l'information et la formation de haut niveau soit accessible aux populations d'Afrique qui n'ont pas toujours la possibilité de payer ces formations. Merci à UNITAR	3/18/2016 6:38 PM
63	LE cours sur le droit international de l'eau douce, a été très instructif pour moi et si je n'ai pas eu l'occasion de l'appliquer c'est parce que l'occasion ne s'est pas présenté, si c'était le cas, je n'hésiterai pas.	3/18/2016 6:13 PM
