Strategic Implementation of the 2030 Agenda

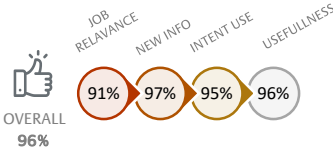

Key Achievements

REACHING OUT TO A VARIETY OF STAKEHOLDERS THROUGH E-LEARNING

- 3424 online participants have enrolled in the free introductory courses on the 2030 Agenda and the SDGs;
- 486 UNITAR certificates were issued.
- 94% of respondents applied or transferred the acquired knowledge.

PARTICIPANTS' SATISFACTION

PROMOTING ROBUST MONITORING AND EVIDENCE-BASED DECISION MAKING

- **StaTact toolkit**, an action-oriented tactical tool was developed to improve data governance and dialogue between data producers, data users and non-traditional data sources;
- 15 countries – most of them Least Developed Countries – successfully piloted the StaTact tool;
- More than 180 participants from governments and other stakeholders participated in pilot workshops.
- 85% of responding participants felt their knowledge, skills and attitudes (KSA) have increased as a result of the workshops.

SUPPORTING UN MEMBER STATES IN THE HOLISTIC AND INCLUSIVE IMPLEMENTATION OF THE SDGs

- 46 VNR countries presenting at 2017-2019 HLPF and many other Member States benefitted from e-learning for SDG coordinating entities on stakeholder engagement and the SDGs;
- 228 government officials and national stakeholders participated in learning conferences on holistic implementation of the SDGs;

ENHANCING MULTIPLIER EFFECTS

- 33 African and Asian LDCs and 1 SIDS benefitted from UNITAR open-source toolkits in 2017-2018 enabling them to facilitate national training and multi-stakeholder workshops;
- 171 HLPF participants have benefitted from SDGs learning as part of the joint UNITAR-UNDESA Learning, Training and Practice Centre.

Our former participants said..

"I applied the curriculum of the Agenda 2030 course to both my position as a UN Volunteer, in ensuring that the SDGs were highlighted and understood by staff within my agency and in my work at UN Women. "

"As SDGs are cross-cutting this course helped me in all political and human rights related discussions with UN organized seminars' participants. The course content also allowed me write better documents related to my work. "

"In my work with SCO I have applied concepts introduced in the course many times, explaining to partners challenges and opportunities to CSO coming from the 2030 Agenda. The course also make us improve our communication with public institutions (particularly with statistical offices). "

"As a journalist, I use the knowledge to derive people-oriented contents for radio programmes. "
