ANTECEDENTES

This e-learning course was created as part of the Earth Observation for Sustainable Development: Fragility, Conflict and Security project funded by the European Space Agency and aims to give a short but practical introduction to Geospatial Information Technology (GIT) in states affected by fragility, with a focus on remote sensing.

NOTE:

Once you register for the course, you can access the online course here: https://learnatunitar.org/course/view.php?id=408
- Login with unitar.org/event
- Go to Site Home and select UNOSAT
- Select the course: Geospatial Information Technology (GIT) in Fragile Contexts
- Self-enrollment: No enrollement key is required

*For any technical assistance related to this course, please contact Ms. Sumeera Kamil (sumeera.kamil@unitar.org)

CONTENIDO Y ESTRUCTURA

The e-learning course is structured into 4 modules:
1. Introduction to GIT in Fragile Contexts
2. What Can Satellites See?
3. GIS analysis for Fragile States
4. How To Use Our Online Platform (E04SDFCV)

METODOLOGÍA

This self-paced course promotes an interactive approach through lessons and multimedia material, stimulating critical thinking. It provides a lot of flexibility, since you will be able to complete the course at your own pace and timeframe.

Each interactive module is accompanied by a quiz.

To receive a Certificate of Completion one needs to achieve a minimum grade of 80% on each quiz.

INFORMACIÓN ADICIONAL

Once you register for the course, you can access the online course here: https://learnatunitar.org/course/view.php?id=408

- Login with unitar.org/event
- Go to Site Home and select UNOSAT
- Select the course: Geospatial Information Technology (GIT) in Fragile Contexts
- Self-enrollment: No enrollement key is required

*For any technical assistance related to this course, please contact Ms. Sumeera Kamil (sumeera.kamil@unitar.org)

Technical Requirements: The course is delivered through UNITAR’s Virtual Learning Environment and participants will require a reliable internet connection throughout its duration.
