

CIFAL Global Network **TRAINING CATALOGUE 2025**

Message from the Executive Director

With 2025 marking the midpoint of the Decade of Action to Accelerate Progress Towards Achieving the Sustainable Development Goals (SDGs) by 2030, the importance of investing in knowledge, learning, and capacity-building continues to grow. Around the world, communities and institutions are navigating unprecedented challenges. In this context, equipping people with the skills, tools, and confidence to lead change is not only necessary—it is essential. We are seeing extraordinary opportunities to accelerate progress through innovation, inclusive governance, and renewed global cooperation.

At UNITAR, we believe that learning is one of the most powerful drivers of sustainable development. It strengthens institutions, shapes effective policy, and enables inclusive solutions that respond to real needs on the ground. Training is not simply about technical expertise—it is also about building trust, fostering innovation, and nurturing leadership that is responsive, compassionate, and forward-looking.

The CIFAL Global Network plays a key role in bringing this vision to life. By focusing on local capacity development, CIFAL Centres support communities and institutions in translating the Sustainable Development Goals into concrete action. Their work is rooted in the understanding that lasting impact must begin at the local level—where policies are implemented, services delivered, and lives transformed.

Through focused training, inclusive dialogue, and knowledge-sharing, CIFAL Centres empower local actors to design and implement solutions that reflect their communities' evolving priorities. Grounded in local realities, they contribute to stronger institutions, greater resilience, and the global momentum needed to advance the SDGs. As countries accelerate efforts in these final five years to the 2030 Agenda and global frameworks like the Pact for the Future, embracing new skills fit for the task, capacity-building remains essential to prepare for emerging challenges, aided by inclusive, data-informed, and transformative change.

I commend the continued commitment and creativity of the CIFAL Centres and their teams, whose work has touched thousands of lives over the past two decades. UNITAR is proud to partner with the members of the CIFAL Global Network in building the capacities that will shape a more sustainable, peaceful, and resilient future for all.

I invite you to explore this catalogue as a reflection of the diversity, creativity, and commitment of the CIFAL Global Network. Whether you are a policymaker, practitioner, student, or engaged citizen, I hope you find in these pages opportunities that inspire meaningful learning and spark new ways to contribute to a more just, inclusive, and sustainable world.

Michelle Gyles-McDonnough

United Nations Assistant Secretary General
Executive Director

The CIFAL Global Network at a Glance

In 2024, the CIFAL Global Network trained **153,116 beneficiarios** from around the world. At the same time, UNITAR undertook comprehensive monitoring and evaluation processes to update and develop tools, platforms, documents, policies, templates, and other resources related to the CIFAL Global Network. These efforts were designed to align the network's operations with its evolving realities, outreach, and growth, while supporting its mission to advance sustainable development and contribute to the Agenda 2030 objectives.

The CIFAL Global Network comprises a dedicated group of professionals working at 33 centers around the world. To ensure these teams effectively address the needs of the communities they serve, UNITAR conducted a series of in-depth consultations through one-on-one meetings with each Centre. These engagements provided an opportunity to gather valuable feedback, address critical questions, and resolve emerging issues. The discussions were instrumental in ensuring that the updated tools not only accurately reflect the achievements and contributions of each Centre but also enhance their functionality and relevance.

This collaborative approach not only strengthened the usability of these resources but also reinforced the CIFAL Global Network's capacity to empower individuals and institutions. By equipping the Centres with effective tools, the process played a crucial role in enhancing their ability to deliver impactful learning solutions and capacity-building programmes, contributing meaningfully to the realization of the Sustainable Development Goals and the transformative vision of Agenda 2030.

Thematic Areas

UNITAR updated the Thematic Areas of the CIFAL Global Network to ensure alignment with and accurate reflection of the activities and achievements of the CIFAL Centres. This initiative involved a comprehensive analysis that followed a structured approach, incorporating the following steps:

- 1. Conducting a thorough review** of all events organized by the CIFAL Centres.
- 2. Identifying emerging areas** of interest and significance.
- 3. Mapping United Nations systems, tools, working groups, and frameworks** that collectively address these emerging areas.
- 4. Analysing the correlation** between these events and the 2030 Agenda and the Sustainable Development Goals.
- 5. Examining alignment** with the relevant United Nations frameworks.

Additionally, the analysis examined and compared various international system structures to identify a more comprehensive and well-founded framework for the thematic areas, following the United Nations basis, ensuring a holistic and strategically aligned approach. These the key structures that were observed:

- **United Nations Structure:** High Level Political Forum; United Nations General Assembly; United Nations Security Council; The Economic and Social Council.
- **United Nations Agencies:** United Nations Environmental Programme – UNEP; United Nations Development Programme – UNDP; United Nations Educational, Scientific and Cultural Organization – UNESCO; United Nations Global Compact.
- **2030 Agenda – Pillars:** Peace; People; Planet; Prosperity; Partnerships.
- **Pact for the Future:** Sustainable Development and Financing for Development; International Peace and Security; Science, Technology, and Innovation, and Digital Cooperation; Youth and Future Generations; Transforming Global Governance.

This thorough and multi-faceted process ensures that the updated thematic areas remain responsive to global priorities and effectively aligned with the United Nations' strategic frameworks. Finally, the following **eight (8) thematic areas**, and over one hundred (100) topics were identified as the most representative and inclusive of the diverse activities carried out by the CIFAL Centres:

Revised Categorization of CGN Event Type Classifications and Definitions

To better capture the diversity of activities and events organized by CIFAL Centres, and in response to the network's continued growth, UNITAR has undertaken a thorough review and analysis of event categorization. This effort aims to ensure that the types of events are accurately represented and their impact effectively communicated, reflecting the scope and achievements of the CIFAL Global Network. Following this review, the current categories of events have been defined as follows:

	1. Training Event	2. Public Awareness Event	3. Research And Knowledge Services	4. Stakeholder Engagement Events
	Learning Event	Non-Learning Event	Knowledge Services	Operational Events
Objective	Develop new or strengthen existing knowledge, skills, and attitudes	Raise awareness on specific topic of interest or issue	Offer research and knowledge services to other organizations to enhance organizational or institutional capacity	Involve and collaborate with stakeholders to ensure alignment and foster support
Learning Objectives	Learning objective(s) are required	No learning objective(s) are required	No learning objective(s) are required	No learning objective(s) are required
Learning Assessment	Assessment is required (Level 1 or Reaction Survey)	No assessments required	No assessments required	No assessments required

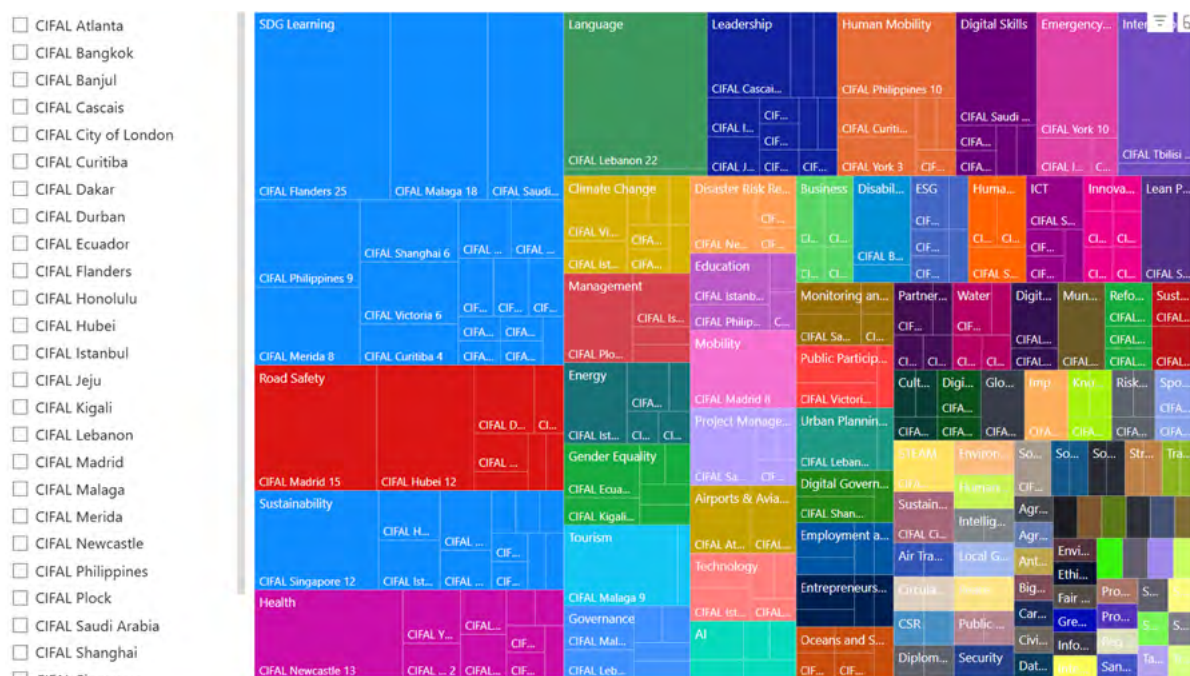

Reporting requirements

1. QA Form 2. List of participants 3. Level 1 (Reaction) Evaluation Results	1. QA Form 2. Total number of beneficiaries disaggregated by gender (Into QA Form)	1. QA Form 2. Total number of beneficiaries disaggregated by gender (Into QA Form)	None. Not reported into the UNITAR Events Management System (EMS)
-----------------------------------------------------------------------------------	---------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------	-------------------------------------------------------------------

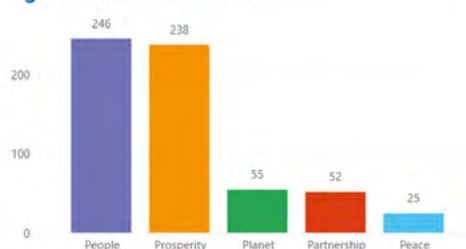

CGN-SDGs Dashboard

To map, identify, and foster potential collaborations and coherence among the activities of the various CIFAL Centres, the CGN- SDGs Dashboard was developed. This platform provides a comprehensive overview of each Centre's activities and their measurable impact across key areas, including the Sustainable Development Goals, 2030 Agenda pillars, priority groups, event types, the newly established thematic areas, and more.

The dashboard will be updated quarterly based on information submitted by the CIFAL Centres, enabling the identification of potential synergies for enhanced collaboration across the network. Designed for both internal and external use, the dashboard also serves as a tool to highlight the overall impact of the CIFAL Global Network, promoting its contributions to sustainable development on a broader scale.

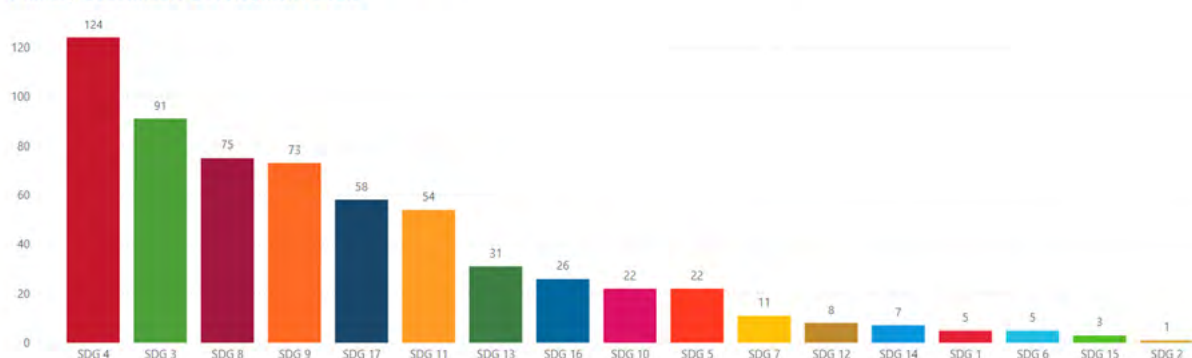

Agenda 2030 Pillar Classification

Centre

CIFAL Atlanta	CIFAL City of London	CIFAL Ecuador	CIFAL Istanbul	CIFAL Madrid	CIFAL Philippines	CIFAL Singapore
CIFAL Bangkok	CIFAL Curitiba	CIFAL Flanders	CIFAL Jeju	CIFAL Malaga	CIFAL Plock	CIFAL Tbilisi
CIFAL Banjul	CIFAL Dakar	CIFAL Honolulu	CIFAL Kigali	CIFAL Merida	CIFAL Saudi Arabia	CIFAL Victoria
CIFAL Cascais	CIFAL Durban	CIFAL Hubei	CIFAL Lebanon	CIFAL Newcastle	CIFAL Shanghai	CIFAL York

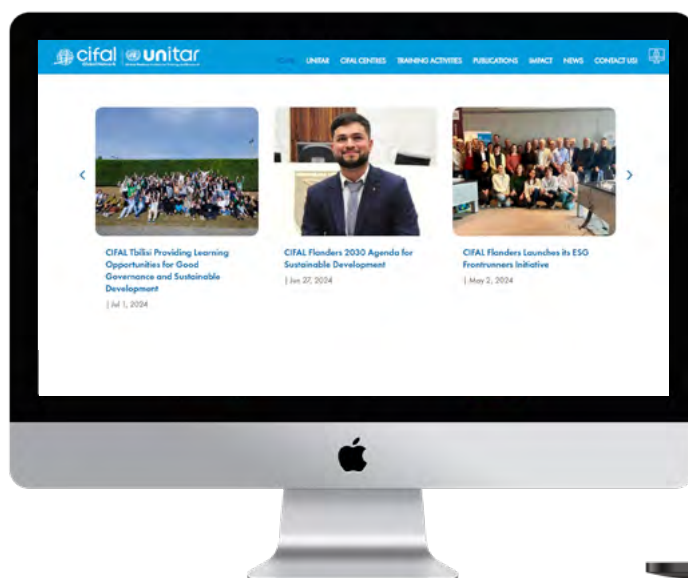

Primary Sustainable Development Goals

New CIFAL Global Network Website

To centralize information about the CIFAL Global Network and enhance its promotion, branding, and institutional visibility, a new dedicated CIFAL Global Network website has been developed.

This website offers significant advantages by serving as a unified platform to consolidate and showcase the network's activities, achievements, and impact. It strengthens institutional branding, facilitates outreach and engagement with diverse stakeholders, and promotes collaboration by connecting CIFAL Centres and external partners. Additionally, it streamlines access to resources, such as the CGN-SDGs Dashboard, and highlights contributions to sustainable development and the 2030 Agenda priorities. Overall, the website is a strategic tool designed to amplify the CIFAL Global Network's mission, promote its impact, and support its continued growth.

CIFAL Global Network Expansion: New CIFAL Centres

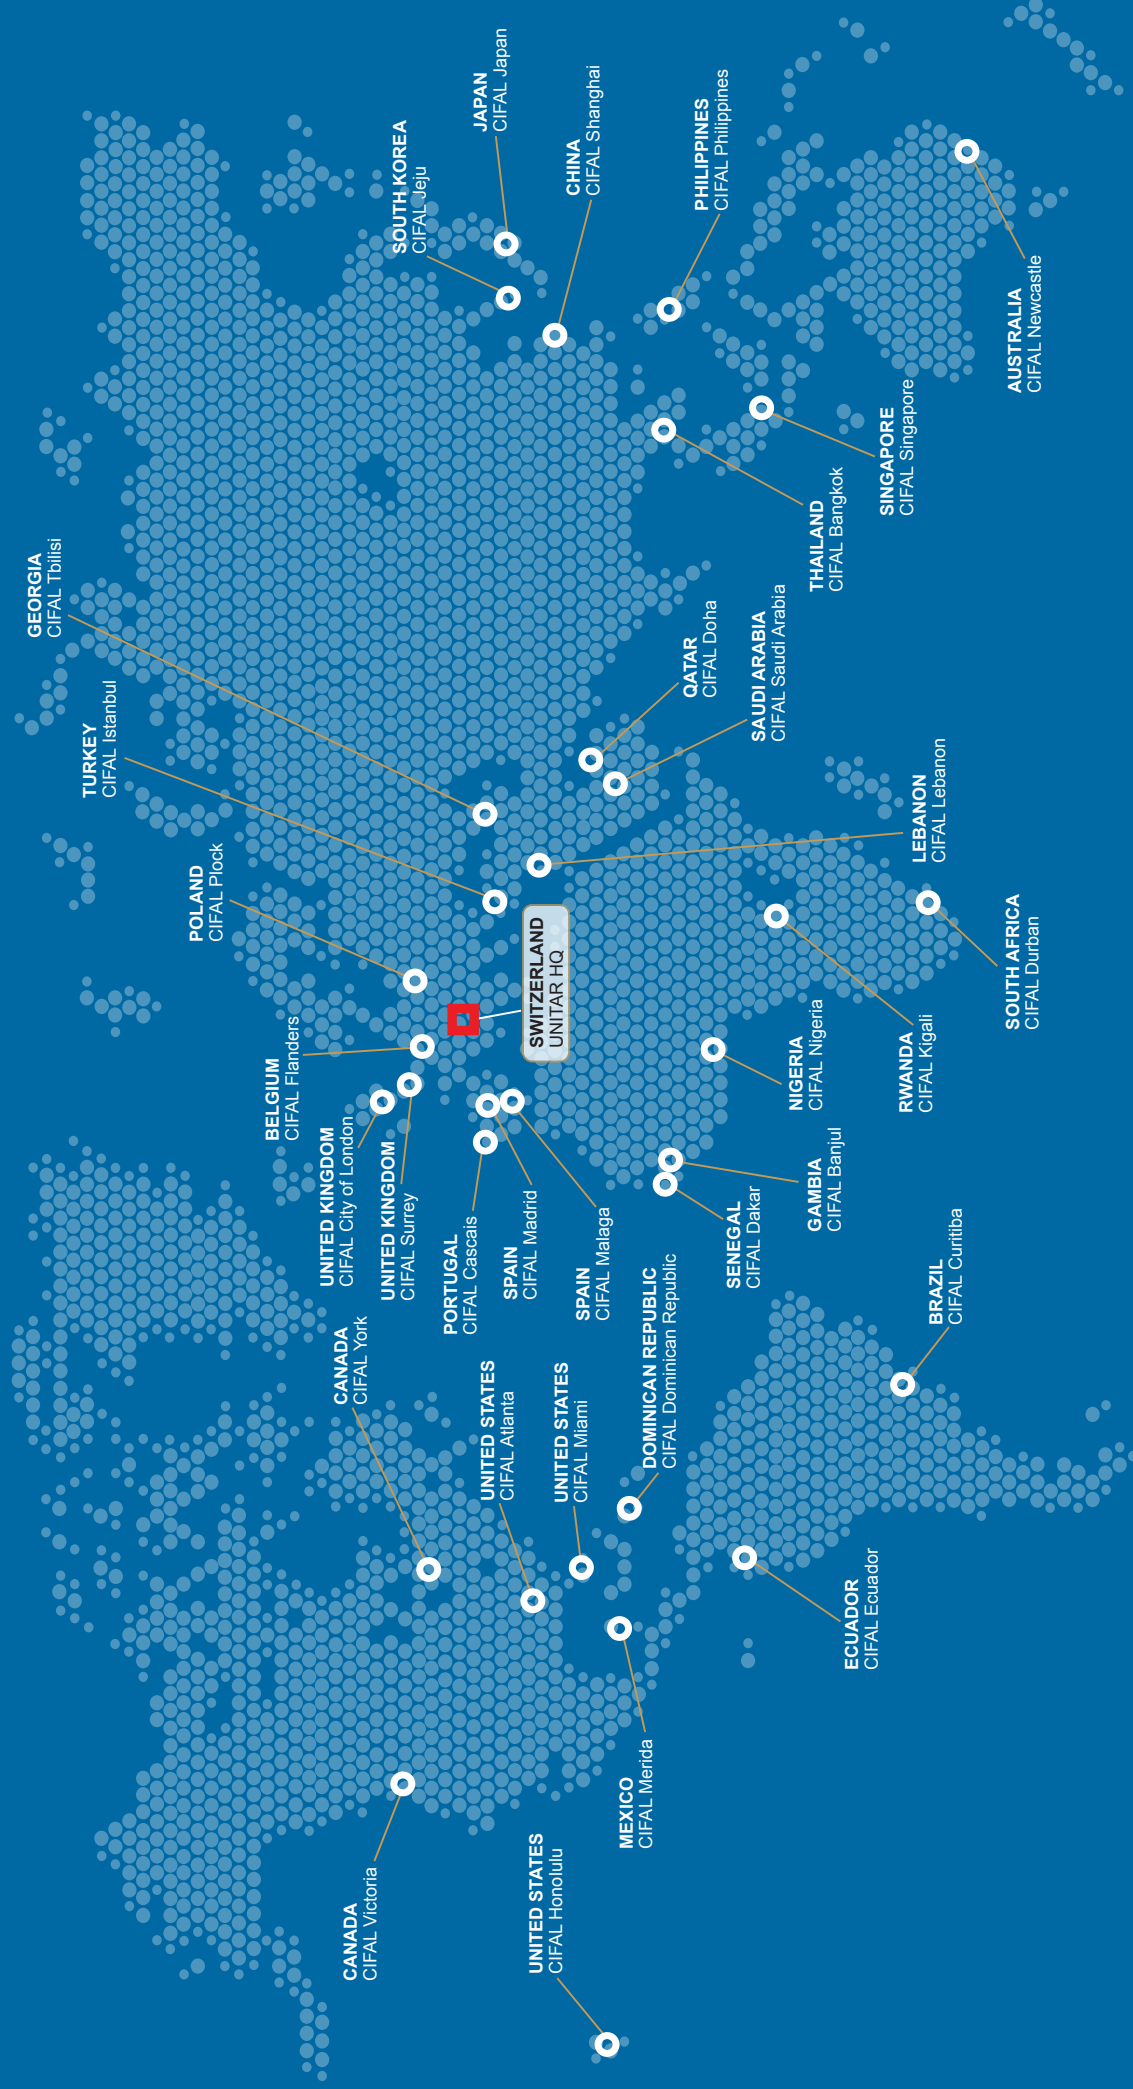

During this year, five (5) new CIFAL Centres were launched: CIFAL Dominican Republic, CIFAL Miami, CIFAL Nigeria, CIFAL Surrey, and CIFAL Japan, expanding the global footprint of the CIFAL Global Network. This growth reflects UNITAR's commitment to fostering sustainable development worldwide by creating localized hubs for capacity-building, knowledge sharing, and community engagement. Each new centre is strategically located to address region-specific challenges and opportunities, enhancing the network's ability to deliver targeted training programmes and initiatives aligned with the Sustainable Development Goals (SDGs).

The establishment of these centres is crucial for strengthening regional collaboration, advancing innovation, and amplifying the impact of the CIFAL Global Network. By addressing the unique needs of their respective regions, these centres contribute to a more inclusive and diverse approach to global sustainable development. Their presence enhances the accessibility of training opportunities, facilitates partnerships with local stakeholders, and promotes the exchange of best practices, reinforcing the collective mission of the CIFAL Global Network to create more equitable and resilient communities worldwide.

The CIFAL Global Network has demonstrated substantial global impact through its diverse education and training initiatives, advancing sustainable development and strengthening capacity-building efforts around the world. By delivering targeted programmes and activities, the network has empowered beneficiaries across sectors, facilitated meaningful collaboration, and contributed directly to the achievement of the Sustainable Development Goals (SDGs).
