CIFAL Global Network

TRAINING CATALOGUE 2023

*Version - April 2023

The United Nations Institute for Training and Research (UNITAR) provides innovative learning solutions to individuals, organizations and institutions to enhance global decision-making and support country-level action for shaping a better future. The Institute provides training and capacity development activities to assist mainly developing countries with special attention to Least Developed Countries (LDCs), Small Island Developing States (SIDS) and other groups and communities who are most vulnerable, including those in conflict situations. During the year 2022, UNITAR's global network of 30 International Training Centres organised 380 events, for a total of 83,022 beneficiaries.

The CIFAL Global Network is UNITAR's network of affiliated centres dedicated to provide cutting-edge training aimed at strengthening the capacities of government authorities and key change agents from local and sub-national levels to design and implement innovative solutions to global challenges. The CIFAL Global Network was created in 2003 as a cooperation model between the United Nations and local governments, as well as with other partners at the local level. As of April 2023, the CIFAL Global Network is comprised of 30 training centres located across Africa, Asia, Europe, Australia and the Americas.

Message from the Executive Director

The 2030 Agenda for Sustainable Development provides the world with an undeniable opportunity to bring about widespread, positive change for humanity. The interconnected, universal and transformational nature of the Agenda requires collective responsibility, accountability and action, with governments, the United Nations system, and a range of other stakeholders all contributing to the implementation of the Sustainable Development Goals. The development of knowledge and the transfer of skills, in addition to other forms of capacity, will undeniably play an important role in this process.

UNITAR and its network of CIFAL training centres are committed to make a meaningful and impactful contribution towards the implementation of the Agenda, as well as the other major outcomes from 2015, including those of the Sendai (Disaster Risk Reduction) Paris (Climate Change) and Addis Ababa (Financing for Development) conferences.

The CIFAL Global Network assists primarily local authorities by providing training and learning opportunities, as well as by facilitating city-to-city cooperation that leads to the development and implementation of specific actions in support of sustainable development.

We invite you to join our training activities and to support our common endeavor to achieve the world we want by year 2030.

Nikhil Seth
United Nations Assistant Secretary-General
Executive Director of UNITAR

30 CENTRES AROUND THE WORLD

The CIFAL Global Network is UNITAR's network of training centres dedicated to strengthening the capacities of government authorities and civil society leaders to advance sustainable development.

CIFAL Centres provide an international platform for knowledge exchange, supporting sharing and dissemination of best practices and lessons learned across cities. With its City-Share methodology, CIFALs foster multi-stakeholder collaboration that leads to the design of innovative solutions to address current challenges.

Capacity for the 2030 Agenda for Sustainable Development

THE GLOBAL GOALS
For Sustainable Development

As of April 2023, the CIFAL Global Network is comprised of thirty centres across Africa, Asia, Australia, Europe, and the Americas.

Each “Centre International de Formation des Autorités et Leaders” (CIFAL) provides innovative training on key areas related to sustainable development and serves as hubs for the exchange of knowledge amongst government officials, non-governmental and international organizations, the private sector, civil society, academic institutions and the UN system.

Each CIFAL is specialized in thematic areas that are defined by the needs and priorities of the regions they serve. Their training programmes provide access to knowledge, resources and best practices, while promoting multi-stakeholder collaboration in support of sustainable development.
