INSTITUTIONS

BUILDING CAPACITIES FOR SUSTAINABLE PEACE

The United Nations Institute for Training and Research (UNITAR) – a specialized training agency of the United Nations – supports the (re-)establishment of peaceful, just and inclusive societies (SDG 16) by enabling individuals and organizations to contribute meaningfully to sustainable peace.

With almost 60 years of experience in capacity building, we provide customized, creative and results-based learning solutions, carefully crafted for countries and communities emerging from conflict and facing specific development needs. At the core of our success is our specific methodology that allows for the creation of powerful and inspiring spaces, products and services (online and face-to-face) for high-quality learning and collaboration.

Our training programmes have mentoring and coaching as their key ingredients and promote participation, dialogue, local ownership and multiplication of knowledge for sustainable impact and behavioural change.

**The Learning Solutions
team is an innovation
hub within the Division
for Peace assuring
quality and impact of
our trainings.**

DESIGN AND DELIVERY

Design and delivery of training and capacity building activities that inspire

Online, face-to-face and blended learning packages that lead to sustainable change

Methodological guidance and advisory services for subject matter experts

MOVING LEARNING ONLINE IN TIMES OF COVID-19

COVID-19 is changing the way we learn as events, workshops and trainings move online. We offer support and guidance in how to design and facilitate online spaces in an effective, inclusive and participatory manner and have published several tools and guidance documents on our [website](#).

DIGITAL LEARNING

- E-learning courses
- Online workshops
- Mobile learning
- Video-based learning
- Virtual reality
- Gamification
- Online Communities of Practice
- Low-tech solutions for limited connectivity

FLAGSHIP PROJECTS

Facilitation Toolbox

Our Facilitation Toolbox focuses on how to design and deliver adult training and professional learning; how to monitor and evaluate their impact on behaviour; and how to capitalize on capacity development.

The Toolbox is a practice-oriented, easy to use repository of knowledge and techniques to support you with the design and delivery of training. The Toolbox is available in three languages - English, French and Spanish.

Innovative learning tools

As an innovation hub, we are constantly exploring and innovating new ideas, methodologies and technologies within our programmes to position ourselves as leaders in the field of training innovation. We create tailor-made learning tools and experiences, which can be seen in our work in Colombia. We also empower others to innovate themselves through our proven human-centred design processes, such as our Design Thinking workshops supporting African women mediators finding digital solutions.

Training of Trainers

We specialise not only in offering the highest quality training and capacity building programmes, but also in empowering our beneficiaries to become qualified trainers themselves, thus being able to multiply to wider audiences with greater impact. We empower trainers to be more effective and engaging in order to enhance and transform the knowledge, skills and attitudes of those they work with. We offer both online and face-to-face solutions along with comprehensive certification systems to support the trainers and institutions we work with.

Let's change the way we learn, together.
