TOOLKIT

MANAGEMENT PRACTICES FOR SAFER ROADS

ABOUT

The Toolkit is an interactive e-learning tool that presents a management methodology that can help improve road safety by:

· Collecting data on the number and location of deaths by road user type
· Identifying hazardous and critical road locations and sections where excessive numbers or severity of crashes occur
· Outlining corrective measures
· Implementing interventions and monitoring results
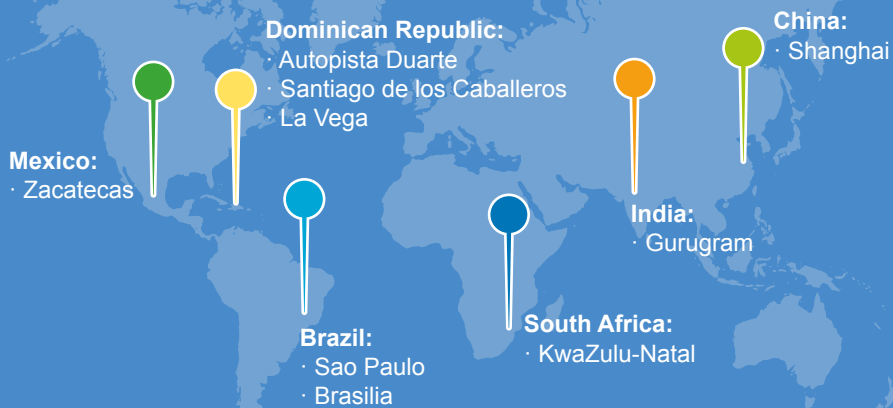

APPROACH

Practical

Participatory

Results-Based

CONTENTS

● Module 1: Road Safety Global Framework
● Module 2: Management Methodology
● Module 3: Application to Road Safety
　　· Brazil
　　· Dominican Republic
　　· Mexico
　　· India
　　· South Africa
● Module 4: Multistakeholder approach
　　· China
