

STRATEGIC APPROACH TO INTERNATIONAL CHEMICALS MANAGEMENT

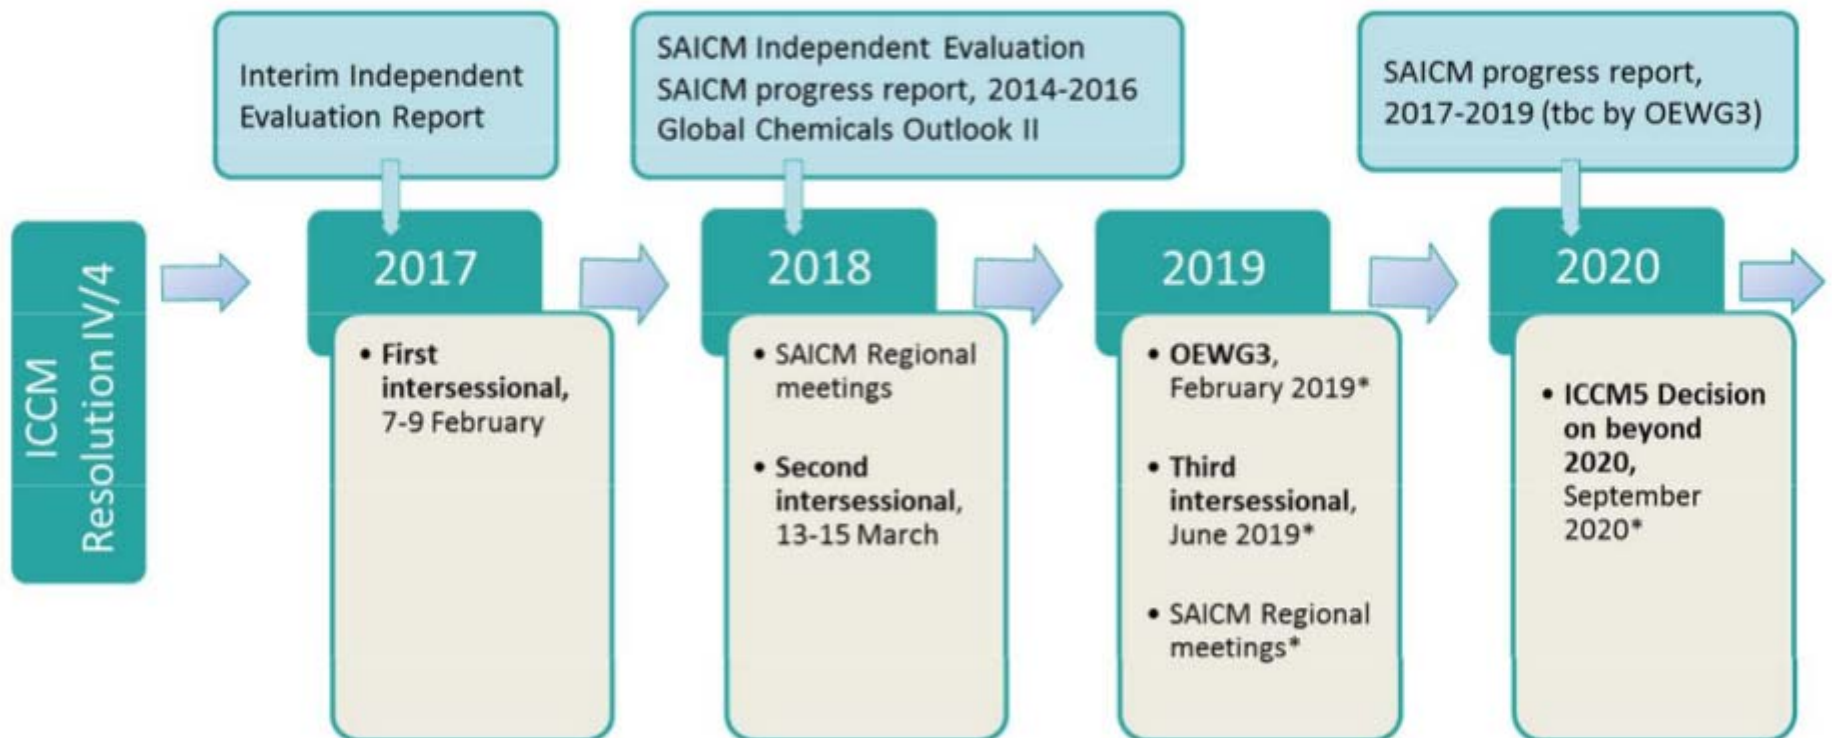

Intersessional process considering the Strategic Approach and the sound management of chemicals and waste beyond 2020

15-16 January 2018

Workshop on learning lessons from the biodiversity cluster

Timetable for the Interessional Process

SAICM and the sound management of chemicals and waste beyond 2020

* Dates to be confirmed

STRATEGIC APPROACH TO INTERNATIONAL CHEMICALS MANAGEMENT

2018 SAICM regional meetings

- **Asia Pacific:** Bangkok, Thailand, 23-25 January
- **GRULAC:** Panama City, Panama, 29-31 January
- **Africa:** Abidjan, Côte d'Ivoire, 6-8 February
- **EU Jusscannz:** Paris, France, 9 February
- **CEE:** Lodz, Poland, 19-21 February

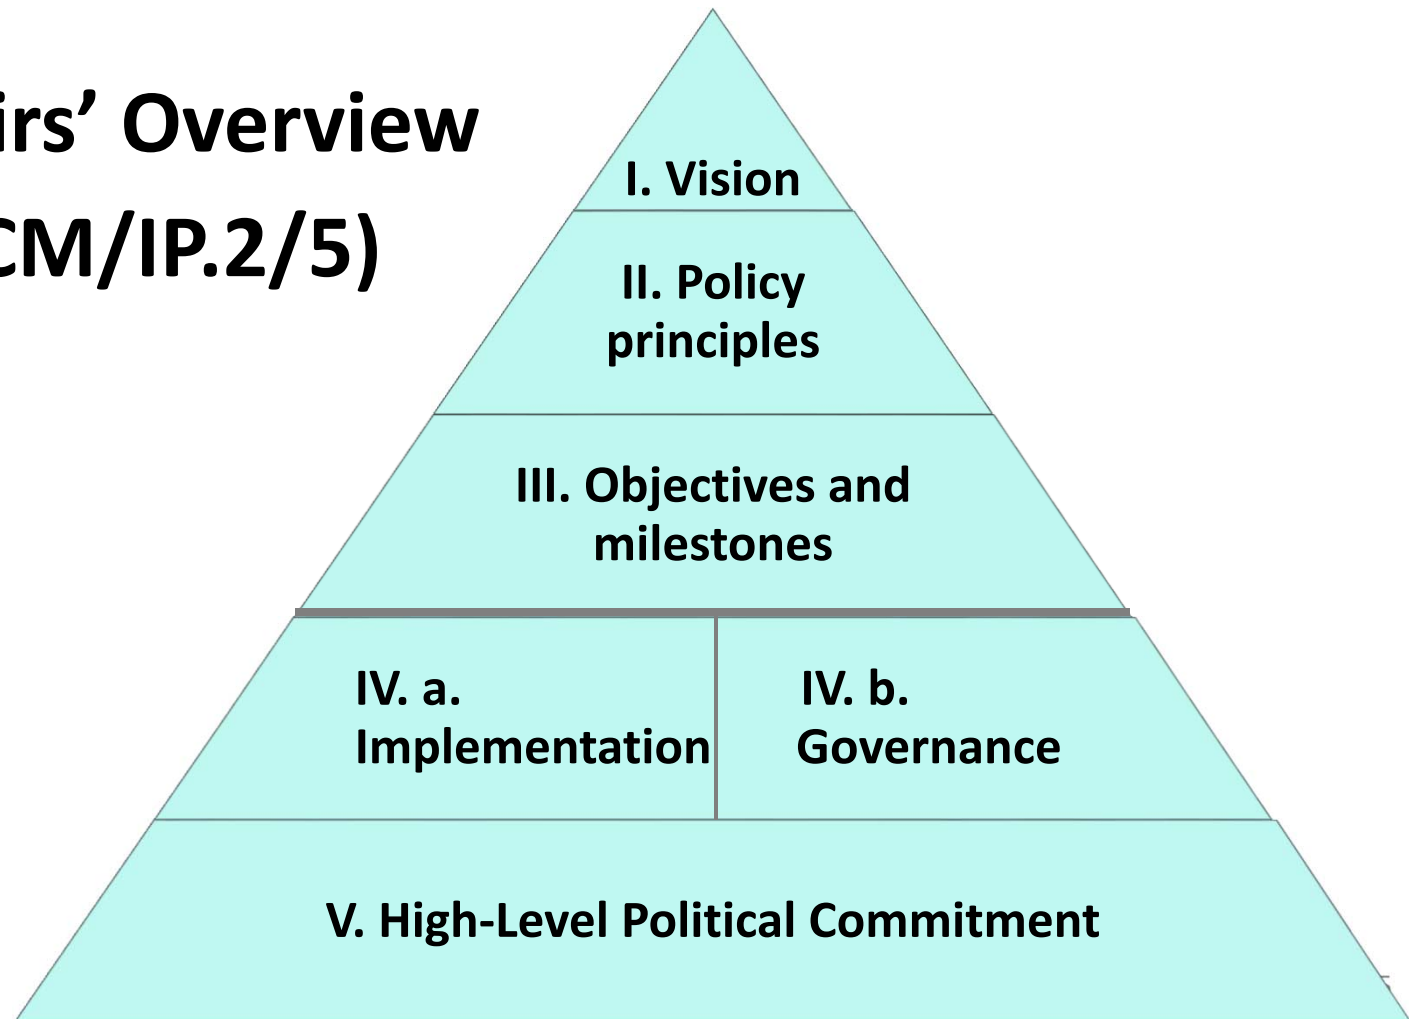

STRATEGIC APPROACH TO INTERNATIONAL CHEMICALS MANAGEMENT

Second meeting of the intersessional process for considering SAICM and the sound management of chemicals and waste beyond 2020

- Stockholm, Sweden
- 13-15 March 2018
- Proposed high level event on 12 March, organized by the Government of Sweden
- Documents available at www.saicm.org

Co-Chairs' Overview (SAICM/IP.2/5)

STRATEGIC APPROACH TO INTERNATIONAL CHEMICALS MANAGEMENT

Proposal on objectives in support of the 2030 Agenda and related milestones (SAICM/IP.2/8)

Centred on the 11 basic elements, aspirational in nature, and limited in number.

They are grouped around four key areas:

- I. Legal frameworks, implementation and enforcement
- II. Institutional frameworks, stakeholder participation, and sectoral engagement
- III. Information, risk assessment/reduction and monitoring
- IV. Political leadership, outreach, and promotion

Second intersessional process will:

- Review the proposed objectives and milestones and consider if those objectives would support a programme of work beyond 2020 that will deliver the overall vision.
- Reflect upon an effective process for undertaking reviews and performance measurement, including:
 - How to engage stakeholders.
 - How reporting could be coordinated with efforts under relevant international agreements and contribute towards the achievement of the 2030 Agenda.

Further considerations on the objectives proposal

- Going beyond the focus on the 11 elements of the Overall Orientation and Guidance, which consider mainly national and regional actions.
- Learning lessons from other areas, such as biodiversity.
- Considering approaches to set global, regional and national priorities and provide more details on specific actions, timeframes and indicators.
- Specifying roles and responsibilities of different stakeholders and sectors that will be working together to achieve objectives and facilitate the review of progress.

STRATEGIC APPROACH TO INTERNATIONAL CHEMICALS MANAGEMENT

Other papers

- Draft Independent Evaluation for 2006-2015
- Gender
- Financing
- Governance, including science policy interface
- Individual stakeholder submissions
