Introduction

1. The United Nations Institute for Training and Research (UNITAR) is a project-based organization using programmes and projects to perform business processes and achieve its strategic objectives. UNITAR does not receive any allocation from the UN regular budget and therefore its activities are entirely determined by the capability of the Directors and Managers to develop new projects and secure necessary funding for both staff salaries and activities under the leadership of the Executive Director. The type of funding and the specificity of the business processes impacts the structure of the Institute and the entire range of human resources management practices.
2. In the absence of a regular budget, the budget and the staffing structure of the Institute are based on projections. There is no assessed budget and therefore no allocation to programmes and none of the UNITAR regular posts are fully funded at the time when the budget is presented for approval to the UNITAR governing body, the Board of Trustees (BOT).
3. This proposed UNITAR programme budget for **USD 72.495** million covering the biennium 2022-2023 followed a comprehensive review of the opportunities and challenges faced during this year, significantly the impact of the COVID-19 pandemic, on the planned programmatic activities as well as a review of the full costs of staffing, other personnel, operational support and institutional costs for the biennium 2022-2023.
4. This proposed programme budget also follows the strategic framework, outlining the direction that UNITAR is taking to become 'fit for purpose', in achieving the learning and broader capacity development needs of beneficiaries. The work of UNITAR continues to be guided by the contemporary plans of action and the platforms agreed to in the United Nations for our people and their prosperity, for our planet, and for peace and justice. The major blueprints which will guide UNITAR's work are the 2030 Agenda for Sustainable Development, other significant outcomes on the strategic pillars of our work and the ongoing work on UN development system reform.
5. The projected UNITAR biennium budget (2022-2023) is proposed for **USD 72.495 million** and is **6 per cent** higher than the approved budget for the biennium 2020-2021 for **USD 68.102 million**.
6. The updated historical data of UNITAR incomes and expenditures have been updated and provided as **Annexure 1**.

Structure of the Budget

7. The proposed budget continues to reflect the strategic repositioning of the Institute to reflect the 2030 Agenda's emphasis on **people, planet, prosperity and peace**. Structurally, the programme budget of USD 72.495 is structured as follows:

- a. UNITAR's programme budget is appropriately structured around the five strategic objectives (SOs) to ensure deployment of UNITAR's human and institutional capital in alignment with the 2030 Agenda and thus deliver results effectively and efficiently towards the strategic goals. Annexure 2 presents the estimates of 13 programme areas contributing to the four strategic objectives, in addition to the fifth strategic cross-cutting objective on supporting the indivisible and integrated nature of the **2030 Agenda**. The 2030 Agenda is a holistic plan of action for people, planet, prosperity and peace, recognizing the interconnectedness in the SDGs and the collective action required by the various programme areas.
 - b. **The Defeat-NCD Partnership (D-NCD)**, a multi-donor programming partnership incorporated in the previous years, with strong links to the UNITAR strategic framework and its objectives.
 - c. Donors' contributions to the pooled **Strategic Framework Fund (SFF)** established in 2018 for the implementation of the strategic framework approved by the Board in 2017.
 - d. **Functional enablers** for the implementation of the strategic framework, consisting of:
 - (i) the Office of the Executive Director (**OED**), which includes costs relating to leadership, governance and oversight
 - (ii) the Division for Strategic Planning and Performance (**DSPP**) which includes costs related to (a) building partnerships and resource mobilization (b) planning, performance monitoring and evaluation and (c) communications and information technology; and
 - (iii) the Division for Operations (**DO**) which includes administration, human resources, procurement, finance and budget.
8. The budgeted figures for the biennium 2022-2023 are built on growth in UNITAR's programme areas during the biennium 2022-2023, particularly in the Peacekeeping Training Programme Unit, Multilateral Diplomacy Programme Unit, Social Development Programme Unit and the United Nations Satellite Centre (UNOSAT) Programme Unit. The budget also represents the integration of the SCYCLE Programme from the United Nations University (UNU) into UNITAR, which was initiated during the current biennium 2020-2021 (**Annexure 2**).
9. **Gender Equality**: UNITAR's budget for the biennium 2022-2023, includes the forecasted contributions to gender equality, using the UN system-wide defined "Gender Markers". Sixty-five per cent of UNITAR's biennium 2022-2023 budget is projected to contribute to gender equality or the empowerment of women in some way (**gender marker-1**) and 29 per cent in a significant way (**gender marker-2**) for a total of 94 per cent of the budget (**Annexure 3**).

10. The Institute's programme budget is organized into seven **cost categories** namely: **(i)** knowledge content development **(ii)** direct activities **(iii)** direct activities implemented through grants to 'implementing partners', **(iv)** operating activities **(vi)** direct implementation support costs and **(vii)** programme support costs. Thirty-six per cent of UNITAR's budget is spent on knowledge content development and 30 per cent is estimated to be spent on grants to work with implementing partners. (Annexure 4).

ASHI Liabilities and Funding Plan

11. As of 31 December 2018, the Institute's ASHI liabilities stood at USD 10.556 million. The Institute has increased the ASHI contribution from current 1 per cent to 6 per cent effective September 2018. Based on the recommendations from the UN Controller and approval by the UNITAR Board of Trustee, the Institute has started to fund the ASHI liabilities additionally, from the annual investment revenues earned from temporary short-term investments of the cash-pool. With this two-pronged approach, the funded position of UNITAR ASHI liabilities has improved over the years, despite sharp unfavourable movement in the actuarial valuations as of 31st December 2019 and actuarial losses of USD 0.553 million for the year 2020.

Year - as at 31st December	Total ASHI Liabilities - '000 USD	Funded %
2014	7,838	0
2015	6,450	0.40%
2016	6,692	1.10%
2017	8,060	1.60%
2018	8,351	2.80%
2019	16,313	6.70%
2020	17,724	9.90%

Cost recovery

13. The Institute's operating expenses are structured into five main segments as described below along with the proposed budget for the biennium 2022-2023, which is inclusive of the "**functional enablers**" of the strategic framework.

Table : 2 - Functional enablers - Budget for the biennium 2020-2023 (USD)			
Name of the Unit	2,022	2,023	Total
Office of OED	894,609	903,132	1,797,741
Division for Strategic Planning and Performance	1,610,752	1,668,361	3,279,113
Division for Operations	2,329,986	2,689,588	5,019,574
Institutional Operating Expenses (IOE)	1,034,500	652,500	1,687,000
General Operating Expenses (GOE)	187,210	187,210	374,420
Totals	6,057,058	6,100,791	12,157,849

14. UNITAR does not have any regional and country office presence. All support services are provided from its headquarters in Geneva. With its highly centralized support structure, UNITAR's above total operating costs are grouped as “**Indirect**” programme support costs (overheads) and “**Direct**” implementation support costs. UNITAR management is now working on developing an alternate cost recovery model to address the issues of transparency, traceability, competitiveness, and strict compliances with donors such as the European Union as they relate to its costs of providing support services to the programme areas. To this end, the indirect and direct costs (which were hitherto, until the biennium 2020-2021, were managed in a pooled form with overlapping functions) are now being rationalized to account for and calculate these separately. **Annexures 5 and 6** provide details of the projected indirect and direct support costs of UNITAR for the biennium 2022-2023.
15. “**Indirect**” programme support costs (overheads) of the Institute include but are not limited to provision of strategic direction, governance, high level advocacy, planning, policy guidance, quality assurance, independent evaluation, corporate representation and audit. Thus, indirect costs are shown to include:
- a. cost of the Office of the Executive Director
 - b. cost of the Division for Strategic Planning and Performance (inclusive of the Communication and Information Technology Support Unit which has been moved to the division from the Operations Division)
 - c. expenses related to Board of Trustees.
 - d. Institutional Operating Expenses (IOE) that are not directly allocable or traceable to the programmes and projects.
 - e. A portion of the Chiefs of Human Resources, Finance and Budget Units to reflect their overlapping roles institutional work along with their implementation support roles.
16. “**Direct**” Costs represent cost incurred during the transactional implementation support, that are easily traceable and reasonably allocable to programmes and projects, such as administering human, financial, physical and ICT resources for the efficient implementation of the programmes. Accordingly, the direct support costs are

shown to include the following units' cost that provide transactional support in the implementation of the programmes and projects:

- a. Cost of the Human Resources support Unit
- b. Cost of Administration and Procurement support unit
- c. Cost of Finance and Budget support unit
- d. Cost of Information and technology support unit
- e. General Operating expenses (GOE), that are easily traceable and reasonably allocable to programmes and projects

In accordance with the full cost recovery policy approved by the BOT in 2013, indirect costs are recovered as programme support costs (PSC) at 7 per cent of the programme expenditure and direct support costs (DSC) at 11 per cent of the programme contributions. These are referred to as "internal transfers" in the proposed revised budget which will collectively defray the costs of units representing the "functional enablers" totalling USD 12.158 million. The presented budget proposal represents the cost recovery of 18.0 per cent which is the approved by the Board. The total indirect overhead costs are budgeted to be 9.12 per cent and the total direct costs are budgeted to be 8.41 per cent. In addition to the above cost recovery, the Institute also receives a small portion of un-earmarked contributions from donors to its General Fund (**Annexures 5 and 6**).

- 17. Update to the Programme and General Fund Expenses: Annexure 7-A and 7-B** provide the update of the expenses from 1st January 2020 to 31st December 2020 and in 2021 (as of 15th September) respectively. During 2020, as a response to the Coronavirus 2019 (COVID-19) pandemic, there were adjustments to certain budget lines / expenses such reduction in travel costs, face to face workshops and trainings etc. Reliance on consultants and implementing partners for the continuation of the implementation of activities has increased spending in these budget lines. However, on an overall, for the year 2020, the total expenditure is underspent by 1.26 per cent against the approved budget for the year.

For the year 2021, as of 15th September 2021, the budget utilization is at 55 per cent. However, it is important to note that the delivery of UNITAR usually picks up during Q4 of the year and will be significantly higher than the previous quarters. Also, most annual costs and invoices for the year are processed during the last quarter of the year. For the year 2021, UNITAR expects to fully utilize the amounts as budgeted.

Currency Fluctuations

18. To reduce / contain the "realized" exchange losses (due to receiving UNITAR donor contributions in various currencies into one USD bank account), UNITAR started using 6 other major currency bank accounts namely, EUR, CHF, JPY, GBP, NOK, SEK. During the year 2020, UNITAR started to use UNDP bank account in CAD currency as well as Canada has become a significant contributor to UNITAR programmes.

The realized losses significantly reduced to only USD 1,414 as of 15th September 2021 as against USD 19,794 as of 31st August 2020, reported in the last budget report.

Year	Actual Amount received in USD for non-USD contributions	Equivalent amount based on United Nations Operational Rates of Exchange (UNORE)	Exchange gains/(losses)
2016	3,961,576	3,970,177	(8,601)
2017	10,840,542	10,881,253	(40,711)
2018	10,742,058	10,726,042	16,016
2019	11,311,006	11,310,314	692
2020	4,806,765	4,810,190	(3,425)
2021 (as of 15 Sep 2021)	402,499	403,913	(1,414)

Operational reserves

19. With the growth from the years 2017-2020 the Institute has overcome the cost-recovery gap from the past several years increasing the equivalent operational reserves from 4.93 months to 7.81 months. With the 6 per cent forecasted growth of the Institute in the biennium 2022-2023 respectively, an estimated USD 1.534 million is expected to further add to the equity by the end of the biennium, bringing the operational reserve to an equivalent of about 11.04 months.
20. **Annexure 6** provides the estimates of operational reserves for 2022-2023 in comparison with the actual performance from 2016 to 2020 and the budget for the biennium 2020-2021.
21. UNITAR researched the current formulas used by other UN agencies for their respective mandated levels of operational reserve. The UN agencies use multiple formulas based on the size of the entities, source and nature of the funds, revenue streams and mandate. UNITAR is comparatively a small agency, entirely funded by project funds, with no support from the UN regular budget. UNITAR board has discussed options and considered the minimum and maximum operational reserve of equivalent to **12** months and a maximum of **24** months respectively, to be a practical and prudent approach for UNITAR, considering its business model and smaller size.

Staffing

22. In the absence of a regular budget to cover staff costs, the budget and the staffing structure of the Institute are based on projections. There is no assessed budget and therefore no allocation to programmes and none of the UNITAR regular posts are fully funded at the time when the budget is presented for consideration and adoption by the BOT. The organizational structure is a projection like the budget and is adjusted continuously depending on the number of projects which materialize throughout the biennium. Approved posts are filled gradually as and when funds become available. New posts may need to be available on short notice if a new project comes up or if a project materializes earlier than planned. If a project closes unexpectedly, approved posts become vacant on short notice resulting in termination

of contracts. Such posts may remain unfilled for several months or years and are filled again when funds are secured in the respective programme unit through a new project.

23. The structure of the Institute has been reviewed and revised to reflect the current situation caused by the COVID-19 pandemic situation as well as the priorities established by the BOT and the Institute's ongoing alignment with the 2030 Agenda, with a view to support the implementation of the strategic framework and the new growth initiatives.
24. Out of the total 69 positions originally approved by the Board for the biennium 2020-2021, 3 posts are proposed to be abolished and 19 new posts are budgeted. The total budgeted posts for the revised biennium budget are thus 85 (*66 previously approved posts and the 19 new proposed posts*) (**Annexure 8-A**).
25. Of the 19 new positions being proposed, 18 positions are required to support the programmes to support the growth initiatives to be implemented both from Geneva and from the new UNITAR office in Bonn. The detail of the staff distribution by programme is provided in **Annexure 8-B and Annexure 8-C**.
26. The 66 approved budgeted positions include 6 positions for upgrades to meet the increasing complexities and volumes in supporting the delivery of the programmes (**Annexure 9**)
27. UNITAR Bonn office that was officially opened in September 2020 is a multi-programme office and will work across all pillars of the Agenda 2030. All staff positions working from Bonn office are included in the respective programme areas/units.
28. **Annexure 10** provides the revised organization chart with the 85 total budgeted posts for the biennium budget 2022-2023 (*66 approved posts including 6 upgrades proposed and the 19 new proposed posts for a total of 85 positions*).
29. Over the years, UNITAR's specific business model required recruitment of fellows which is a statutory category of personnel. UNITAR employs non-remunerated fellows: Associated Fellows and Correspondents and remunerated fellows: **Advisors**, Training and Research **Assistants** and **Associates**, for the purpose of contributing to the analysis and planning of the activities of the Institutes or for special assignments in connection with the Institute's programmes. While all such personnel is recruited under "Fellow" contracts, they are not considered as "regular staff" but serve in their individual capacities. The work of the **Advisors** is of a conceptual, analytical or advisory nature, and the work of the **Assistants and Associates** is in the development, implementation, monitoring and evaluations of programmes, projects and operations, in a particular sector or functional area. Fellow contracts can be remunerated or non-remunerated.
30. The number of remunerated **Fellows** and the amount budgeted for the biennium 2022-2023 in relation to the **Regular Staff** is shown in the below table.

Staff category	Budgeted in the current		Budgeted in the new	
	Number	USD	Number	USD
Fellow	48	7,099,969	38	4,333,557
Regular Staff	69	19,062,399	85	30,174,870
Total	117	26,162,368	123	34,508,427

31. UNITAR had 56 staff as of 31st December 2020 and 62 staff as of 15th September 2021. The details of categories are provided below table:

Year	Gender	Fixed term regular posts	Temporary posts	Junior Professional Officer Posts	Total
As of 31 December 2019	Female	18	3	2	23
	Male	20	8	2	30
	Total	38	11	4	53
As of 31 December 2020	Female	22	4	1	27
	Male	26	3	0	29
	Total	48	7	1	56
As of 15 September 2021	Female	23	8	0	31
	Male	26	5	0	31
	Total	49	13	0	62

32. **Annexures 11-A and 11-B** provide the details of the gender, regional and nationality distribution of the above staff as of 31st December 2020 and as of 15th September 2021, respectively. Further, **Annexure 12** also provides the regional and gender distribution for regular staff and remunerated fellows as of 15th September 2021.
33. **Consultants:** The Institute's type of funding and the particular business model impact the level of competencies and skills of its staff. Work in projects is generally more knowledge-intensive, putting a great emphasis on the importance of attaining and developing the right competencies.

As a project-based organization and with a lower staff cost ratio to overall costs (projected at 41 per cent), UNITAR also relies on a large number of consultants with expertise and competencies that UNITAR staff do not have, to undertake specific assignments in the field related to UNITAR's core functions in the areas of training and capacity development. Consequently, the number of consultants varies considerably, as to the length of their service. Some projects may require much greater specialization, skills and competencies than the core competencies and skills available among the regular staff hired with specific job descriptions. In projects, the work to be done is more uncertain, limited in time, the workload is variable with peaks and troughs as projects are realized and implemented, and this requires a very flexible, responsive approach in selecting and appointing individuals able to adapt to

the changing needs of the projects and develop into the role. Hence the need for hiring consultants and individual contractors to fill the gap in the skills and competencies required by the various projects.

34. Each time a new project or programme is developed, the staffing configuration of the organization changes. Some projects may require much greater specialization, skills and competencies than the core competencies and skills available among the regular staff hired with specific job descriptions. In projects, the work to be done is more uncertain, limited in time, the workload is variable with peaks and troughs as projects are implemented. Hence the need for hiring consultants and individual contractors to fill the gap in the skills and competencies required by the various projects. Hiring regular staff in each area of expertise required by the Institute’s work programme is not possible as, in the absence of a regular budget to cover salaries, benefits and related entitlements, such appointments would result in financial liabilities which cannot be absorbed by project funds and therefore not in line with the UN Financial Rules and Regulations and the UN Staff Rules and Regulations.
35. The total number of distinct consultants projected and budgeted in the 2022-2023 biennium budget, in comparison to the budgeted in the 2020-2021 biennium, is provided below:

Year	Distinct number budgeted	USD budgeted
2020	307	7,537,616
2021	251	7,536,845
Biennium total	367	15,074,461
2022	222	6,535,129
2023	193	5,930,877
Biennium total	236	12,466,006

36. Below is the number of consultants and individual contractors actually employed during the biennium (2018- 2019), in 2020 and in 2021 (until 15th September) with the gender distribution:

Number of Consultants and Individual Contractors			
Year	Male	Female	Total
2018-2019	342	263	605
2020	279	282	561
2021 Up to 15 Sept.	261	294	555

37. **Annexure 13-A and 13-B** provide the updated gender distribution of the consultants and individual contractors for the year 2020 and for 2021 (15th September), respectively.

UNITAR workforce distribution

38. The UNITAR workforce includes, fixed-term and temporary appointments, fellows, individual contractors and consultants and trainees.

Type of Personnel	Gender	As of 31st December 2019	As of 31st December 2020	As of 15th September 2021
Fixed Term	Female	18	22	23
	Male	20	26	26
	Total	38	48	49
Temporary Postions	Female	3	4	8
	Male	8	3	5
	Total	11	7	13
JPOs	Female	2	1	0
	Male	2	0	0
	Total	4	1	0
Fellows	Female	9	5	6
	Male	27	20	17
	Total	36	25	23
Individual Contractors and Consultants	Female	55	116	146
	Male	50	79	85
	Total	105	195	231
Trainees & Collaborators	Female	14	24	35
	Male	8	7	10
	Total	22	31	45
Grand total	Female	101	172	218
	Male	115	135	143
	Total	216	307	361

39. **Annexures 14A and 14B** provide the details of the grades of the above categories of work force as of 31st December 2020 and as of 15th September 2021, respectively.

ACABQ recommendations and status update:

40. Status update on the recommendations of ACABQ in its report AC/2137 dated 29 October 2020, has been provided as **Annexure 15**.

Results

41. The results components of the programme budget are prepared pursuant to Economic and Social Council resolution 2021/16, which encourages UNITAR to continue to respond to the learning and other capacity development needs in accordance with its mandate and the outcomes of relevant international conferences, and to harmonize its activities with the 2030 Agenda. The results are also aligned

with the objectives and sub-objectives of the Institute’s strategic framework, as shown in the table 9 below. Two sub-objective areas have been added to the strategy and programme of work, viz, promote health for all, particularly the most vulnerable people and countries, and strengthen the transformative power of digital technology and connectivity, as UNITAR continues its efforts over the course of the next four years to help Member States implement the 2030 Agenda. In addition, emphasis will be placed on addressing the imperative of climate action and getting the SDGs back on track.

Table 9: Strategic pillars, objectives and sub-objectives and related SDGs

Pillar	Strategic objective	Sub-objective	Result areas with related primary SDGs
Peace	SO1: Promote peace and just and inclusive societies	Support institutions and individuals to contribute meaningfully to sustainable peace	4, 7, 16
People	SO2: Promote people's well-being and support equitable representation of countries in global decision-making fora	Promote people's wellbeing, including the protection and empowerment of groups that are vulnerable and marginalized	3, 4, 8, 11, 16
		Strengthen representation of countries in special situations in institutions of global governance	4, 16
		Promote health for all, particularly the most vulnerable people and countries*	3
Planet	SO3: Support the conservation, restoration and safeguarding of our planet for present and future generations	Strengthen capacities to foster a green, low-carbon and climate resilient transition	8, 13
		Strengthen capacities to manage dangerous chemicals and wastes in a sound and sustainable manner	12
		Improve the conservation and sustainable use of natural resources	14
Prosperity	SO4: Promote inclusive and sustainable economic growth	Help countries achieve inclusive and sustainable economic growth	3, 5, 8, 11, 17
Cross fertilization of knowledge and expertise	SO5: Support the indivisible and integrated nature of the 2030 Agenda	Optimize the use of new technology, including geospatial technology, for evidence-based decision-making for human security, peace and socio-economic development	1, 9, 11, 13, 16
		Support coherence and evidence-based policies of the 2030 Agenda	17
		Strengthening the transformative power of digital technology and connectivity*	...

* new for 2022-2023

42. Given the crosscutting nature of training and learning, UNITAR plans to contribute to 13 of the 17 SDGs. As shown chart 1, 38 per cent of the 79 programme-level results areas are aligned with Goal 16 (Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels).

Trained beneficiaries

43. Trained beneficiaries continue to represent UNITAR’s key output. Over the course of 2022-2023, UNITAR plans to reach more than 222,848 individuals through various types of training and related activities, representing a 78 per cent increase over the 2020-2021 programme budget (revision) beneficiary outputs of 125,258. The

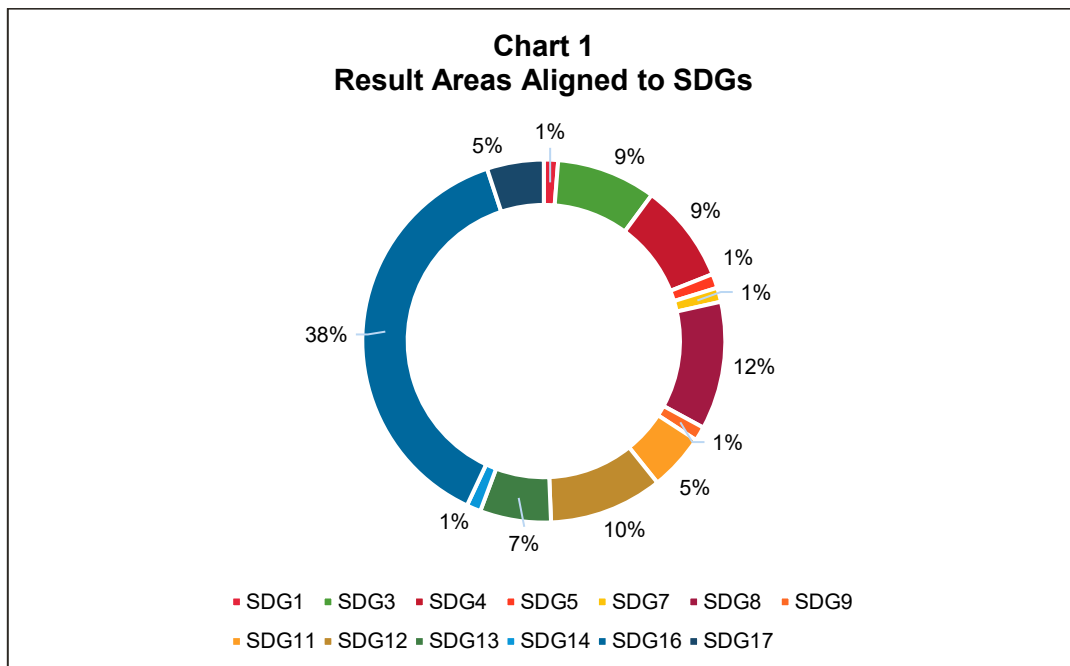

breakdown of beneficiary outputs per objective/sub-objective is provided in table 10 below. Forty-five per cent of these beneficiaries are from planned climate change and green development-related online courses offered through the One UN Climate Change Learn Partnership (UN CC:Learn) and the Partnership for Action on the Green Economy (PAGE). An additional 32 per cent of the planned beneficiary outputs are delivered through the Global Network of affiliated International Training Centres for Authorities and Leaders (CIFAL).

Pillar	Strategic objective	Sub-objective	Planned beneficiary outputs
Peace	SO1: Promote peace and just and inclusive societies	Support institutions and individuals to contribute meaningfully to sustainable peace	17,755
People	SO2: Promote people's well-being and support equitable representation of countries in global decision-making fora	Promote people's wellbeing, including the protection and empowerment of groups that are vulnerable and marginalized	84,960
		Strengthen representation of countries in special situations in institutions of global governance	8,616
		Promote health for all, particularly the most vulnerable people and countries*	0
Planet	SO3: Support the conservation, restoration and safeguarding of our planet for present and future generations	Strengthen capacities to foster a green, low-carbon and climate resilient transition	100,050
		Strengthen capacities to manage dangerous chemicals and wastes in a sound and sustainable manner	1,060
		Improve the conservation and sustainable use of natural resources	0
Prosperity	SO4: Promote inclusive and sustainable economic growth	Help countries achieve inclusive and sustainable economic growth	2,667
Cross fertilization of knowledge and expertise	SO5: Support the indivisible and integrated nature of the 2030 Agenda	Optimize the use of new technology, including geospatial technology, for evidence-based decision-making for human security, peace and socio-economic development	120
		Support coherence and evidence-based policies of the 2030 Agenda	7,620
		Strengthening the transformative power of digital technology and connectivity*	0

* new for 2022-2023

Countries in special situations and gender

44. The Institute will continue to work towards achieving its high-level results by placing emphasis on strengthening the capacities of beneficiaries from developing countries, representing some three-quarters of UNITAR learners. The list of beneficiaries (by country) from learning-related events delivered from 1 January 2020 through 31 August 2021 is provided in **Annexure 16**.

45. UNITAR will continue to monitor the geographic coverage of its beneficiaries with a view to achieving maximum results. In accordance with the 2030 Agenda principles of “leaving no one behind” (LNOB) and “reaching the furthest behind first”, UNITAR will work to increase beneficiaries from countries in special situations, including the least-developed countries (LDCs), the landlocked developing countries (LLDCs), the small island developing States (SIDS) and fragile States and countries emerging from conflict (**Annexure 17**). In 2020, 16 per cent of UNITAR learners came from countries in special situations.
46. The Institute reversed the gender imbalance of its beneficiaries in 2020, with a female to male ratio of 58 to 42 (as opposed to 45 to 54, with 1 per cent recorded as other in 2019). In accordance with its strategic objectives, LNOB principles and its gender equality and empowerment of women (GEEW) strategy, UNITAR will continue to emphasize gender and women empowerment in its programming. The programme budget includes 76 per cent and 73 per cent of result areas aimed directly at improving GEEW and LNOB respectively.

Programme developments and adjustments

47. As UNITAR turns to a new two-year cycle, Management has made a number of adjustments to the results components of the programme budget, including some initiatives that have been scaled down and a number of new or redefined results areas and/or indicators. The most significant adjustments include in the present revision are summarized below.
48. Under Strategic Objective (SO) 1 (Peace) UNITAR will continue to increase peacekeeping-related programming which now accounts for the Institute's largest programme portfolio. A number of new initiatives are planned or under implementation that will carry over to 2022, including activities delivered through the Institute's office in Bonn, Germany (e.g. enhancing capabilities, motivation and opportunities of policy, gendarmerie and national guard members to ensure security prior to, during and post elections, as well as strengthening the capacity of the judicial system and promoting the rule of law in Mali. Much of UNITAR's peacekeeping portfolio targets countries in or emerging from conflict in Africa.
49. Under SO2 (**People**) UNITAR will scale up efforts to tackle issues related to road safety and the fight against corruption, cybersecurity and technology. The Nigeria Project Office is being scaled down and will undergo a review and possible transition in management, with an update to be provided in the budget revision in late 2022.
50. Under a new sub-objective, UNITAR will increase efforts to promote health for all, particularly the most vulnerable people and countries, with a new initiative on value-based healthcare modelling and health outcome measures in developing countries, in addition to the current work on supporting countries to achieve SDG 3.4, and addressing capacity needs of local communities in surgical obstetrics and anaesthesia services.
51. UNITAR will also continue programming under D-NCD, which enables and assists low-resource countries to scale up sustained action on non-communicable diseases (NCDs), through national NCD capacity building, community scale-up of NCD services, improving the availability and affordability of quality-assured NCD supplies through the Defeat-NCD Partnership Marketplace, and providing innovative financing solutions to fund NCD programmes. The Partnership prioritized servicing the 90 low resource countries with an incremental scale-up plan over the next decade. D-NCD is closely-aligned with UNITAR's strategic objective of helping countries to improve the well-being of vulnerable people and will offer scope to collaborate in using technology for learning, improved access to care, and strengthening healthcare systems (e.g. skilling of community volunteers and frontline healthcare workers). The Partnership also provides important linkages to technology and innovation, as well as financing for development. During 2020-21, D-NCD initiated country programming in support of the Ministries of Health of Myanmar, Rwanda and The Gambia. The present budget reflects a downward revision for D-NCD programming in light of the pending EU pillar assessment to enable UNITAR to receive pledged EU funds for this programme at the global and country levels.

52. Under **SO2 (Planet)** UNITAR's continued engagement with the One UN CC:Learn Partnership will continue into a fifth phase, with training planned to be delivered to more than 100,000 beneficiaries for the biennium, in addition to continued work on the green economy together with other UN agencies of the Partnership for Action on the Green Economy (PAGE).
53. The Sustainable Cycles Programme, which promotes the development of sustainable societies through the reduction of environmental loads of ubiquitous products through research and training, and has been migrating from UNU will complete full integration into UNITAR by December 2021 and become a distinct programme unit under the Planet Division for the biennium starting January 2022. Delivering its work from the Bonn Office, SCYCLE will scale up programming in governance and institutional capacity for chemicals and waste management.
54. The Chemicals and Waste Programme Unit (CWM) assists countries to manage and reduce the risk posed by Chemicals and Wastes at all levels, has developed online train-the-trainers learning platforms, following the example of the UNITAR CC:Learn, that includes audio-visual materials and presentations/ documents grouped in short learning modules and online courses that have been used to train stakeholders on some key areas, such as: e-waste, municipal waste, PCB and POPs, Globally Harmonized System of Chemicals Classification and Labelling, among others.
55. Under **SO4 (Prosperity)** Management will continue programming under a number of result areas by the Hiroshima Office and the Public Finance and Trade Programme Unit, including the financial literacy project, youth entrepreneurial skills, as well as a new project on partnership development among public, private and civil society sectors to upskill and empower women. Under the Social Development Programme, UNITAR will initiate a new training project to develop knowledge of civil aviation authorities on airport management as engines for economic growth and development).
56. Under **SO5 (Accelerating the implementation of the 2030 Agenda and optimizing technology)** UNITAR plans to achieve growth in programming based on an increase in requests for satellite imagery analysis from UN agencies and Member States related to emergency response, and peace and security. In addition, remote project monitoring using satellite analysis has also increased, with a scaled up programming on skills development for national and regional experts to use satellite derived mapping and GIS for disaster risk reduction, climate change adaptation, environmental preservation, and territorial planning and monitoring.

Strategic Framework Fund

57. The SFF was established by the Board of Trustees in 2018 as a pooled funding mechanism to enable donors to support the implementation of the strategic framework and in particular initiatives designed to develop capacities of beneficiaries from countries in special situations. Since its creation, the SFF has supported over 50 projects and initiatives. In conjunction with the present programme budget,

amounts have been included under each strategic objective, although the planned results will only be defined once applications are received and approved for funding in accordance with the SFF's governing principles.

Functional objectives

58. Turning to the functional objectives and linked to the enablers of the strategic framework, UNITAR will continue with the planned result areas with a view to maintaining sound executive leadership, strengthening programming for results, optimizing operational efficiency, increasing and diversifying resources and partnerships, and enhancing communications. The Communications and Information Technology Unit will be moved to the Division for Strategic Planning and Performance to increase the unit's strategic focus and help the Institute become a more data-driven organization.
59. Partnerships continue to be an important strategic enabler for UNITAR to deliver results effectively and efficiently. In 2020, of the 896 events delivered, 88 per cent of UNITAR beneficiary outputs were delivered in partnership. Partners range from government agencies, UN entities, other international organizations, foundations, nongovernmental organizations, businesses and universities.
60. The geographic location of partners varies widely¹, as the charts 2 and 3 below show for non-financial partnerships and implementing partnership arrangements. Understandably, the location and other partnership parameters are dependent on project requirements. At present, the largest concentration of implementing partner arrangements are in Africa, given the extensive programming in the area of peace in this region.

¹ Based on valid partnership agreements from 01/01/2020 to 31/08/2021.

External factors

61. The COVID-19 pandemic has continued to impact the delivery of results in 2021 and will likely continue to affect programming for the 2022-2023 biennium given the ongoing uncertainty on how the pandemic will evolve, despite many UNITAR residential activities having been successfully migrated to online solutions. Further information on the impact of COVID-19 pandemic on the activities of UNITAR, learnings and how UNITAR has adapted to new ways of working is provided under **Annexure 18**.

62. As an autonomous, voluntary-funded and project-based entity, a significant and recurrent external factor affecting programming and the achievement of planned results is the ability to mobilize income to match budget requirements, as discussed in previous budget submissions. UNITAR anticipates that this external factor will continue to present resource mobilization challenges as donor countries redirect funds to mitigate the present health pandemic and financial and economic challenges. While this may open up opportunities in some areas such as health-related programming, it may also result in a funding constraint in other areas. UNITAR is also preparing a new Partnerships and Resource Mobilization Strategy (2022-2026) which Management will present to the Board of Trustees at its Sixty-Second Session.
63. The specific result components of the programme budget are presented in **Annexure 19** and aligned according to strategic objectives and sub-objectives of the strategic framework.² The 79 programmatic result areas are derived from some 160 projects. Performance against the achievement of the result areas will be measured on the basis of the indicators, targets and key outputs and recorded in the biennial programme performance report.

² Annexure 19 is issued separately given its volume.

Annexures

Annexure 1: UNITAR Income and Expenditure 2002-2023

<i>Thousands of United States Dollars</i>			
Beinnium	Income	Expenditure	Surplus/(Deficit)
2002-2003	16,603	15,352	1,251
2004-2005	29,136	22,525	6,611

Operational Reserve - -Closing Equiv. Months	7.60	4.93	5.16	6.19	7.81	8.84	11.04	
<p>* UNITAR , with its highly centralized support structure, is now working on developing an alternate cost recovery model . To this end, the indirect and direct costs (which were hitherto managed in a pooled form with overlapping functions) are now being rationalized to account for and calculate these seperately . Until 2021 , Indirect costs were shown only to include cost of the Office of the Executive Director + Division for Strategic Planning & Performance + expenses related to Board of Trustees. The rest of the institutional overheads were being presented as grouped as direct costs . From 2022 onwards, in alignmnet with the cost recovery rationalization, the institutional overheads will also transparently include portion of the Chiefs of Human Resources, Finance and Budget to reflect their overlapping institutional work along with their direct implementation support . Further , effective biennium 2022-2023, the Communication and Information Technology Support Unit (CITSU) has been structurally added to the Division of Strategic Planning and Performance Division, which cost will be part of the institutes' indirect costs/overhead .</p>								

Annexure 7-A: Update of the expenses from 1st January 2020 to 31st December 2020 Compared to the Approved Budget for 2020

Expenses description	2020 Revised Program Budget	Program Expenses	General Fund Expenses	2020 Total Expenditure	Budget variance Over spent / (under spent)	Remarks

Annexure 15: Table of updates to recommendation of ACABQ contained in its previous report: Recommendations contained in ACABQ report AC/2137 dated 29 October 2020:

Paragraph	“Recommendation”	Action/Observations by UNITAR
Para 5	<p>Proposed revisions to the programme budget for the biennium 2020-2021: The Advisory Committee is of the view that the forecast of expenditure for the remainder of 2020 may be overly optimistic. The Committee trusts that the Executive Director will include in his next report on the implementation of the 2020-2021 budget, full details on activities completed and actual expenditures incurred in 2020, as well as comprehensive information on the impact of the COVID-19 pandemic on the activities of UNITAR, any adaptations made and alternative methods used for programme and service delivery in 2020.....</p>	<p>The actual expenditure incurred in 2020 as well as expenditure as of 15th September 2021 has been updated and presented in this document as annexures 7-1 and 7-B respectively. UNIATR management wishes to note that delivery of UNITAR usually picks up during Q4 of the year and will be significantly higher than the previous quarter. Also, most annual costs and invoices for the year are processed during the last quarter of the year. The overall actual expenses for 2020 was only 1.26 % lower. For the year 2021, UNITAR expects to fully utilize the amounts as budgeted.</p>
Para 5	<p>...as well as comprehensive information on the impact of the COVID-19 pandemic on the activities of UNITAR, any adaptations made and alternative methods used for programme and service delivery in 2020.</p>	<p>A detailed note is added to this report as Annexure - 18</p>
Para 5	<p>Proposed revisions to the programme budget for the biennium 2020-2021: The Committee further trusts that the Executive Director will also include information on the lessons learned and new ways of working during the pandemic, and how they can be applied to improve the efficiency and effectiveness of the Institute in delivering and managing its programmes.</p>	<p>A detailed note is added to this report as Annexure - 18</p>
Para 7	<p>Operational reserves: The Advisory Committee trusts that, as requested by the General Assembly, the Secretary-General will proceed with a consultation among United Nations entities, with a view to developing a common and balanced approach towards setting the benchmarks for minimum and maximum reserve levels.</p>	<p>UNITAR researched the current formulas used by other UN agencies for their respective mandated levels of operational reserve. The UN agencies use multiple formulas based on the size of the entities, source and nature of the funds, revenue streams and mandate. Other agencies decided to maintain equivalent to (i) 12 months of average of previous 3 years of “non-program expenses” and/ or (ii) equivalent to 12 months of average of previous 3 years of total expenses by cost classified as “management activities”.</p>
Para 8	<p>Operational reserves: Pending the outcome of that consultation, the Advisory Committee emphasizes the need for a prudent approach and trusts that UNITAR will fully take into account its financial situation and the level of available resources</p>	<p>UNITAR is comparatively a small agency, almost entirely funded by project funds, with no support from the UN regular budget. UNITAR board has discussed options and considered the minimum and maximum operational reserve of equivalent to 12 months and a maximum of 24 months respectively,</p>

	when considering the size of its operating reserve.	to be a practical and prudent approach for UNITAR, considering its business model and smaller size of the institute
Para 9	Currency Fluctuations: The Advisory Committee trusts that the Executive Director will include in his next report full details on the losses and gains on currency exchange, as well as an analysis of the overall impact of this change and any lessons learned and/or best practices to be shared with other United Nations entities.	UNITAR is now efficiently using the diverse currency bank accounts of UNDP to reduce overall exposure to the currency fluctuations. Table 3 in this document presents the update on currency fluctuations. The realized losses significantly reduced to only USD 1,414 as of 15th September 2021 as against \$19,794 as of 31st August 2020, reported in the last budget report.
Para 10	Gender balance: The Advisory Committee welcomes the detailed information provided and encourages UNITAR to continue to support of Secretary-General's strategy on gender parity and to provide an update thereon in the next budget submission.	Annexures 3, 11 A & B, 12, 13 A & B, 14 A & B and 16 presents various information with gender distribution reflecting the work of UNITAR towards this objective.
Para 11	Geographical distribution: The Advisory Committee encourages UNITAR to make further efforts to improve the geographical distribution of its workforce. The Committee trusts that the Executive Director will continue to provide information on the UNITAR workforce in future budget submissions.	Annexures 11 A & B, 12, 13 A & B, and 16 in this document presents various information with geographical information distribution reflecting the work of UNITAR towards this objective

Notes: 1) Beneficiary statistics by country from the period of 1 January 2020 to 31 August 2021, as recorded by Programme Units in the UNITAR Events Management System for learning-related events (data for 2021 extracted on 20.09.2021). Beneficiaries are recorded as "participations" and may not necessarily be unique participations. This list does not include participants from non-learning events, such as conferences, as nationalities of participants are not recorded. The number of overall beneficiaries for the period from 1 January 2020 to 31 August 2021 is 460,702 (1 Jan - 31 Dec 2020: 322,410; 1 Jan -31 Aug 2021: 138,292). Countries with an (*) signify a special situation country. As 2021 is ongoing, "unreported" and "blank" data will be confirmed during the fourth quarter. "Other" data are geographic territories that are not Member States. Countries with two (**) are permanent non-member observer states in the General Assembly of the United Nations: the Holy See and Palestine.

Annexure 18: Management's responses to ACABQ comments to the below raised in the report AC/2137 dated 29 October 2020

- Comprehensive information on the impact of the COVID-19 pandemic on the activities of UNITAR, any adaptations made and alternative methods used for programme and service delivery in 2020.
- The Committee further trusts that the Executive Director will also include information on the lessons learned and new ways of working during the pandemic, and how they can be applied to improve the efficiency and effectiveness of the Institute in delivering and managing its programmes.

Responses:

1. Since the onset of the COVID-19 pandemic in March 2020, UNITAR has taken a proactive, flexible and transparent approach to the health crisis and has engaged internally with all staff and personnel; with its governing body, the Board of Trustees; with donors and other partners; and with the Friends of UNITAR Group which convenes once yearly in Geneva.
2. At the Institute's [Sixty-First Session of the Board of Trustees](#) (November 2020) and in conjunction with the consideration of the revised 2020-2021 programme budget, Management briefed the Board on the impact of COVID-19 on programming and operations, and discussed responses to ensure staff safety and welfare, the conversion of face-to-face training activities to online delivery and the development COVID-specific response initiatives. During the initial months of the pandemic (March/April through December 2020), UNITAR engaged with donors and other partners to mitigate the effects of travel and other restrictions on programming. While the crisis had an immediate impact on missions and in-person training activities (both underway and scheduled), UNITAR successfully converted a large number of planned in-person training events online. Very few initiatives had to be cancelled. In fact, in 2020, approximately 80 per cent of the Institute's activities were delivered online, as compared to 38 per cent in 2019. To support this change and ensure that online delivery does not compromise the results of training, the UNITAR Learning Solutions Team developed a series of short guides addressing various aspects of online training design and delivery to help institutions and organizations worldwide conduct effective, inclusive and participatory meetings and events.
3. In addition to ensuring business continuity of planned programming, and as communicated to the Advisory Committee in 2020, UNITAR broadened its programme portfolio to increase awareness and develop knowledge on matters related to the COVID-19 crisis. During 2020, at least 59 unprogrammed training activities dealt with the COVID-19 pandemic in one dimension or another. The [2020 Results Report](#) showcases various such initiatives from the difference thematic pillars of UNITAR's programming.
4. In the third quarter of 2021, UNITAR launched an independent evaluation to assess the relevance, coherence, effectiveness, efficiency and likelihood of impact and sustainability of UNITAR's programming response to the COVID-19 pandemic; to identify any problems or challenges that programming has encountered; and identify good practices and lessons to be learned on programme design, implementation and management. Although the evaluation is ongoing and only scheduled for completion at the end of November 2021, data collection to date has produced the following, preliminary findings, amongst others:

- Initially, UNITAR's planned schedule of the projects was strongly affected by the pandemic, with programme units having to postpone activities due to the lockdown, travel restrictions and countries' health measures, consequently hindering activity implementation.
 - Activities had to be redesigned and adapted to a new teaching methodology, from in-person to online delivery. While some UNITAR programme units were able to make this conversion rather seamlessly (due to existing online delivery approaches and experience), other units more dependent on in-person delivery methods faced considerable challenges.
 - In most cases, conversion involved adapting the learning material to online technology, which included adapting the content, using online technology and tools to reach the trainees and participants, adopting new teaching methodologies, testing methodological processes not mastered, taking on new teaching roles, and adapting to new learning and teaching processes, etc.
 - Coordination and communication among UNITAR divisions and project stakeholders (directors, managers, other staff, donors, implementing partners) were strongly affected by the pandemic. While this hindered the organization and implementation of activities, it also provided opportunities for adapting, streamlining and making processes more flexible. Most of the courses/modules converted online achieved good learning outcomes.
 - The online delivery model requires an in-depth needs assessment at the level of management and responses to questions on how to best adopt efficient coordination mechanisms, sharing methodological experiences, establish synergies within the organization, and widen the scope of programmes to reach new stakeholders, donors and the most vulnerable stakeholders.
 - While devising and implementing COVID-19 programme response measures and conversion to online delivery, directors, managers and project coordinators and other staff were exposed to high levels of stress and pressure in terms of ensuring business continuity, maintaining programme funding (reference to UNITAR as a fully project-funded entity) and taking care of personal and family health and welfare, all simultaneously.
 - While online delivery enabled business continuity during lockdowns and travel restrictions, this model of delivery had a significant impact on the most vulnerable stakeholders and the countries in need, in so far as these countries and stakeholders faced difficulties to access training, generally lacking Internet connectivity, IT devices, and facing other challenges.
5. In addition to the COVID-19 response evaluation, specific project evaluations undertaken since the onset of the pandemic have included questions on how projects have adapted/ responded to circumstances.
 6. Turning to the future, Management will be adjusting the objectives of the 2018-2021 strategic framework with a view to extending the framework for another four years, in line with the recommendations of the mid-term evaluation on the framework. In this light, Management will be proposing a specific objective on promoting health for all, particularly the most vulnerable people and countries, building on UNITAR's growing programme portfolio in this domain, as well as emphasizing getting the 2030 Agenda back on track, climate action and COVID 19 transformative power of digital technology and connectivity.
 7. Management continues to monitor the COVID-19 situation at UNITAR's Headquarters in Geneva and at the locations of its outposted offices and presences, in conjunction with advice and recommendations from the host government and UN officials

8. Management organized a virtual retreat of all staff in the first quarter of 2021, which included at least one session devoted to COVID-19 responses. With the rollout of vaccines and decrease in infections during the third quarter of 2021, staff have been requested to return to the office part-time (e.g. 40 per cent), while maintaining precautionary measures and social distancing. Management has also discussed internally how teleworking is evolving and what possible additional measures can be implemented at UNITAR.

Annexure 19: Results components of the 2022-2023 programme budget (Issued separately as UNITAR/BT/62/3)

UNITAR/BT/62/3

STRATEGIC OBJECTIVES (SO). RESULTS AREAS AND OUTPUTS

Strategic Objective 1.1

SO1. Promote peace and just and inclusive societies	1.1 Support institutions and individuals to contribute meaningfully to sustainable peace
<p>Sustaining peace entails a broad range of activities aimed at preventing the outbreak, continuation, escalation and recurrence of violent conflict. This sub-objective will focus on supporting institutions and individuals, including those who tend to experience marginalization, such as indigenous peoples, women, youth and others, to contribute meaningfully to sustainable peace by increasing capacities of stakeholders at different levels to prevent and resolve violent conflicts, restore the rule of law, and build lasting peace. This will entail strengthening capacities to effectively support social integration and peaceful coexistence; to address root causes of conflict and negotiate and mediate mutual beneficial and lasting solutions; and to establish legal and regulatory frameworks on access to information, public participation in decision making, and access to justice.</p>

			Assurance Framework Percentage of KAIPTC employees sensitized to quality assurance	Not applicable	Not applicable	60 per cent	Report/LOP	
PTP (Bonn)	16	Strengthened capabilities and motivation of police and CID personnel to deliver high-impact service to the population [New] LNOB GEEW	Percentage of participants fully meeting learning objectives at the end of the training	Not applicable	Not applicable	80 per cent	Report/LOP	Training delivered to 200 members of the personnel of Police and the Criminal Investigation Department
PTP (Bonn)	16	Increased capacity of women to contribute meaningfully to the sustaining peace agenda on all levels [New] LNOB GEEW	Percentage of beneficiary respondents agreeing or strongly agreeing that their knowledge and awareness on the subject matter have increased	Not applicable	Not applicable	75 per cent	Survey/ Questionnaire	Training delivered to 250 female leaders and allies

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations; that beneficiaries, international partners and donors value the services of the programme; and that beneficiaries take action to follow-up on methodological guidance and training.

Strategic Objective 2.1

SO2. People and social inclusion	2.1 Promote people's well-being, including the protection and empowerment of groups that are vulnerable and marginalized
<p>Learning is crucial to promoting people's well-being and social inclusion. It provides a lever for individuals to open doors; understand problems; find solutions; and participate in economic, social and political life. Unfortunately, many segments of society have been marginalized and made vulnerable, such as disabled persons, indigenous peoples, migrants, and internally displaced people and refugees. This sub-objective will focus broadly on developing people's well-being, with emphasis on helping individuals acquire knowledge and skills to promote sustainable development. Learning and related programming focusing on improving stakeholders' capacity to tackle non-communicable diseases and improve patients' ability to practice self-care and manage their diseases, entrepreneurial and productive capacities, on the development and implementation of migration policies and on education for sustainable development are some examples of activities.</p>	

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
Hiroshima Office (HO)	4	Increased capacity to further promote Tsunami based DRR for women in the Pacific SIDS GEEW and LNOB	Percentage of participants fully meeting learning objectives at the end of the training	97 per cent	70 per cent	70 per cent	Survey/ Questionnaire	Training delivered to 200 participants
Social Development Programme Unit (SDP)	8	Strengthened capacities of governments to address the multiple challenges and opportunities resulting from migration GEEW and LNOB	Percentage of government officials and other stakeholders trained meeting learning objectives	Not measured	85 per cent	85 per cent	Report	2,600 beneficiaries reached
SDP	11	Strengthened capacity of local and national officials to tackle road safety issues GEEW and LNOB	Percentage of conference participant respondents agreeing or strongly agreeing that awareness on subject matter has increased	92 per cent	90 per cent	85 per cent	Survey/ Questionnaire	8,000 of beneficiaries reached 300 participants completing the course, 30 Road Safety Professionals completing the e-learning

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations, and that beneficiaries, international partners and donors value the services of the Institute. It is assumed that health institutions will recognise the clear relationship between COVID-19 mortality and non-communicable diseases and allocate resources to focus on NCD management and care throughout the COVID-19 pandemic.

Strategic Objective 2.2

SO2. People and social inclusion	2.2 Strengthen representation of countries in special situations in institutions of global governance
Supporting and promoting multilateralism and institutions of global governance is of great relevance and importance in today's world. Effective multilateral institutions require equitable representation; as well as strengthened capacities, including knowledge, awareness, skills and attitudes, for delegates and other stakeholders to take part meaningfully and constructively in multilateral processes. This sub-objective aims to develop knowledge, skills and awareness on the processes, procedures, issues and decision-making arenas of multilateral institutions, with a focus on the United Nations system.	

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations, and that beneficiaries, international partners and donors value the services of the Institute.

Strategic Objective 2.3

SO2. People and social inclusion					2.3 Promote health for all, particularly the most vulnerable people and countries			
Achieving Universal Health Coverage and building strong, resilient health systems requires public, private, people partnerships. Ensuring that low resource countries have essential institutional capacities, structures, systems and financing in place to tackle the most pressing health challenges like non-communicable diseases in a sustained and sustainable manner. This sub-objective aims to support countries' progress towards achieving SDG 3.								
Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)

								monitoring and evaluation system for NCDs
--	--	--	--	--	--	--	--	---

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations, and that beneficiaries, international partners and donors value the services of the Institute. It is assumed that health institutions will recognise the clear relationship between COVID-19 mortality and non-communicable diseases and allocate resources to focus on NCD management and care throughout the COVID-19 pandemic.

Strategic Objective 3.1

SO3. Planet, environmental protection and restoration, and climate change	3.1 Foster a green, low carbon and climate resilient transition
<p>Enhancing individual and institutional, legal and technical capacities to adapt to climate change is essential, as is supporting the transition to greater resource efficiency, low carbon growth, responsible consumption and production, based on circular economy principles. Under this subobjective, we will continue to work with various partners, including a broad spectrum of UN entities and national educational institutions, to design, develop and implement learning strategies as a pathway to achieving green, low-carbon and climate resilient development. We will focus on developing both foundational knowledge and applied skills in the analysis of climate vulnerabilities and risks, the identification and prioritization of response measures and in the design and implementation of strategies to promote green growth and climate change resilience.</p>	

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations and that the necessary human resources and key sub-contractors can be sourced within the required timeframes.

Strategic Objective 3.2

SO3. Planet, environmental protection and restoration, and climate change	3.2 Strengthen the sound and sustainable management of chemicals and waste
Continued support to increase legal, technical and infrastructure capacities of governments and other relevant stakeholders to implement chemicals and waste conventions, global agreements and systems. This is critical in the period 2022-2023 as the international community negotiates a new framework for the sound management of chemicals beyond 2020 and Issues of Global concern, such as plastics, becomes more visible globally.	

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)

		improve national capacity for treatment of electrical and electronic products [New] LNOB and GEEW	manage chemicals and hazardous chemicals under the international conventions and other agreements					

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations; beneficiaries, international partners, and donors value the services of the programme; and that beneficiaries take action to follow-up on methodological guidance and training.

Strategic Objective 3.3

SO3. Planet, environmental protection and restoration, and climate change				3.3 Improve the conservation and sustainable use of natural resources				
Activities under this sub-objective will focus on the enhancement of capacities of key stakeholders to contribute to the implementation of internationally agreed environmental obligations. New programming will include renewable energy and cooperation in the production and management of clean energy technology; legal, technical and other capacities for legal frameworks pertaining to oceans and seas; and ecosystem-based approaches to protect marine and coastal ecosystems.								
Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
Green Development and Climate Change Programme Unit (GCP)	14	Increased knowledge of key stakeholders of equitable sharing of benefits from genetic resources in accordance with international legal regimes [New] LNOB	Number of existing knowledge platforms for the demonstration of Ocean Management accessed through the Hub	Not applicable	Not applicable	10	Survey/questionnaire or other means (to be specified)	Agreed specification for the construction of a high-end knowledge hub to support improved Ocean Management developed, Provision of ongoing performance guidance for use of the hub, Knowledge translation platform (KTP) completed and launched, At least two fully functioning Learning Pathways implemented, KTP user manual finalized and launched, KTP user survey conducted, KTP long-term funding strategy developed.

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations; beneficiaries, international partners, and donors value the services of the programme; and that beneficiaries take action to follow-up on methodological guidance and training.

Strategic Objective 4.1

SO4. Promote inclusive and sustainable economic growth	4.1 Help countries to achieve inclusive and sustainable economic growth
<p>Equitable and inclusive economic growth is essential to build societies that are resilient to future risks and ensure that all segments of society enjoy the benefits of sustainable development. Yet, inequality is on the rise. Poverty and COVID-19 contribute to NCDs, and NCDs contribute to poverty and lead to complicated COVID-19 cases. All disproportionately affect marginalized and traditionally under-represented peoples, while the digital transformation is intensifying the digital divide.</p> <p>This sub-objective thus focuses on building individual and institutional capacity to create sustainable economic opportunities and pursue inclusive strategies, policies and actions in health, trade, economics, and finance. UNITAR empowers marginalized segments of society such as NCD patients, women and youth to lead their communities in addressing pressing local needs. Policymakers and decisionmakers will be able to develop policies and systems that facilitate inclusive, equitable, and resilient prosperity. Business leaders will learn how to contribute to sustainable and inclusive development through their business activities. UNITAR programmes will cover knowledge and skills on inclusive strategies and policies, health, trade, finance, digital finance, combatting financial crimes, counterfeit medicines, and anti-corruption, debt financing and relief, restructuring and sound management, entrepreneurship and social entrepreneurship, private-sector development and digital technologies.</p>

SDP	11	Enhanced knowledge of civil aviation authorities on airport management as engines for economic growth and development [New] GEEW and LNOB	Percentage of trained beneficiaries confirming having met learning objectives mostly or fully	Not applicable	Not applicable	85 per cent	Report	Training delivered to 300 beneficiaries

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations, and that beneficiaries, international partners and donors value the services provided.

Strategic Objective 5.1

SO5. Support the indivisible and integrated nature of the 2030 Agenda	5.1 Optimize the use of new technology, including geospatial technologies for evidence-based decision-making
Science and technology are key elements for delivering the SDGs as one of the means of the implementation of the Agenda and are of great importance in enhancing the capacities at national and regional levels. The use of technology-based and innovative solutions will continue to play an important role in supporting a better informed and evidence-based decision-making processes by the UN system and Member States, in developing solutions with an integrated approach and in reaching more beneficiaries.	

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
United Nations Satellite Centre (UNOSAT)	16	Improved decision making through enhanced analyses and maps routinely available to support decision making processes related to human security and human rights issues LNOB	Percentage of eligible requests for support met	100 per cent	100 per cent	100 per cent	Survey/Questionnaire	Provision of satellite based analysis
			Percentage of requester agreeing that analysis provided was useful for decision making or operational coordination [New]	Not applicable	Not applicable	70 per cent	Internal unit monitoring data	
			Average number of views per GIS products published on UNOSAT's website [New]	Not applicable	Not applicable	60 views per product	Report/LOP	

UNOSAT	1	Improved routine access by international humanitarian community and Member States to high-quality satellite imagery analysis for senior level decision making and operational coordination & response in the field LNOB	Percentage of requests supported	100 per cent	100 per cent	100 per cent	Internal unit monitoring data	Consolidation of settlement data and analyses into a detailed database on infrastructure, shelter and population density for evidence-based camp management decision making, as well as for settlement planning for integration, operational planning and the local government planning, including access to satellite imagery through imagery feeds to UNHCR GIS systems., Web-based online platform and printable maps for each settlement, including information package of the 20 largest camps in Africa. Refugee camp data will also feed UNHCR Geographic Information System database. UNOSAT Mapping Service activated 15 times per year for humanitarian purposes in the context of REACH UNOSAT Mapping Service activated 25 times in 2022 for Humanitarian purposes
			Number of Camps fully mapped [New]	Not applicable	Not applicable	20 camps	Internal unit monitoring data	
			Percentage of requester agreeing that analysis was useful for decision making or operational coordination [New]	Not applicable	Not applicable	70 per cent	Survey/Questionnaire	
			Average number of views of GIS products published on UNOSAT's website [New]	Not applicable	Not applicable	60 views per product	Internal unit monitoring data	

UNOSAT	13	Enhanced evidence-based decision making in Fiji, Solomon Islands, and Vanuatu by using CommonSensing solutions for DRR and CCA	Number of government ministries in Fiji, Solomon Islands, and Vanuatu using CommonSensing solutions to inform policy and decision making	Not applicable	4 per country	4 per country	Internal unit monitoring data	Training delivered to 50 beneficiaries
UNOSAT	11	Increased skills and capacity of national and regional experts to use satellite derived mapping and GIS for disaster risk reduction, emergency response and territorial planning and monitoring	Percentage of beneficiaries using skills in national or regional context Percentage of participants of UNOSAT's in person trainings who successfully achieve learning objectives [New]	90 per cent Not applicable	80 per cent Not applicable	80 per cent 75 per cent	Internal unit monitoring data Survey/Questionnaire	Training delivered to 70 beneficiaries
UNOSAT	9	Enhanced cooperation with partners through the provision of tailor-made solutions for leveraging geospatial information in decision-making [New]	Percentage of response to eligible backstopping requests [New]	Not applicable	Not applicable	100 per cent	Internal unit monitoring data, Survey/Questionnaire	Ad hoc technical backstopping provided to a minimum of 8 national and regional partners, Establishment of the UNOSAT knowledge platform Implementation of solution for project monitoring using satellite imagery and geospatial information

Assumptions and external factors

It is expected that funding of the above expected results will be in place. An important element for the budget period is that of engaging UNOSAT more at the regional and national level and ensuring that the knowledge generated by the programme is also available to senior UN management, with strengthened cooperation planned with UN Secretariat, including regional commissions.

Strategic Objective 5.2

SO5. Support the indivisible and integrated nature of the 2030 Agenda	5.2 Support coherence and evidenced-based policies of the 2030 Agenda
<p>The 2030 Agenda will require all countries and stakeholders to work together to implement the SDGs. It is crucial to continue increasing the awareness, but also building knowledge, skillsets and ability of various constituencies to act in support of the global goals in personal and professional capacities. Many Member States and key partners still need support for implementing and monitoring progress on the 2030 Agenda and producing and using evidence to inform decisions more effectively, with emphasis on enhancing the capacities of countries - in particular those in special situations - in promoting coherent and evidence-based policies and in improving multi-stakeholder engagement at the national level.</p>	

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
Agenda 2030 Programme Unit (Agenda 2030)	17	Strengthened capacities of pilot countries to adjust systems for integrated and coherent policy design and implementation and to promote more inclusive and agile institutions GEEW and LNOB	Share of training participants confirming their knowledge and skills for integrated and coherent policy design have increased	Not applicable	70 per cent or more	70 per cent or more	Report/LOP	Training delivered to 60 beneficiaries, National SDG Action Plan and monitoring framework, SDG Communication Strategy A guidance developed on an effective learning approach to strengthening integrated policy-making on specific policy issues
			The beneficiary country applies the proposed methodologies on policy coherence to adjust national systems for SDGs [New]	Not applicable	Not applicable	Methodology used for the design of SDG Action Plan and monitoring framework	Survey/Questionnaire	
			Developed learning approach to strengthening integrated policy-	Not applicable	Not applicable	70 per cent	Survey/Questionnaire	

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
			making on specific policy issues using system thinking is assessed as effective by beneficiaries [New]					
Agenda 2030	17	Strengthened capacities of countries to close data gaps through better planning and partnerships and to leverage data analysis to inform decision-making and reporting on the SDGs GEEW and LNOB	Share of polled data tool and product users indicating they find them useful and effective for addressing their priority data gaps related to monitoring SDGs Share of polled data producers, users and other stakeholders indicating their awareness of specific opportunities, limitations and quality requirements to leverage citizen-generated data has increased	Not applicable Not applicable	30 per cent or more 70 per cent or more	30 per cent or more 70 per cent or more	Survey/Questionnaire Internal unit monitoring data	60 citizen scientists benefit from coaching, 4 data sets produced by citizen scientists assessed on quality requirements from NSO perspective, Impact assessment and updated guidelines on citizen science data for NSOs Data tools and products available in 1 additional language
Agenda 2030	17	Well matched learning needs of individuals and organizations on SDGs ensuring effective SDG	Share of polled learners/respondents who believe they are better positioned to develop or implement coherent policies and policies aimed at ensuring	Not applicable	70 per cent or more	70 per cent or more	Internal unit monitoring data	100 persons or more completed e-learning on policy coherence and stakeholder engagement with focus on Leave No One Behind,

Programme Unit	SDG	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
		learning resulting in behavioural change GEEW and LNOB	leaving no one behind (LNOB) Share of polled UNSDG: Learn respondents finding content relevant and search tools as effective [New]	Not applicable	Not applicable	70 per cent or more	Survey/Questionnaire	5,000 persons have benefitted from UNSDG:Learn Learning Pathways service, 5,000 learners have self-assessed SDG competencies, 2,500 learners benefitted from SDG e-learning

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding to support activities is secured in accordance with expectations; that beneficiaries, international partners and donors value the services of the programme; and that beneficiaries take action to follow-up on methodological guidance and training.

FUNCTIONAL OBJECTIVES (FO)

Functional Objective 1

FO1. Sound executive leadership	Maintain sound executive leadership, stewardship and governance
Positioning the Institute in an increasingly competitive and resource constrained environment is critical to enable the Institute to successfully deliver on its mandate and achieve organizational results. The Office of the Executive Director, led by the Executive Director, provides overall direction, executive management and stewardship and strategy formulation, as well as liaison with and reporting to the Board of Trustees.	

Functional Unit	Result Area	Indicator(s)	Performance Measure 2016-2017 (Actual)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
Office of the Executive Director (OED)	Effective leadership with a view to promoting the Institute's strategic priorities and monitoring of corporate result	Percentage of corporate key performance indicators achieved within 80 per cent of target	78 per cent	81 per cent	80 per cent	80 per cent	Other: KPI internal monitoring data	Key performance indicators formulated and monitored to promote the implementation of strategic priorities
OED	Effective implementation of decisions / recommendations of oversight and governance bodies	Percentage of Board of Trustees recommendations implemented within specified timeline	100 per cent	80 per cent	80 per cent	80 per cent	Internal monitoring data and report	Reports produced of the Board of Trustees and subsidiary body sessions Reports of regular management meetings Internal policies developed and application effectively monitored
		Percentage of audit recommendations	55 per cent	78 per cent (2018 audit)	100 per cent	100 per cent	Report	Development/revision and implementation of policies and

Functional Unit	Result Area	Indicator(s)	Performance Measure 2016-2017 (Actual)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
		under sole UNITAR control implemented from previous external audit exercises						related actions to implement Board decisions/ recommendations

Assumptions and external factors

The Institute is expected to achieve the expected results on the assumption that funding and staffing to support activities are secured in accordance with expectations and programme budget targets, and Board of Trustees provides the needed oversight, support and guidance.

Functional Objective 2.1

FO2. Strengthen programming for results	2.1 Further strengthen programme planning and improve accountability and organizational learning in delivering results
<p>Delivering effective, efficient and sustainable results in an increasingly resource-constrained and competitive environment requires policies, practices and systems to be in place to ensure accountability and organizational learning. Since 2010, the Institute has developed an integrated results-based management system with a monitoring and evaluation policy framework at its core. While systems and policies are in place for effective planning, monitoring, evaluation and performance reporting, promoting a results-based culture across the Institute where practices for strong accountability and organizational learning are given the right balance of attention is still in progress. During the 2022-2023 budget cycle, the Institute will continue to work towards addressing this imperative under the leadership of the Planning, Performance Monitoring and Evaluation Unit, including through a revised Evaluation Policy that places new emphasis on impacts of UNITAR's work.</p>	

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
Planning, Performance Monitoring and Evaluation Unit (PPME)	Maintained accountability in delivering results [RD]	Percentage of donor funded project documents having logical frameworks or other results formulations with indicators / performance measures	20 per cent	90 per cent	90 per cent	Internal monitoring of data of project recorded on the Project Tracking Tool	Provision of methodological guidance and review of project documents and other results frameworks (e.g. annual work plans and results-based budgets); Awareness raising / training delivered to UNITAR staff on results-based management/ results formulation/theory of change/log frame;
		Percentage of donor funded project documents having SDG alignment	Not applicable	75 per cent	75 per cent	Internal monitoring of data of project recorded on the Project Tracking Tool	Two corporate results reports with CITSU; Coordination of results-based components of programme budgets;

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
							<p>One Programme Performance Report (2020-2021);</p> <p>Draft report of the Secretary-General on UNITAR (2023),</p> <p>One SDG alignment exercise;</p> <p>Coordination of 2 SFF annual narrative reports and liaison with SFF donors;</p> <p>Two UNSWAP evaluation and RBM KPIs monitored and reported</p>
PPME	Strengthened self-evaluation function	Percentage of self-evaluations sampled complying with Monitoring and Evaluation Policy requirements for learning-related programming [New]	Not applicable	Not applicable	90 per cent	Other: review of self-evaluation reports recorded on the Project Tracking Tool	<p>Methodological guidance provided through job aides, templates and coaching</p> <p>Meta-analysis report of self-evaluation undertakings issued</p>
		Percentage of sampled project completion evaluation reports that include findings, conclusions and recommendations [RD]	Not measured	80 per cent	80 per cent	Other: review of project completion evaluation reports recorded on the Project Tracking Tool	<p>Ten independent quality assessments/reviews of programme self-evaluations</p>

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
PPME	Strengthened independent evaluation function	Proportion of recommendations from independent evaluations implemented by programming within six months of issuance	81 per cent	85 per cent	85 per cent	Other: Independent Evaluation recommendation tracking tool on Unitarnet	<p>40 independent evaluation reports issued</p> <p>1 knowledge sharing event organized to promote organizational learning</p> <p>40 impact stories issued</p> <p>Two corporate measurements of application of learning</p> <p>Five independent project evaluations</p> <p>Two independent programme/cluster evaluations</p> <p>Four impact stories developed</p>
PPME	Effective knowledge integration and organizational learning	<p>Managers from projects confirming that lessons learned informed the design of future phases of those projects [RD]</p> <p>Percentage of projects in which lessons learned inform the design of future phases of</p>	<p>Not measured</p> <p>Not applicable</p>	<p>80 per cent</p> <p>Not applicable</p>	<p>80 per cent</p> <p>80 per cent</p>	<p>Survey/Questionnaire</p> <p>Survey/Questionnaire</p>	<p>Repository updated on lesson learned</p> <p>One knowledge sharing forum on integrating lessons-learned for quality improvement in programming</p> <p>Two good practice documents developed</p>

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
		those projects [New]					

Assumptions and external factors

The Institute is expected to achieve the expected accomplishments on the assumption that funding and staffing to support activities are secured in accordance with expectations and that programme units engage and follow up on recommendations issued.

Functional Objective 2.2

FO2. Strengthen programming for results	2.2 Further strengthen the quality of UNITAR products and services
<p>Strengthening the quality of products and services has figured among the Institute's objectives since 2010, and Management has undertaken important steps in this direction with the identification and adoption of quality standards and processes. In 2017, UNITAR revised its Quality Assurance Framework for learning-related events to validate and strengthen quality, as well as provide a platform for sharing experiences and lessons on quality review. Further strengthening learning and related services is undeniably central to positioning UNITAR among the leaders in the training and capacity development industry.</p>	

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
PPME	Improved implementation know-how to align learning events with quality assurance tools	Percentage of sampled Quality Assurance Framework self-assessments meeting at least 8 of 10 criteria	Not measured	80 per cent	80 per cent	Other: Independent review of Quality Assurance Framework self-assessments	<p>Delivery of certification course on training development to UNITAR staff</p> <p>Methodological guidance provided to programmes for self-assessment against quality standards</p> <p>Ten independent reviews performed on Quality Assurance Framework self-assessments</p>
PPME	Endogenous learning strengthened contributing to quality improvement	Percentage of quality assurance review recommendations implemented	Not measured	85 per cent	85 per cent	Other: quality assurance review recommendations monitoring	Recommendations submitted to programmes for quality improvement

Assumptions and external factors

The Institute is expected to achieve the expected accomplishments on the assumption that a funding and staffing to support activities are secured in accordance with requirements, and that programme units engage and follow up on recommendations issued.

Functional Objective 3

FO3. Optimize efficiency	3.1 Optimize efficiency by leveraging programme synergies, streamlining internal operations and reducing external service costs
<p>Quality programming and delivery of effective results require a light and efficient administrative apparatus and minimal external service costs. Over the course of the biennium, the Institute will continue efforts to streamline internal operations and reduce administrative costs, while at the same time ensuring compliance with the applicable United Nations rules, regulations and procedures. The Institute will aim to achieve the expected results through the Division for Operations, comprised of the following three units: Administration and Procurement, Budget and Finance and Human Resources. In line with the Secretary-General's Data Strategy, the Institute will develop an overall Data Strategy, aiming to achieve greater data access and sharing, improved data governance and collaboration, robust data protection and privacy, enhanced efficiency across our operations, greater transparency and accountability to better serve our constituencies and promote a data-driven organization.</p>	

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
Administration and Procurement Unit	Improved efficiency and Speed in processing procurement transactions	Reduction in processing days from 7 to 5 days [RD]	Not applicable	Not applicable	5 days (from 7 days)	Internal unit monitoring data (Request submission date and RFP approval date)	Regular processing of procurement requests and payments Support provided to Committee on Contracts
Finance and Budget Unit (FBU)	Lead and support the Institute's programme and operations units for smooth transition into New Oracle Cloud ERP [New]	Successful migration of all active projects financial data	Not applicable	Not applicable	Transition complete by Dec 2022	Internal unit monitoring data	Availability of all active project information along with open POs
FBU	Integrity of the Financial Data of project	Mapping and Complete reconciliation of Atlas accounts	Not applicable	Not applicable	31 March 2023	Test results	Preparation of accurate Financial Statements and Reports for Fiscal Year 2022 from the new ERP

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
	Accounts and Project balances in the new accounting architecture of Oracle Cloud ERP [New]	and the balances vs Cloud natural accounts and reconciliation of project account balances					
FBU	Re-create increased visibility of financial information in the new Oracle Cloud ERP for better project financial planning and Management [New]	Redevelopment of project financial dashboards for program personnel	Not applicable	Not applicable	30 September 2022	Internal unit monitoring data	Two basic financial dashboards or tools to help project financial planning and management
FBU	Create and maintain sound Accounting and Financial Reporting System in the new Oracle ERP [New]	No material errors in the Financial Audits	Not applicable	Not applicable	31 May 2023	Test results	Unqualified Audit Opinions for the Institute's Financial Statements
Human Resources Unit (HRU)	Timely workforce profiling and alignment with	Number of processing days for issuance of classification advice	Not applicable	At least 15 days (in accordance with circular AC/UNTAR/2019/16)	At least 15 days	Other	Classification advice issued for each classified post

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
	corporate needs	following request submission					
		Number of processing days for contract issuance following requests submitted by programmes	7	7 working days	7 working days	Other	Proper contractual management
HRU	Improved opportunities for development of skills / competencies	Timely renewal of LinkedIn license and distribution to programme units	Not applicable	LinkedIn Learning available to staff and in accordance with circular AC/UNITAR/2019/09	LinkedIn Learning available to staff and in accordance with circular AC/UNITAR/2019/09	Other	Renewal of LinkedIn Learning license
HRU	Improved efficiency in the administration of Recruitment process	Integrate Consultants' evaluation into Roster part of e-recruitment Tool [New]	Not applicable	Not applicable	binary	Other	Consultancy Roster completed with evaluations
Communications and Information Technology Support Unit (CITSU)	EMS aligned to the industry standards	Number of steps for the registration and enrolment reduced for event Managers	Not applicable	EMS running on Drupal 8 (or 9 - TBD)	EMS running on Drupal 9	Internal unit monitoring data	the backend of EMS upgraded on the latest Drupal version
		New EMS running on the latest Drupal version, and	Not applicable	Not applicable	binary	Internal unit monitoring data	Front-end of the new EMS aligned with the website visual identity and layout

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 (Actual)	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
		visual identity and layout aligned to the website [New]					
CITSU	Moodle-EMS integration for smooth data transfer [New]	Number of steps for the reporting of participation and certification data for e-Learning courses	Not applicable	Not applicable	2 steps	Internal unit monitoring data	Moodle-EMS integrated and data transfer function operational
CITSU	New tool to manage programme requests [New]	Number of new tools designed and made available	Not applicable	Not applicable	2	Internal unit monitoring data	Two new platform designed, delivered and operational.

Assumptions and external factors

The Institute is expected to achieve the expected accomplishments on the assumption that funding to support activities is secured in accordance with expectations.

Functional Objective 4.1

FO4. Increase and diversify financial resources and partnerships	4.1 Increase and diversify partnerships and income in accordance 2022-2026 strategic and programme budget objectives
<p>As a project-based United Nations entity, partnership engagement and resource mobilization are critical and closely-linked functional enablers for UNITAR to delivery on its mandate. Over the past five years, the Resource Mobilization Strategy and objectives have helped project the Institute on a path of growth, despite much financial uncertainty and the onset of the COVID-2019 pandemic in early 2020. On the revenue side, the Institute will have surpassed the strategy's income target of \$64 million by 2021. The size of projects has also increased during this period, from an average of \$221,000 to close to \$300,000 (31 August 2021). A new Partnerships and Resource Mobilization Strategy will be presented to and endorsed by the Institute's Board of Trustees in November 2021, guiding UNITAR over the next four to five years. Under this new strategy, and recognizing that partnership engagement and resource mobilization are collective efforts led by Programme Units and Hosted Partnerships, but also supported by functional enablers, including in various capacities the Office of the Executive Director, Division for Operations, Finance and Budget Unit, Procurement and Administration Unit, and the Partnerships and Resource Mobilization Unit, the Institute will strive to secure increased partnerships and income through national level and UN country office programming, strengthened engagement with the business/private sectors, expanded hosted partnerships and increased loosely-earmarked strategic funds.</p>	

Functional Unit and Programmes	Result Area	Indicator(s)	Performance Measure 2020-2021 (Actual)	Performance Measure 2022-2023 (Target)	Means of verification	Key output(s)
Office of the Executive Director, Programme Units and Hosted Partnerships, Division for Operations, and Partnerships and Resource Mobilization Unit (PRMU)	Increase in income to match programme budget targets	Amount of income mobilized to meet programme budget targets	\$68.10 million	\$73.582 million	Internal monitoring data provided from ERP	<p>Resource mobilization and partnership engagement (Programme Units and Hosted Partnerships)</p> <p>Review/signatures of donor, IP, procurement and other agreements to enable Programme Units and Hosted Partnerships engage in successful mobilization of resources and programming (FBU, HRC, APU, PRMU)</p> <p>Recording of agreements in centralized repository (PRMU)</p>

Functional Unit and Programmes	Result Area	Indicator(s)	Performance Measure 2020-2021 (Actual)	Performance Measure 2022-2023 (Target)	Means of verification	Key output(s)
Office of the Executive Director, PRMU and Programme Units and Hosted Partnerships	Increased diversification of funding	Amount of income mobilized through engagement with UN country programming [New]	n/a	\$10 million	Internal monitoring data	Monitoring of and reporting on partnership and resource mobilization strategic objectives (PRMU)
		Amount mobilized in soft-earmarked contributions for Strategic Framework Funds	\$3,520,502 (tbc)	\$5,000,000	Internal monitoring data	Strategic engagement with donors for Strategic Framework Funds (OED) and private and business sectors and UN country programming (Programme Units and Hosted Partnerships)
		Amount of income mobilized through engagement with the private and business sectors [RD]	n/a	10 per cent	Internal monitoring data	

Assumptions and external factors

The Institute is expected to achieve the expected results areas on the assumptions that funding is secured by Programme Units and Hosted Partnerships according to budget and that donors (existing and new) continue to demonstrate interest and engagement in the Institute's programming and strategy, and that the Institute is able to further raise its visibility through strategic communications. Delivery of key outputs is under the responsibility of different internal stakeholders.

Functional Objective 4.2

FO4. Increase and diversify financial resources and partnerships	4.2 Effective and efficient due diligence for risk-informed partner engagement
<p>Strengthened engagement with implementing partners, private sector organizations and businesses and hosted partnerships is an important pillar of the 2022-2026 Partnership and Resource Mobilization Strategy. While partnership with these actors provides vast opportunities for growth, expansion in programming and advancing strategic objectives, engagement with these actors is not risk free and will require effective and efficient due diligence and risk assessment processes, closely monitoring of partner actions. An important pillar of the Partnership and Resource Mobilization Unit's work is to ensure that due diligence has been applied and that engagement with these partners is risk-informed and tolerated with realistic recommendations.</p>	

Programme	Result Area	Indicator(s)	Performance Measure 2020-2021 (Actual)	Performance Measure 2022-2023 (Target)	Means of verification	Key output(s)
PRMU	Efficient and effective exercises for risk-informed and risk tolerated partner engagement	Number of processing days to complete DD reviews of programme unit self-assessments upon receipt of complete files [New]	n/a	10 business days	Internal monitoring of data	Independent due diligence and risk assessments performed for implementing partners, businesses and hosted partnerships
		Percentage of IP agreements supported with DD exercises according to policy requirements [New]	n/a	100 per cent	Internal monitoring of data	IT support tool developed to support more effective DD and risk assessments processes and tracking of recommendations
		Percentage of DD related recommendations monitored for implementation [New]	n/a	100 per cent	Internal monitoring of data	Engagement and knowledge sharing with due diligence and risk assessment focal points across the UN system Policy on engagement with private sector and businesses reviewed and revised

Programme	Result Area	Indicator(s)	Performance Measure 2020-2021 (Actual)	Performance Measure 2022-2023 (Target)	Means of verification	Key output(s)
						Annual report on due diligence and risk with partners

Assumptions and external factors

The Institute is expected to achieve the expected accomplishments on the assumption that funding and staffing to support unit's activities is secured in accordance with expectations and that IT support is provided for the development and launching of effective tools.

Functional Objective 5

FO5. Enhance communications	5.1 Enhance coherence and effectiveness of internal and external communications, and strengthen the Institute's brand
<p>Good communications are vital to helping achieve strategic objectives. They increase awareness, build trust and credibility, and attract more beneficiaries and partners in the long run. Communicating effectively with and engaging our internal and external stakeholders will increase the impact of our work. Effective communications should be embedded in all our work, from project level to corporate level activities. To achieve this functional objective collectively by all programmes, offices and sections, the Communication and Information Technology Support Unit will provide tools, guidance and platforms, and facilitate exchanges of good practices from within and outside the Institute. In the next biennium, the Institute will design and implement a new communication strategy, which will support the achievement of the overall strategic framework from communication's perspective. The indicators of achievement will be defined once the strategy is approved.</p>	

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 ()	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
Communications and Information Technology Support Unit (CITSU)	Improved coherence in visual identity	Percentage of sampled communication products in compliance with communication guidelines	86 per cent	80 per cent	80 per cent	Internal unit monitoring data	Increased options for branding templates, branding guidelines training given to newcomers, guidelines for websites and other digital platform developed
CITSU	Increased outreach on social media	Percentage of increased followers on Twitter, Facebook and LinkedIn	Not applicable	10 per cent increase in Twitter and Facebook, 20 per cent increase in LinkedIn	10 per cent increase in Twitter and Facebook, 20 per cent increase in LinkedIn	Internal unit monitoring data	Information session given and guidance documents provided to communication focal points on social media for events., Provide coordination platform for programmes to submit content and training on the platform given.
CITSU	increased institutional information sharing with employees [New]	Number of video messages recorded/promoted with updates from the OED and directors on	Not applicable	Not applicable	10	Internal unit monitoring data	videos posted on yammer, videos promoted internally through other channels to reach employees in other countries, follow up on comments/responses from employees

Functional Unit	Result Area	Indicator(s)	Performance Measure 2018-2019 ()	Performance Measure 2020-2021 (Target)	Performance Measure 2022-2023 (Target)	Means of Verification	Key output(s)
		UNITAR latest developments					
CITSU	Improved outreach by email marketing [New]	Percentage of increase in email newsletter / course announcement recipients	Not applicable	Not applicable	10 per cent	Internal unit monitoring data	Regular coordination with communication focal points on content creation Provision of branded templates for units to follow.

Assumptions and external factors

The Institute is expected to achieve the key outputs on the assumption that funding to support activities is secured in accordance with expectation.
