Terms of Reference

Mid-term evaluation of UN CC:Learn 2014-2017 Implementation Phase

Background

1. UN CC:Learn – The One UN Climate Change Learning Partnership – is a partnership of more than 30 multilateral organizations supporting countries to design and implement systematic, recurrent and results-oriented climate change learning. Through its engagement at the national and global levels, UN CC:Learn contributes to the implementation of Article 6 of the UN Framework Convention on Climate Change (UNFCCC) on training, education and public awareness-raising, and the 2012-2020 Doha Work Programme. The Secretariat for UN CC:Learn is hosted by the United Nations Institute for Training and Research (UNITAR). Funding for UN CC:Learn is provided by the Swiss Government and UN partners.

2. UN CC:Learn has completed a three-year pilot phase (2011-2013) working in five pilot countries (Benin, Dominican Republic, Indonesia, Malawi and Uganda). The project has now entered into a further three-year implementation phase (2014-2017). Building on the pilot phase, the overall goal of the 2014-2017 implementation phase is to create sustainable individual and institutional capacities in developing and transitional countries, to plan and implement effective climate change actions, with collective and coordinated support of UN agencies and alliances, as well as other development partners. This is delivered through two project outcomes:

   - At the global level - enhance information-exchange, develop common learning materials, and coordinate learning interventions through collaboration of UN agencies and other partners.
   - At the national level - continue to advance systematic, long-term and results-based approaches to climate change learning and skills development in interested countries, working with national and regional institutions.

3. The implementation phase also reaches out to a number of important global thematic programmes, including the Global Support Programme for National Adaptation Plans (NAPs), the UN Initiative on Reducing Emissions from Deforestation and Forest Degradation in developing countries (UN-REDD), and UNFCCC mandated support for LDC climate change negotiators.

4. Following the adoption of the Paris Agreement in December 2015, Parties will submit National Determined Contributions (NDCs) – their updated national climate plans. As a forward looking exercise, it could be interesting to see to what extent National Climate Change Learning Strategies, developed as part of the UN CC:Learn support at national level, are linked to the NDCs.

Purpose of the evaluation

5. The 2014-2017 implementation phase of the UN CC:Learn project calls for an independent, external outcome evaluation to be undertaken after the phase’s mid-point in order to determine progress being made toward the achievement of planned targets, to identify any problems or challenges that the project may be encountering, and to issue recommendations for corrective action, if needed. The purpose is thus to provide findings and conclusions to meet accountability requirements and recommendations and lessons learned to contribute to improvement and organizational learning.
The evaluation exercise should not only assess project performance, but also seek to answer the ‘why’ question by identifying factors contributing to (or inhibiting) successful implementation and achievement of results.

**Scope of the evaluation**

6. The mid-term evaluation will cover the period from March 2014 through March 2016. It will cover both global and national project outputs and progress towards the expected outcomes, as indicated in the project logical framework (see Annex A). Although the scope of the evaluation does not include the pilot phase of the project (2011-13), the evaluator should take into account the pilot phase as background context in framing the evaluation’s findings and conclusions.

**Evaluation criteria**

7. The evaluation will assess project performance using the following criteria: relevance, effectiveness, efficiency and sustainability.

- **Relevance**: Is the project reaching its intended users and relevant to the targeted global and country specific needs and priorities?
- **Effectiveness**: To what extent is the project producing planned outputs and making progress towards attainment of outcomes?
- **Efficiency**: To what extent are outputs being produced in a cost effective manner?
- **Sustainability**: To what extent are the planned results likely to be sustained in the long term?

**Principal evaluation questions**

8. The following questions are suggested to guide the mid-term evaluation:

**Relevance**

**Global level**

a. Who are the users of the online resources and services offered by UN CC:Learn?
b. To what extent are the project’s outputs, including the UN CC:Learn knowledge-sharing and e-Learning platforms, relevant to the identified users?
c. To what extent are UN CC:Learn training material relevant to global thematic programmes, e.g. the Global Framework for Climate Services, NAPs, UN-REDD+ and climate change negotiations and finance?

**National level**

d. How relevant are the UN CC:Learn learning strategies to national learning needs and priorities?
e. How relevant are resulting learning actions (both UN CC:Learn-supported and non UN CC:Learn-supported) to national needs and priorities?

**Effectiveness**

**Global level**

f. To what extent has UN CC:Learn been successful in enhancing information exchange between the UN system and users, developing common learning materials and delivering learning interventions in collaboration with multiple partners?
g. How far has the UN CC:Learn partnership increased its effectiveness through engagement with key global climate change thematic programmes?

**National level**
h. To what extent have national learning strategies contributed to results-based approaches to climate change learning and skills development?

i. To what extent have the strategies strengthened learning institutions at the national level and to what extent have the knowledge and skills of individuals participating in learning actions been developed?

**Efficiency**

**Global level**

j. How cost-effective have the UN CC:Learn website and e-learning platform proven to be to support learning on climate change?

k. To what extent have UN CC:Learn learning products been co-financed by other partners or major thematic programmes and what results have been achieved with such co-financing?

**National level**

l. How cost-effective have the national strategy development processes been, compared to the investment by UN CC:Learn?

m. To what extent have country projects been able to leverage co-financing and what results have been achieved with such co-financing?

**Sustainability**

**Global level**

n. How likely is it that enhanced information exchange and coordinated learning actions continue beyond the scope of the implementation phase of the project?

**National Level**

o. To what extent are the national coordination mechanisms established at the country levels likely to ensure strategy implementation in the medium to long-term?

**Project management, monitoring and evaluation**

9. The mid-term evaluation will also include an assessment of the quality, application and effectiveness of project management, monitoring and evaluation, including the performance of implementation arrangements and partnerships. In particular, the evaluation will seek to answer the following questions:

   p. Has the UN CC:Learn Secretariat been effective and efficient in supporting the delivery of UN CC:Learn activities at the national and global levels?

   q. How effective are the project’s implementing partner arrangements in delivering results?

**Evaluation Approach and Methods**

10. The evaluation will be undertaken by an international consultant under the overall responsibility of the UNITAR evaluation manager and in consultation with the UN CC:Learn Secretariat/manager of the UNITAR Green Development and Climate Change Programme. The evaluation will be undertaken in accordance with the UNITAR Monitoring and Evaluation Policy Framework and the Norms and Standards of the United Nations Evaluation Group.

11. The evaluation shall follow a participatory approach and engage a range of project stakeholders in the process. Data collection should be triangulated to the extent possible to ensure validity and
reliability of findings and draw on the following methods: comprehensive desk review, including a stakeholder analysis; surveys; key informant interviews; focus groups; and field visits (to selected countries). These data collection tools are discussed below.

12. The evaluator should engage in quantitative and qualitative analysis in responding to the principal evaluation questions and present the findings qualitatively or quantitatively as most appropriate.

**Data collection methods:**

*Comprehensive desk review*

The evaluator will compile, review and analyze background documents and secondary data/information related to UN CC:Learn. A list of background documentation for the desk review is included in Annex B.

*Stakeholder analysis*

The evaluator will identify the different stakeholders involved in UN CC:Learn. Key stakeholders at the global level include, but are not limited, to:

- The UN CC:Learn Secretariat
- Global UN CC:Learn partners/focal points
- The Swiss Agency for Development and Cooperation (SDC)
- Individual learners (distance and face-to-face) at national level
- Youth groups who benefited from UN CC:Learn activities.

Key stakeholders at the national level include, but are not limited, to:

- UN CC:Learn Ambassadors for Climate Change Learning
- National UN CC:Learn focal points
- Key national ministries (e.g. environment, education, economy)
- National education and training institutions
- Development partners
- Individuals involved in UN CC:Learn supported activities at the national/sub-national level, including participants in workshops and trainings.

*Survey(s)*

With a view to maximizing feedback from the widest possible range of project stakeholders, the consultant shall develop and deploy a survey(s) following the comprehensive desk study to provide an initial set of findings and allow the evaluator to easily probe during the key informant interviews.

*Key informant interviews*

Based on stakeholder identification, the evaluator will identify and interview key informants. The list of global focal points is available in Annex C. In preparation for the interviews with key informants (global and national), the consultant will define interview protocols to determine the questions and modalities with flexibility to adapt to the particularities of the different informants, either at the global or at the national level.
Focus groups

Focus groups should be organized with selected project stakeholders at the global and national levels to complement/triangulate findings from other collection tools.

Representative selection of countries to visit

The UN CC:Learn Secretariat proposes that two to three partner countries are selected for site visits, including one country from the pilot phase with ongoing activities in the 2014-2017 implementation phase and one to two new implementation phase countries. The following table lists the UN CC:Learn partner countries based on these criteria.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

The selection of countries to be visited shall be made on the basis of recommendations from the Steering Group and in consultation with the evaluation manager and the UN CC:Learn Secretariat. Regional and linguistic diversity should be taken into account.

Identify and interview key informants (national)

The evaluator will undertake country missions, each lasting between 3 to 5 days, to the selected countries. Based on the stakeholder analysis, the evaluator will identify national informants, whom he/she will interview during each mission. The list of national focal points is available in Annex C.

Gender and human rights

13. The evaluator should incorporate a human rights and gender perspective in the evaluation process and findings, particularly by involving women and other groups subject to discrimination. All key data collected shall be disaggregated by sex and be included in the draft and final evaluation report.

Timeframe, work plan, deliverables and review

14. The proposed timeframe for the evaluation spans from April to November 2016. An indicative work plan is provided in the table below.

15. The consultant shall submit a brief inception report following the comprehensive desk study and stakeholder analysis. The inception report should include a discussion of the project objectives and development context, and comment on or, if required, propose revisions to the suggested evaluation questions or data collection methods. The inception report should indicate any foreseen
difficulties or challenges in collecting data and confirm the final timeframe for the completion of the evaluation exercise.

16. Following data collection and analysis, the consultant shall submit a zero draft of the evaluation report to the evaluation manager and revise the draft on the basis of comments made by the evaluation manager.

17. The draft evaluation report should follow the structure presented under Annex D. The report should state the purpose of the evaluation and the methods used, and include a discussion on the limitations to the evaluation. The report should present evidence-based and balanced findings, including strengths and weaknesses; consequent conclusions and recommendations; as well as lessons to be learned. The length of the report should be no longer than 30 pages, excluding annexes.

18. Following the submission of the zero draft, a draft report will then be submitted to the project’s Technical Advisory Group (TAG) which is comprised of a member of the UN CC:Learn Secretariat, a representative of the UN CC:Learn global partners, a representative from national partners and a representative from Swiss Development Cooperation (donor).

19. The TAG will review and comment on the draft report and provide any additional information using the form provided under Annex E by 15 October 2016. Within two weeks of receiving feedback, the consultant shall submit the final evaluation report. The target date for this submission is 4 November 2016.

Communication/dissemination of results

20. The final mid-term evaluation report will be shared with all UN CC:Learn partners and be posted on an online repository of evaluation reports open to the public.

Professional requirements

21. The consultant should have the following qualifications and experience:

- MA degree or equivalent in an environment or natural sciences related discipline
- At least 7 years of professional experience conducting evaluation in the field of international development, with a preference in the focal area of the project
- Technical knowledge of the focal area
- Field work experience in developing countries
- Excellent research and analytical skills, including experience in a variety of evaluation methods and approaches
- Excellent writing skills
- Strong communication and presentation skills
- Cross-cultural awareness and flexibility
- Availability to travel
- Fluency in English and working knowledge of French and/or Spanish.

Contractual arrangements

22. The consultant will be contracted by UNITAR and will report directly to the Manager of the Planning, Performance and Results Section (‘evaluation manager’). The consultant should consult with the evaluation manager on any procedural or methodological matter requiring attention. The consultant is responsible for planning any meetings, organizing online surveys and undertaking administrative arrangements in connection with any travel that may be required in connection with field visits (e.g. accommodation, visas, etc.). The travel arrangements will be dealt with by UNITAR in accordance with the UN rules and regulations for consultants.

UNITAR provides a staff member to accompany the consultant to the French-speaking country.

Evaluator Ethics
The evaluator selected should not have participated in the project’s design or implementation or have a conflict of interest with project related activities. The selected consultant shall sign and return a copy of the code of conduct under Annex F prior to initiating the assignment.

Annexes:

A: Project logical framework
B: List of documents and data to be reviewed
C: List of UN CC:Learn Partners and Contact Points
D: Structure of evaluation report
E: Audit trail
F: Evaluator code of conduct

Target: 18 including 8 new SDC-financed modules | UN CC:Learn Secretariat figures |  
R4. E-learning products remain hard to access to key individuals and organizations due to poor internet access. |
| Costs of Outputs for Outcome 1 (in CHF):  
Output 1.1: (1) SDC contribution = 290,000; (2) % of total cost = 74%; (3) Total cost: 390,000  
Output 1.2: (1) SDC contribution = 240,000; (2) % of total cost = 44%; (3) Total cost: 540,000  
Output 1.3: (1) SDC contribution = 230,000; (2) % of total cost = 62%; (3) Total cost: 370,000  
Secretariat services: 310,000 |
| Output 2.1 | National Climate Change Learning Strategies developed and sustained through South-South-North dialogue and support. | Number of learning strategies developed through multi-stakeholder collaboration.  
**Baseline:** 5  
**Target:** 13, including 4 new SDC-financed Strategies  
Number of advisory missions carried out to share knowledge between pilot countries and new CC:Learn countries.  
**Baseline:** 0  
**Target:** 8 including 4 SDC-financed missions | UN CC:Learn Secretariat figures  
UN CC: Learn Secretariat travel data | A6. Experience gained in strategy development in the 5 pilot countries is (at least) partially transferable to other countries.  
R6. Political and governance context of new countries too heterogeneous to apply lessons learned from other countries. |
|---|---|---|---|---|
| Output 2.2 | National coordination arrangements defined that support sustainable Strategy implementation. | Responsibilities for coordination, resource mobilization, outreach, implementation of specific actions and M&E expressed in national strategies  
**Baseline:** 5;  
**Target:** 13 including 4 new SDC financed Strategies  
Number of government sectors per country implementing climate change learning actions in line with national learning strategies | National strategy documents  
UN CC:Learn Secretariat figures | A7. Coordination mechanisms exist that can provide established entry points for institutionalizing the national climate change learning strategies.  
R7. New coordination mechanisms are established that are parallel mechanisms that do not take into account or build on existing practices. |
### Baseline: 0
#### Target: at least 4

| Output 2.3 | Implementation activities designed, delivered and evaluated which are consistent with priorities included in national climate change learning strategies. | Number of priority learning actions implemented  
**Baseline:** 17  
**Target:** 33 including 8 new SDC financed actions  
Level of knowledge and skills of individuals that have participated in priority learning actions.  
**Baseline:** Kirkpatrick level 1  
**Target:** Kirkpatrick level 2 | UN CC:Learn Secretariat figures  
Evaluations of individual learning actions | A8. Countries are able to carry out effective needs assessments as a basis for defining the learning priorities on climate change.  
R8. Poor prioritization prevails due to political interference resulting in sub-optimal learning actions being implemented. |

### Costs of Outputs for Outcome 2 (in CHF):
- **Output 2.1:** (1) SDC contribution 460,000; (2) % of total cost = 45%; (3) Total cost: 1,020,000
- **Output 2.2:** (1) SDC contribution 360,000; (2) % of total cost = 50%; (3) Total cost: 720,000
- **Output 2.3:** (1) SDC contribution 610,000; (2) % of total cost = 45%; (3) Total cost: 1,370,000
- Secretariat services: 500,000.

### Activities (per Output)

| List of activities for Output 1.1:  
1.1.1 Fully implement platform for e-learning (www.uncclearn.org)  
1.1.2 Develop and implement online interface for tailor-made learning on climate change  
1.1.3 Up-grade existing functions of the platform and translate to | Personnel, equipment, financial resources (see Section 7) | A9. Online e-tool is considered to be intuitive and useful by the majority of users.

Annex B: List of documents/data to be reviewed

- Project document
- Logical framework
- UN CC:Learn Annual Reports, including financial reports
- Agreements concluded with implementing partners and respective reports
- Content of UN CC:Learn website
- Database of UN CC:Learn events
- Feedback survey on UN CC:e-Learn platform
- Data from UN CC:Learn platform
- Content from face-to-face events
- Partner country documents (e.g. reports, background studies, concepts notes, INDCs)
- Any other document deemed to be useful to the evaluation

Annex F: Evaluation Consultant Code of Conduct and Agreement Form

The evaluator:

1. Must present information that is complete and fair in its assessment of strengths and weaknesses so that decisions or actions taken are well founded.
2. Must disclose the full set of evaluation findings along with information on their limitations and have this accessible to all affected by the evaluation with expressed legal rights to receive results.
3. Should protect the anonymity and confidentiality of individual informants. They should provide maximum notice, minimize demands on time, and respect people’s right not to engage. Evaluators must respect people’s right to provide information in confidence, and must ensure that sensitive information cannot be traced to its source. Evaluators are not expected to evaluate individuals, and must balance an evaluation of management functions with this general principle.
4. Sometimes uncover evidence of wrongdoing while conducting evaluations. Such cases must be reported discreetly to the appropriate investigative body. Evaluators should consult with other relevant oversight entities when there is any doubt about if and how issues should be reported.
5. Should be sensitive to beliefs, manners and customs and act with integrity and honesty in their relations with all stakeholders. In line with the UN Universal Declaration of Human Rights, evaluators must be sensitive to and address issues of discrimination and gender equality. They should avoid offending the dignity and self-respect of those persons with whom they come in contact in the course of the evaluation. Knowing that evaluation might negatively affect the interests of some stakeholders, evaluators should conduct the evaluation and communicate its purpose and results in a way that clearly respects the stakeholders’ dignity and self-worth.
6. Is responsible for his/her performance and his/her product(s). They are responsible for the clear, accurate and fair written and/or oral presentation of study imitations, findings and recommendations.
7. Should reflect sound accounting procedures and be prudent in using the resources of the evaluation.

---

Evaluation Consultant Agreement Form

Agreement to abide by the Code of Conduct for Evaluation in the UN System

Name of Consultant: ____________________________

Name of Consultancy Organization (where relevant): ____________________________

I confirm that I have received and understood and will abide by the United Nations Code of Conduct for Evaluation.

Signed at place on date
